1) Rulemaking: R04-08

A) Description:

The Board is preparing a rulemaking to amend its procedural rules to allow for electronic filings in all Board proceedings through the Board's "Clerk's Office On-Line" (COOL). The rules will address electronic filings and payment of filing fees.

B) Statutory authority:

Implementing Sections 5, 7.1, 7.2, 26, 27, 28, 29, 31, 32, 33, 35, 36, 37, 38, 40, 40.1, 40.2, 41, and 58.7 of the Environmental Protection Act (Act) [415 ILCS 5/5, 7.1, 7.2, 26, 27, 28, 29, 31, 32, 33, 35, 36, 37, 38, 40, 40.1, 40.2, 41, and 58.7] and authorized by Sections 26 and 27 of the Act [415 ILCS 5/26 and 27].

C) Scheduled meeting/hearing dates:

None scheduled at this time. Section 28 of the Act [415 ILCS 5/28] does not require public hearings concerning procedural rules. The Board therefore does not currently plan to schedule hearings in this rulemaking.

The Board would conduct hearings, however, if the level of public interest indicates that they are desirable.

D) Date agency anticipates First Notice:

The Board anticipates that it may propose amendments for first notice publication in the *Illinois Register* in the Fall or Winter of 2008.

E) Effect on small business, small municipalities, or not-for-profit corporation:

There may be an effect on any small business, small municipality, or not-for-profit corporation that appears before the Board in any type of proceeding. Proceedings before the Board include enforcement complaint actions, administrative citation actions, rulemaking proceedings, variance proceedings, adjusted standard proceedings, site-specific rulemaking proceedings, permit appeals, property tax certifications, underground storage tank appeals, pollution control facility siting appeals, and any other actions provided by law.

c) Part (Heading and Code Citation):

Definitions and General Provisions (35 Ill. Adm. Code 211)

1) Rulemaking: Docket number R09-6

A) Description:

Section 9.1(e) of the Environmental Protection Act [415 ILCS 5/9.1(e)] mandates that the Board update the Illinois definition of volatile organic material (VOM) to reflect the additions made by the United States Environmental Protection Agency (USEPA) to the list of compounds exempt from regulation as ozone precursors. Those compounds are determined by USEPA to be exempt from regulation under the state implementation plan (SIP) for ozone in the federal "Recommended Policy on the Control of Volatile Organic Compounds" (Recommended Policy) due to their negligible photochemical reactivity. On February 3, 1992 (57 Fed. Reg. 3945), USEPA codified its definition of VOM at 40 CFR 51.100(s), which now embodies the former Recommended Policy. This codified definition now includes all the compounds and classes of compounds previously exempted in the former Recommended Policy. The Illinois definition of VOM is presently codified at 35 Ill. Adm. Code 211.7150.

The Board has reserved docket number R09-6 to accommodate any federal amendments to the 40 CFR 51.100(s) definition of VOM that USEPA may make in the period January 1, 2008 through June 30, 2008. At this time, the Board is aware of one set of federal amendments to the federal definition of VOM that occurred during this update period. The amendments are described as follows:

March 24, 2008 (73 Fed. Reg. 2193)

USEPA adopted standards for the VOM content of aerosol coatings in subpart E of 40 C.F.R. 52. One segment of the rule amended the definition of VOM to specifically include as VOM content of aerosol coatings, for the purposes of the new subpart E, those compounds exempted from the definition of VOM under 40 C.F.R. 52.100(s).

POLLUTION CONTROL BOARD

JULY 2008 REGULATORY AGENDA

The Board will verify the existence of any other federal actions that may affect the text of the federal primary drinking water standards and the Board action required in response to each in coming weeks, by about mid-August 2008. The Board will then either propose corresponding amendments to the Illinois definition of VOM using the identical-in-substance procedure or dismiss docket R09-7, as necessary and appropriate. The nature of this federal action is such that the Board may solicit public comment on whether action to amend 35 Ill. Adm. Code 211.7150 will be necessary based on the March 24, 2008 USEPA amendments.

