To Whom it Concerns:

When the inspector came by we was in the process of tearing down a mobile home, but as of a few days later it was cleared and clean. We tried to do it in a timely manner but apparently we wasn't quick enough, because I have to work to support my family. I am an over the road ~~truck~~ truck driver.

The wood and insulation went to the landfill and the metal went to the recycle center.

The Health Department suggest to me to get further away from the creek in the past. Gorham Fire Department suggest it to me. I was trying to do what was right.

Don Terry of the Jackson County Health Department came down Aug. 20, 2008 and they dug holes to make sure nothing was buried and agreed the property was clean.
