Attachments: public comments on PCB 2013-024.pdf

RECEIVED
CLERK'S OFFICE
FEB 05 2013
STATE OF ILLINOIS
Pollution Control Board

Mr. Therriault,

I'm writing regarding case no. PCB 2013-024. On behalf of 3,757 CREDO Action members in Illinois, we urge you to deny Midwest Generation's request for a variance.

The attached public comments were collected by CREDO Action, and though they vary throughout, the messages within can be summed up as follows:

"Midwest Generation's dirty coal plants in Illinois have been dumping dangerous sulfur dioxide emissions into the air and making local residents sick for far too long. In order to reduce dangerous pollution and save lives in Illinois, I urge you to require the company to meet the pollution reductions it previously agreed to by voting no on the requested variance."

If you have any questions about these public comments, don't hesitate to contact me through the information provided below.

Sincerely,
Josh Nelson, Campaign Manager,
CREDO Action from Working Assets

RE: PCB 2013-024

Mr. Therriault

Illinois can't wait two more years of pollution from the coal generated electricity climate Change is already here. Don't make it worse. We have to correct this now or it will be too late and we humans might as well accept that Mother Nature will be replacing humans just like she replaced the dinosaurs with us. Midwest Generation's dirty coal plants in Illinois have been dumping dangerous sulfur dioxide emissions into the air and making local residents sick for far too long. In order to reduce dangerous pollution and save lives in Illinois, I urge you to require the company to meet the pollution reductions it previously agreed to by voting no on the requested variance.

Sincerely,

Marilyn Miller

RE: PCB 2013-024

Mr. Therriault

Midwest Generation's dirty coal plants in Illinois have been dumping dangerous sulfur dioxide emissions into the air and making local residents sick for far too long. In order to reduce dangerous pollution and save lives in Illinois, I urge you to require the company to meet the pollution reductions it previously agreed to by voting no on the requested variance.

Sincerely,

R Williams