Section 9.1(e) mandates that the Board complete amendments within one year of the date on which USEPA adopted the earliest action upon which the amendments are based. In docket R09-6, the earliest federal amendments in the applicable period occurred on March 24, 2008. The due date for Board adoption would be March 24, 2009.

B) Statutory authority:

Implementing and authorized by Sections 7.2, 9.1(e), and 27 of the Environmental Protection Act [415 ILCS 5/7.2, 9.1(e) & 27].

C) Scheduled meeting/hearing dates:

None scheduled at this time. The Board will vote to propose any amendments at an open meeting in accordance with requirements established by Sections 27 and 28 of the Act [415 ILCS 5/27 & 28]. The Board will then schedule and conduct at least one public hearing, as required by Section 118 of the federal Clean Air Act (42 USC § 7418) for amendment of the Illinois ozone SIP.

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-August 2008, after which time the Board will either dismiss this docket or propose any amendments to the Illinois definition of VOM that are necessary in

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

JULY 2008 REGULATORY AGENDA

response to the federal amendments that have occurred. If the due date for Board adoption of amendments in this docket were assumed to be March 24, 2008, for the purposes of illustration, the Board would vote to propose amendments and cause a Notice of Proposed Amendments to appear in the *Illinois Register* by early January 2009. This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments. Alternatively, if no amendment to the Illinois definition is needed, the Board will promptly dismiss this reserved docket.

- E) Effect on small business, small municipalities, or not-for-profit corporations:

This rulemaking may affect any small business, small municipality, or not-for-profit corporation that engages in the emission of a chemical compound that is the subject of a proposed exemption or proposed deletion from the USEPA list of exempted compounds.

G) Related rulemakings and other pertinent information:

No other presently known proceeding would affect provisions of Part 211.

Section 9.1(e) of the Environmental Protection Act [415 ILCS 5/9.1(e)] provides that Title VII of the Act and Section 5 of the Administrative Procedure Act (APA) [5 ILCS 100/5-35, 40] shall not apply. Because this rulemaking is not subject to Section 5 of the APA, it is not subject to First Notice or to Second Notice review by the Joint Committee on Administrative Rules. Rather, the Board will cause a Notice of Proposed Amendments to appear in the *Illinois Register*, and it will accept public comments on the proposal for 45 days after the date of publication.

DEFINITIONS AND GENERAL PROVISIONS (35 Ill. Adm. Code 211)

NITROGEN OXIDES EMISSIONS (35 Ill. Adm. Code 217)

1) Rulemaking: R08-19

A) Description:

On May 9, 2008, the Board received a rulemaking proposal submitted by the Illinois Environmental Protection Agency (Agency) pursuant to Sections 27 and 28 of the Environmental Protection Act (Act) (415 ILCS 5/27, 28 (2006)). The proposal seeks to address part of the State's Clean Air Act obligations to meet nitrogen oxides (NO_x) reasonably available control technology (RACT) requirements. NO_x is one of the precursors to the formation of both ozone and particulate matter (PM_{2.5}). Illinois has two nonattainment areas for both 8-hour ozone and PM_{2.5}: greater Chicago and Metro-East/St. Louis. The proposal includes control of NO_x emissions from units such as: industrial boilers, process heaters, cement kilns, lime kilns, glass melting furnaces, furnaces used in steel making and aluminum melting, and fossil fuel-fired stationary boilers. In addition, the proposal includes conforming amendments for Part 211, concerning applicable definitions. The requirements apply in the nonattainment areas statewide.

DEFINITIONS AND GENERAL PROVISIONS (35 Ill. Adm. Code 211)
REGIONAL HAZE (35 Ill. Adm. Code 226)

1) Rulemaking: No docket presently reserved.

