ILLINOIS ENVIRONMENTAL PROTECTION AGENCY

MEMORANDUM

DATE: September 18, 2008

TO: Land Division File

FROM: Charlie King, DLPC/FOS – Springfield Region

SUBJECT: LPC # 0610405019 – Greene County

White Hall/Kraushaar # 2

C-08-135-C FOS File

NARRATIVE RE-INSPECTION REPORT DOCUMENT

The purpose of this memorandum is to serve as the Narrative Re-Inspection Report Document of an inspection conducted at the subject site on September 3, 2008 from approximately 12:30 a.m. until 1:00 p.m., by this author. The re-inspection was conducted to follow-up the original site inspection conducted on May 9, 2008, also by this author. That inspection resulted in the finding of multiple apparent violations that were alleged in this author's Narrative Inspection Report Document Memorandum to the Land Division File, dated June 18, 2008. That original inspection resulted in the issuance of two Open Dump Administrative Citation Warning Notices (ACWNs), issued to property owner John Kraushaar, Jr., and site operator Kyle Kraushaar, John Kraushaar, Jr.'s son, who apparently is a contractor in White Hall. The ACWN's were both dated June 19, 2008. Both ACWN's required a written response within 15 days of the date of each notice. Both ACWN's required site cleanup by September 1, 2008, and both ACWN's required the submittal of copies of receipts documenting the proper disposal or recycling of the wastes. As of the date of this narrative, no response or receipts had been received. As of the date of the re-inspection, no cleanup of the site had been conducted. In fact, if anything, it is suspected that additional wastes had been added to the site between the time of the original site inspection and the re-inspection. Additional wastes, beyond those observed during the original site inspection, were observed during the reinspection. However, due to the large amount of dense vegetation, observation was limited. Therefore, the same amount of open dumped wastes observed during the original inspection is being alleged to exist at the site during the re-inspection, i.e., 881 cu. yds. of wastes, most of which are demolition wastes.

The Narrative Inspection Report Document Memorandum to the Land Division File dated June 18, 2008 and following the initial site inspection of May 9, 2008, provided information of open burning inspections by the White Hall Police Department. That information will not be repeated herein.

The site that is the subject of this narrative is located at 531 W. Bridgeport Street, White Hall, IL 62092, which is where John Kraushaar, Jr. lives. The Legal and specific location information obtained from review of the Warranty Deed, was also presented in the original Narrative, and therefore, that information will also not be repeated herein.

No telephone number was available for John N. Kraushaar, Jr. Kyle Kraushaar's address is 225 East Sherman Street, White Hall, IL 62094. His telephone number is: 217/374-6053.

Upon arrival at the site on the day of the re-inspection, the weather was overcast with an air temperature was approximately 65° F. The winds were southeasterly at approximately 10 mph. Surface soil conditions were mostly dry.

Upon arrival at the site on the day of the re-inspection, I initially could not see much of the conditions at the site due to the very tall weeds, some of which were over seven (7) feet tall. However, closer examination revealed the same wastes previously observed on-site. Some dumped roofing wastes appeared to be recently dumped. The large truck near the garage was gone, but another large truck, this one a dump truck with old temporary license plates, had a full load of roofing shingles (as shown in the Digital Photographs).

During the re-inspection, 14 photographs were taken with a digital camera. They show the conditions at the site on the day of the inspection. From the photographs and the reinspection, as well as from the original site inspection sketch, a partially computer generated and partially hand-drawn sketch of the site was developed by this author. It shows the basic layout of the site, as well as the approximate locations and directions of the Digital Photographs. The digital camera assigns a three-digit number to each photograph, i.e., 001, 002, etc. This is how the photographs are referred to in this narrative and on the Digital Photograph pages. However, real numbers were used on the Site Sketch, i.e., 1, 2, etc. Copies of the Digital Photographs and the Site Sketch accompany this narrative.

The Digital Photographs are described as follows:

Photo # 001 shows lumber and wood chunks, and an empty drum.

Photo # 002 shows the overgrown weed area where the open dumped demolition waste is located.

Photo # 003 shows roofing wastes can barely be seen in the dense vegetation.

Photo # 004 shows demolition and other wastes in the dense weeds.

Photo # 005 shows clear evidence of open burned wastes.

Photo # 006 shows a continuation of the open burned wastes shown in previous photo # 005. This part of the pile matches up with the right side of the previous photo.

Photo # 007 shows a newer or more recently dumped pile of shingles.

Photo # 008 shows the same pile shown in photo # 007, from a different angle.

Photo # 009 shows a dump truck loaded with shingles and other wastes.

Photo # 010 shows temporary plates on the dump truck shown in photo # 009.

Photo # 011 shows the front of the dump truck with damage to the fender, the windshield and the driver's side window.

Photo # 012 shows demolition wastes are on the ground just beyond the landscape waste in the foreground.

Photo # 013 shows more shingles on the ground.

Photo # 014 shows two junk trucks in the dense vegetation.

Photo # 015 shows a closer view of the junk trucks shown in photo # 014.

Photo # 016 shows waste tires and metals on the east side of the garage, behind the house.

Photo # 017 shows seven foot tall weeds almost completely shielding dumped wastes from view.

Photo # 018 shows the front of John Kraushaar, Jr.'s house.

During the re-inspection, apparent violations of the Illinois Environmental Protection Act (Act) and of the regulations, Title 35, Illinois Administrative Code, Subtitle G (35 I.A.C.), were again observed. Those apparent violations of the Act are Sections: 9(a), 9(c), 21(a), 21(d)(1), 21(d)(2), 21(e), 21(p)(1), 21(p)(3) and 21(p)(7). An apparent violation of the regulations, 35 IAC, is Section: 812.101(a). Additional information regarding the violations can be found in the Open Dump Inspection Checklist, which accompanies this narrative and is a part of this report.

There are no other comments to report.
