RE: PCB 2013-024

Mr. Therriault

Midwest Generation's dirty coal plants in Illinois have been dumping dangerous sulfur dioxide emissions into the air and making local residents sick for far too long. In order to reduce dangerous pollution and save lives in Illinois, I urge you to require the company to meet the pollution reductions it previously agreed to by voting no on the requested variance.

Sincerely,

Mary Nash-Pyott

In order to reduce dangerous pollution and save lives in Illinois, I urge you to require the company to meet the pollution reductions it previously agreed to by voting no on the requested variance. It is an obvious attempt to externalize the costs on the public in a blatant attempt to internalize profit. I am always amazed how little concern is shown for the health of the people. The studies are in, the pollution from coal fired plants, kills. The lives of people must take precedent over profits.