A) Description:

The Illinois Environmental Protection Agency (Agency) is currently developing amendments for proposal to the Board. This proposal would address the State's obligation to meet the requirements of the Clean Air Act (CAA) for Regional Haze, specifically the requirement for Best Available Regional Haze (BART). Section 169A of the CAA requires that each major source in existence in 1977, but not in operation before 1962, that may reasonably be anticipated to cause or contribute to any impairment of visibility in any Class I area shall procure, install, and operate BART. Major sources are defined as ones that have the potential to emit 250 tons per year or more of a visibility impairing pollutant in one of 26 specified categories, including but not limited to petroleum refineries, lime plants, steel mills, and fossil-fuel fired steam electric plants greater than 250 mmBtu. USEPA has identified sulfur dioxide, NO_x, and primary particulate matter (PM) as visibility impairing pollutants. This rule will affect BART applicable emission units statewide.

B) Statutory authority:

Implementing and authorized by Sections 10 and 27 of the Act [415 ILCS 5/10 and 5/27].

C) Scheduled meeting/hearing dates:

The Agency has stated that it anticipates submitting its rulemaking proposal to the Board in the Fall or Winter of 2008. Once a proposal is filed, the Board will hold hearings on the schedule established in Section 27 of the Environmental Protection Act [415 ILCS 5/27] for rulemakings that are required under the federal CAA.

Nitrogen Oxides Emissions (35 Ill. Adm. Code 217)

1) Rulemaking: R06-22

A) Description:

On January 19, 2006, the Board received a rulemaking proposal submitted by the Illinois Environmental Protection Agency (Agency) pursuant to Section 27 and 28 of the Illinois Environmental Protection Act (Act) (415 ILCS 5/27 and 28 (2004)). Included in this proposal are amendments to the regulations governing Nitrogen Oxide (NOx) emissions found at 35 Ill. Adm. Code Part 217, Subparts A, T, U, and W.

The amendments propose to update Part 217 to reflect recent amendments made by the United States Environmental Protection Agency (USEPA) to the Code of Federal Regulations concerning several test methods and procedures, and by the Illinois General Assembly to Section 9.9 of the Act concerning the sale of NOx allowances and the repeal of the stay provisions. The Agency proposes amendments intended to ensure that the NOx budgets for both the Electrical Generating Units (EGU) and the non-EGUs are not reduced by low-emitters in a way that was not anticipated at the time the rules were originally adopted by the Board. Finally, the Agency proposes clarifications to the dates and timing of allocations designed to simplify the administration of the NOx Trading Program. The

ILLINOIS REGISTER

Agency asserts that this proposal does not change the emission limits or require new control devices on affected sources.

- B) Statutory authority:
Implementing Sections 9.9 and 10 and authorized by Sections 27 and 28.5 of the Environmental Protection Act [415 ILCS 5/9.9, 10, 27 and 28.5].

- C) Scheduled meeting/hearing dates:
In its most recent status report filed with the Board, the Agency stated that it was determining whether the amendments proposed in this rulemaking are now moot or whether they would be best addressed in an amended format in another rulemaking. Upon receipt of the Agency's next status report, the Board will determine whether to schedule hearings.

- D) Date agency anticipates First Notice:
The Board anticipates adopting a first notice opinion and order in this rulemaking in the Fall or Winter of 2008.

WATER USE DESIGNATIONS AND SITE SPECIFIC WATER QUALITY STANDARDS (35 Ill. Adm. Code 303)

1) Rulemaking: R08-9

A) Description:

On November 1, 2007, the Board accepted a proposal for hearing in Water Quality Standards and Effluent Limitations for the Chicago Area Waterway System and the Lower Des Plaines River: Proposed Amendments to 35 Ill. Adm. Code 301, 302, 303, and 304 (R08-9). The proposal filed by the Illinois Environmental Protection Agency (Agency) on October 26, 2007, seeks to amend the Board's water quality standards for the "Chicago Area Water Way System" (CAWS) and the Lower Des Plaines River. On November 15, 2007, after the response time to the motion had run out, the Board granted the Agency's request to hold the hearings in this rulemaking in Chicago and Joliet.

In this rulemaking, the Agency proposes amendments to update the designated uses and criteria necessary to protect the uses for the waters currently designated for Secondary Contact and Indigenous Aquatic Life Uses. These specific designations were for those waters not suited for General Use activities. All waters in Illinois that carry these designations are water bodies that were a part of the engineering effort that reversed the flow of the Chicago River and are known as the CAWS and the Lower Des Plaines River. In 2000 and 2002, the Agency began pilot programs

B) Statutory authority:

Implementing and authorized by Sections 11, 13, and 27 of the Environmental Protection Act [415 ILCS 5/11, 13 & 27].

