STATE OF ILLINOIS  
Pollution Control Board

Dear Illinois Pollution Control Board,

This concerns Public Comment-File  
RE: Case 2012-126. I am writing to  
ask you to reject Ameren's request to  
delay the promised installation of SO<sub>2</sub>  
scrubbers. I live in East Peoria and am  
directly affected by the pollution emitted  
by the ED. Edwards & Duck Creek power  
plants. Being a 63 year old survivor of  
the replacement of 2 heart valves and a  
bypass in 2006 air quality is a big issue  
for me. Ameren is in violation of air quality  
standards. They need to correct this as  
soon as possible. It affects me when  
I try to hike the trails in Tazewell or  
Peoria Co. Please deny Ameren's request  
of an additional 5 years of polluting  
the air of central Illinois.

Sincerely,  
Robert Jorgensen
