Chicago, IL 60601

RE: Case # 08-25 ³

PC#

Dear Mr. Melas:

This letter comes to you to express our concerns about your Case # 08-25, which is under consideration at this time.

As I understand it, there are at least fifteen (15) other States that are sending their TOXIC WASTE to our Peoria area for disposal.

This toxic waste is being dumped directly above our water supply, endangering our drinking water, and filling our air with unhealthy fumes.

We feel that this is reason enough to request that you help us put a stop to this. Let each STATE take care of its own toxic waste, as our River Rescue representatives are trying to do here in the Peoria Area.

Thank you for your time and consideration of our health needs.

Sincerely,

Rita Dooley