C) Scheduled meeting /hearing date:

The Board has scheduled 10 days of hearings in this rulemaking as required by Sections 27 and 28 of the Act [415 ILCS 5/27 & 28]. The first hearings were held in Chicago beginning on January 28, 2008, and the second hearings were held in Joliet beginning on March 10, 2008. The third group of hearings were held in Des Plaines beginning on April 23, 2008. Additional hearings are scheduled for June 16, 2008 and in September 2008 in Chicago.

D) Date agency anticipates First Notice:

The Board will consider this rulemaking for first notice publication in the *Illinois Register* in the Winter of 2008 or Spring of 2009.

Water Use Designations and Site Specific Water Quality Standards (35 Ill. Adm. Code 303)

1) Rulemaking: R07-21

A) Description:

On May 30, 2007, the City of Joliet (Joliet) filed a proposal for a site-specific rulemaking with the Board. Joliet's proposal seeks site-specific relief from the Board's general use water quality standards for copper and fluoride (35 Ill. Adm. Code 302.208(e) and (g)) and provisions for determining water quality based effluent limitations (35 Ill. Adm. Code 304.105). Joliet states that under its proposal, the general use water quality standards for copper and fluoride and the provisions for determining water quality based effluent limitations would not apply to that portion of Hickory Creek downstream from the Joliet Street Bridge in

Instead, Joliet proposes that its East Side WWTP discharge would have to comply with limits of 0.15 milligrams per liter (mg/L) for copper and 3.5 mg/L for fluoride as monthly average values.

Joliet explains that its petition is a follow-up to a March 30, 2007 Consent Order entered in a Will County Circuit Court case between Joliet, the Illinois Environmental Protection Agency, and the Attorney General's Office. According to Joliet, the Consent Order set interim daily maximum limits for copper limit (0.1156 mg/L) and fluoride (3.5 mg/L).

This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments. Alternatively, if no amendment to the Illinois definition is needed, the Board will promptly dismiss this reserved docket.

E) Effect on small business, small municipalities, or not-for-profit corporations:

This rulemaking may affect any small business, small municipality, or not-for-profit corporation in Illinois that owns or operates a "public water supply," as defined by Section 3.28 of the Act, *i.e.*, it has at least fifteen service connections or regularly serves an average of at least 25 individuals daily at least 60 days out of the year, or it is assisting a public water supply to demonstrate compliance.

G) Related rulemakings and other pertinent information:

No other presently-known proceeding would affect provisions of Part 611.

Section 17.5 of the Environmental Protection Act [415 ILCS 5/17.5] provides that Title VII of the Act and Section 5 of the Administrative Procedure Act (APA) shall not apply. Because this rulemaking is not subject to Section 5 of the APA, it is not subject to First Notice or to Second Notice review by the Joint Committee on Administrative Rules. Rather, the Board will cause a Notice of Proposed Amendments to appear in the *Illinois Register*, and it will accept public comments on the proposal for 45 days after the date of publication.

LABORATORY ACCREDITATION RULES (35 Ill. Adm. Code 611)

1) Rulemaking: No docket presently reserved.

A) Description:

The Illinois Environmental Protection Agency (Agency) is currently developing a proposal for filing with the Board. The proposal will seek to amend the public water supplies rules found in 35 Ill. Adm. Code 611 to cross reference the Agency's own laboratory accreditation rules found at 35 Ill. Adm. Code 186. These prospective amendments to Sections 611.359, 611.611, 611.646, and 611.648 would cross-reference the laboratory accreditation rules at 35 Ill. Adm. Code 186. Currently, the existing text of Part 611 references 35 Ill. Adm. Code 183, which are joint rules of the Agency, the Illinois Department of Public Health, and the Illinois Department of Nuclear Safety. A repeal of Part 183 has been completed.

