

April 28, 2008

Please keep Peoria safe. Any hazardous waste landfill pose a threat to any community. This landfill is in the backyard of many homes and a major city! I really cannot see why this was allowed in a city of this size in the first place. Please keep our children and grandchildren safe and act in a responsible way to protect a community and not big business and money.

We had an earth quake just last week. Does this board understand the threat that could occur should we have a huge earth quake?