B) Statutory Authority:

Sections 27 and 28 of the Illinois Environmental Protection Act [415 ILCS 5/27 & 28].

C) Scheduled meeting/hearing dates:

No meetings or hearings are scheduled at this time. Once the proposal is filed, the Board will conduct hearings as required by Sections 27 and 28 of the Act [415 ILCS 5/27 & 28].

D) Date Agency Anticipates First Notice:

An Agency submittal of the rulemaking proposal is anticipated by Fall or Winter of 2008. The Board will conduct proceedings pursuant to Sections 27 and 28 of the Environmental Protection Act [415 ILCS 5/27 & 28] upon receipt of the proposal and would cause a Notice of Proposed Amendments to appear in the *Illinois Register* when it decides to propose amendments for First Notice.

E) Affect on small business, small municipalities or not-for-profit corporations:

These amendments may affect small business, small municipalities, and not-for-profit corporations that own or operate a "public water supply", as defined by Section 3.28 of the Act, i.e., it has at least fifteen service connections or regularly serves an average of at least 25 individuals daily at least 60 days out of the year, or it is assisting a public water supply to demonstrate compliance with the federally-derived National Primary Drinking Water Standards of 35 Ill. Adm. Code 611. However, it is anticipated that the proceeding will not likely have a quantifiable affect on these entities because the program for national laboratory certification is voluntary. The burden of compliance with the requirements, such as filing documentation, reporting or completion of the necessary forms, likely will not increase.

GROUNDWATER QUALITY (35 Ill. Adm. Code 620)

1) Rulemaking: R08-18

A) Description:

On February 19, 2008, the Board received a rulemaking proposal from the Illinois Environmental Protection Agency (Agency) to amend the Board's groundwater quality rules (35 Ill. Adm. Code 620). On March 20, 2008, the Board accepted the Agency's proposal for hearing in Proposed Amendments to Groundwater Quality Standards, 35 Ill. Adm. Code 620, docket R08-18. In its proposal, the Agency notes that it is periodically necessary to amend the groundwater quality standards to account for new scientific data, federal updates, updated technical references, and the

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

JULY 2008 REGULATORY AGENDA

discovery of additional groundwater parameters. To that end, the proposed amendments, according to the Agency are intended to ensure that as the science and technical data behind the standards evolve, the groundwater regulations stay current.

The Agency states that in developing the proposal, the Agency evaluated the electronically-reported groundwater data for Illinois Resource Conservation and Recovery Act (RCRA) and solid waste facilities under its purview. A data query was conducted for some 300 groundwater parameters not included in 35 Ill. Adm. Code 620.Subpart C. The Agency explains that it also evaluated confirmed groundwater contaminants at various cleanup sites. The Agency now proposes, for example, updates to make Part 620 consistent with groundwater remediation objectives listed in the Tiered Approach to Corrective Action Objectives (TACO) (35 Ill. Adm. Code 742) for several chemicals detected in groundwater but not currently included in Part 620. The Agency also proposes a groundwater standard for perchlorate based on the new reference dose published by the United States Environmental Protection Agency (USEPA) and recommended by the National Academy of Science (NAS). Additionally, the Agency is proposing an amendment to the existing groundwater standard of 0.050 milligrams per liter (mg/L) for arsenic based on the amendment of the federal drinking water standard or maximum contaminant level (MCL) for arsenic to 0.010 mg/L. The Agency further proposes amendments to the provisions on incorporations by reference, including the addition of "Guidance Document for Groundwater Protection Needs Assessments (January 1995)," prepared by the Agency, the Illinois State Water Survey, and the Illinois State Geologic Survey.

B) Statutory authority:

Implementing and authorized by Section 8 of the Illinois Groundwater Protection Act (IGPA) [415 ILCS 55/8] and Section 27 of the Environmental Protection Act [415 ILCS 5/27].

C) Scheduled meeting /hearing date:

The Board has scheduled two hearings in this rulemaking as required by Sections 27 and 28 of the Environmental Protection Act [415 ILCS 5/28].

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

JULY 2008 REGULATORY AGENDA

The first hearing took place in Chicago on June 18, 2008, and the second hearing is scheduled to take place in Springfield on July 16, 2008.

D) Date agency anticipates First Notice:

The Board anticipates that it may propose amendments for first-notice publication in the *Illinois Register* in the Fall or Winter of 2008.

E) Effect on small businesses, small municipalities or not-for-profit corporations:

The Agency does not anticipate that the proposed amendments would have a significant impact on any small business, small municipality, or not-for-profit corporation. Sources and facilities that may be impacted would include those that cause, threaten, or allow the contamination of groundwater. According to the Agency, however, the proposed groundwater quality standards do not establish new corrective action or monitoring programs, and new constituent standards would be phased into existing programs, as appropriate, over time. The Agency explains that any economic impact resulting from applying the new standards therefore would be incremental and occur on a site-by-site basis over time. Considering the resource and its end users, the Agency indicates that economic benefits may result from adopting these standards, including reduced health risks, reduced expenses for treating water at wellheads, and reduced expenses for obtaining water supplies.

A) Description:

Section 13(c) of the Environmental Protection Act [415 ILCS 5/13(c)]
mandates that the Board update the Illinois underground injection control
(UIC) regulations to reflect amendments to the United States
Environmental Protection Agency (USEPA) UIC regulations.

The Board has reserved docket number R09-1 to accommodate any
amendments to the federal UIC regulations, 40 CFR 144 through 148,
during the period January 1, 2008 through June 30, 2008. At this time,

the Board is not aware of any federal amendments to the federal UIC rules that occurred during this update period.

The Board will verify the existence of any federal actions that affect the UIC regulations and the Board action required in response to each in coming weeks, by about mid-August 2008. The Board will then propose corresponding amendments to the Illinois UIC regulations using the identical-in-substance procedure or dismiss docket R09-1, as necessary and appropriate.

Section 13(c) mandates that the Board complete amendments within one year of the date on which USEPA adopted the earliest action upon which the amendments are based. In docket R09-1, if the earliest federal amendments in the applicable period were assumed to have occurred on the first day of the update period, on January 1, 2008, the due date for Board adoption would be January 1, 2009.

B) Statutory authority:

Implementing and authorized by Sections 7.2, 13(c) and 27 of the Environmental Protection Act [415 ILCS 5/7.2, 13(c) & 27].

C) Scheduled meeting/hearing dates:

None scheduled at this time. The Board will vote to propose any amendments at an open meeting in accordance with requirements established by Sections 27 and 28 of the Act [415 ILCS 5/27 & 28]. No hearing is required in identical-in-substance proceedings.

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-August 2007, after which time the Board will propose any amendments to the Illinois UIC rules that are necessary in response to the federal amendments that have occurred. If the due date for Board adoption of amendments in this docket were assumed to be January 1, 2009, the Board will vote to propose amendments and cause a Notice of Proposed Amendments to

This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments. Alternatively, if no amendment to the Illinois definition is needed, the Board will promptly dismiss this reserved docket.

Subtitle C of the federal Resource Conservation and Recovery Act (RCRA) to reflect the United States Environmental Protection Agency (USEPA) amendments to the federal RCRA Subtitle C regulations.

The Board has reserved docket number R09-3 to accommodate any amendments to the federal RCRA Subtitle C program, 40 CFR 260 through 270, 273, and 279, that USEPA made in the period January 1, 2008 through June 30, 2008. At this time, the Board is aware of three sets of federal amendments to the federal RCRA Subtitle C hazardous waste regulations that occurred during this update period which will require Board attention. Those amendments are described as follows:

January 2, 2008 (73 Fed. Reg. 57)

USEPA broadened an existing exclusion from the definition of solid waste for oil-bearing secondary materials that reinserted into the refining process. The exclusion now embraces the gasification of oil-bearing secondary materials when they are processed in a gasification system at a refinery for production of synthesis gas.

April 8, 2008 (73 Fed. Reg. 18970)

USEPA amended the October 12, 2005 (70 Fed. Reg. 59402) hazardous waste combustor rule to clarify several compliance and monitoring provisions and correct errors and omissions in the rule.

June 4, 2008 (73 Fed. Reg. 31756)

USEPA amended the F019 hazardous waste listing to exempt wastewater treatment sludges from zinc phosphating when used in a motor vehicle manufacturing process, subject to limitations.

The Board will verify the existence of any other federal actions that affect the RCRA Subtitle C regulations and the Board action required in response to each in coming weeks, by about mid-August 2008. The Board will then propose corresponding amendments to the Illinois UIC regulations using the identical-in-substance procedure or dismiss docket R09-3, as necessary and appropriate.

1) Rulemaking: Docket number R09-4

A) Description:

Section 22.4(d) of the Environmental Protection Act [415 ILCS 5/22.4(d)] mandates that the Board update the Illinois underground storage tank (UST) regulations to reflect amendments to the United States Environmental Protection Agency (USEPA) UST regulations. The mandate specifically excludes federal amendments relating to the design, construction, installation, general operation, release detection, release reporting, release investigation, release confirmation, out-of-service systems, and closure or financial responsibilities for USTs.

POLLUTION CONTROL BOARD

JULY 2008 REGULATORY AGENDA

A) Description:

Section 22.40(a) of the Environmental Protection Act [415 ILCS 5/22.40(a)] mandates that the Board update the Illinois Resource Conservation and Recovery Act (RCRA) Subtitle D municipal solid waste landfill (MSWLF) regulations to reflect the United States Environmental Protection Agency (USEPA) amendments to the federal RCRA Subtitle D MSWLF rules.

The Board has reserved docket number R09-2 to accommodate any amendments to the RCRA Subtitle D regulations, 40 CFR 258, that USEPA may make in the period January 1, 2008 through June 30, 2008. At this time, the Board is not aware of any federal amendments to the federal MSWLF rules that occurred during this update period.

The Board will verify the existence of any additional federal actions that may affect the text of the federal primary drinking water standards and the Board action required in response to each in coming weeks, by about mid-August 2008. The Board will then propose corresponding amendments to the Illinois RCRA Subtitle D MSWLF regulations using the identical-in-substance procedure or dismiss docket R09-2, as necessary and appropriate.

Section 22.40(a) mandates that the Board complete amendments within one year of the date on which USEPA adopted the earliest action upon which the amendments are based. In docket R09-2, if the earliest federal amendments in the applicable period were assumed to have occurred on the first day of the update period, on January 1, 2008, the due date for Board adoption would be January 1, 2009.

B) Statutory authority:

Implementing and authorized by Sections 7.2, 22.40(a) and 27 of the Environmental Protection Act [415 ILCS 5/7.2, 22.40(a) & 27].

C) Scheduled meeting/hearing dates:

None scheduled at this time. The Board will vote to propose any amendments at an open meeting in accordance with requirements established by Sections 27 and 28 of the Act [415 ILCS 5/27 & 28]. No hearing is required in identical-in-substance proceedings.

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-August 2008, after which time the Board will propose any amendments to the Illinois RCRA Subtitle D MSWLF rules that are necessary in response to the federal amendments that have occurred. If the due date for Board adoption of amendments in this docket were assumed to be January 1, 2009, the Board will vote to propose amendments and cause a Notice of Proposed Amendments to appear in the *Illinois Register* by mid-October 2008. This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments. Alternatively, if no amendment to the Illinois definition is needed, the Board will promptly dismiss this reserved docket.

E) Effect on small business, small municipalities, or not-for-profit corporations:

This rulemaking may affect any small business, small municipality, or not-for-profit that engages in the land disposal of municipal solid waste.

G) Related rulemakings and other pertinent information:

No other presently-known proceedings would affect the text of Parts 807, 810, 811, 812, 813, 814, or 815.

Section 22.40(a) of the Environmental Protection Act [415 ILCS 5/22.40(a)] provides that Title VII of the Act and Section 5 of the Administrative Procedure Act (APA) shall not apply. Because this rulemaking is not subject to Section 5 of the APA, it is not subject to First Notice or to Second Notice review by the Joint Committee on Administrative Rules. Rather, the Board will cause a Notice of Proposed Amendments to appear in the *Illinois Register*, and it will accept public comments on the proposal for 45 days after the date of publication.

MANAGEMENT OF USED AND WASTE TIRES (35 Ill. Adm. Code 848)

1) Rulemaking: No docket presently reserved.

A) Description:

The Illinois Environmental Protection Agency (Agency) is planning to propose amendments to the Board's regulations that will allow better implementation of the used and waste tire management program. The proposal will include, among others, changes necessary to make the Board's rules consistent with legislative amendments to Title XIV of the

Environmental Protection Act [415 ILCS 5/53 et seq.] resulting from Public Act 92-0024.

B) Statutory authority:

Sections 27 and 55.2 of the Environmental Protection Act [415 ILCS 5/27 and 55.2].

C) Scheduled meeting/hearing dates:

No meetings or hearings are scheduled at this time. Once the proposal is filed, the Board will conduct hearings as required by Sections 27 and 28 of the Act [415 ILCS 5/27 & 28].

D) Date Agency anticipates First Notice:

The Agency may submit a proposal to the Board as soon as the Fall or Winter of 2008, after which the Board will cause publication of a Notice of Proposed Rules in the *Illinois Register*.

E) Effect on small businesses, small municipalities or not-for-profit corporations:

This rulemaking may affect any small business, small municipality or not-for-profit corporation that manages used or waste tires.

STANDARDS AND REQUIREMENTS FOR NEW AND EXISTING MUNICIPAL
WASTE TRANSFER STATIONS (New Part)
INFORMATION TO BE SUBMITTED IN A PERMIT APPLICATION FOR A
MUNICIPAL WASTE TRANSFER STATION (New Part)
PROCEDURAL REQUIREMENTS FOR MUNICIPAL WASTE TRANSFER
STATION PERMITS (New Part)

1) Rulemaking: No docket presently reserved.

A) Description:

The Illinois Environmental Protection Agency (Agency) is working on a proposal to add new rules to the Board's waste regulations. Municipal waste transfer stations currently are regulated under 35 Ill. Adm. Code 807. The Part 807 rules were developed primarily for solid waste landfills. As applied to transfer stations, they are very general with many of the specific requirements for transfer stations imposed through permit conditions under Section 807.206. Transfer stations are increasing in

number and importance in Illinois' waste management system. In addition, the United States Environmental Protection Agency published in June 2002 "Waste Transfer Stations: A Manual for Decision-Making" (EPA530-R-02-002), guidance developed to "promote the use of best practices in transfer station siting, design and operation to maximize facilities' effectiveness while minimizing their impact on the community." The Agency is developing new Parts that will provide more specific requirements for the design, construction, operation and closure of municipal waste transfer stations as well as procedures for obtaining permits. Included with municipal waste transfer stations accepting garbage and general household and commercial waste are those transfer stations accepting exclusively construction and demolition debris or those used exclusively for landscape waste.

B) Statutory authority:

These rules will be proposed pursuant to Sections 4(i), 21(d), 22, 27 and 28 of the Environmental Protection Act [415 ILCS 5/4(i), 21(d), 22, 27, 28].

C) Scheduled meeting/hearing dates:

No meetings or hearings are scheduled at this time. Once the proposal is filed, the Board will conduct hearings in accordance with Sections 27 and 28 of the Act [415 ILCS 5/27, 28].

D) Date Agency anticipates First Notice:

The Agency may submit a proposal to the Board as soon as the Fall or Winter of 2008, after which the Board will cause publication of a Notice of Proposed Rules in the *Illinois Register*.

E) Effect on small businesses, small municipalities or not-for-profit corporations:

Generally, small businesses, small municipalities and not-for-profit corporations will not be affected by the proposal unless they receive municipal waste for transfer prior to treatment or disposal. For those that do, the substantive changes in requirements for design, construction and

operation are expected to be minimal with many existing transfer stations already in compliance with most of the standards and requirements. However, there may be some expense for upgrading existing transfer stations.
