RE: PCB 2013-024

Mr. Therriault

Midwest Generation's dirty coal plants in Illinois have been dumping dangerous sulfur dioxide emissions into the air and making local residents sick for far too long. In order to reduce dangerous pollution and save lives in Illinois, I urge you to require the company to meet the pollution reductions it previously agreed to by voting no on the requested variance.

Sincerely,

Diana Lauber

RE: PCB 2013-024

Mr. Therriault

Midwest Generation's dirty coal plants in Illinois have been dumping dangerous sulfur dioxide emissions into the air and making local residents sick FOR AT LEAST 100 YEARS! In order to reduce dangerous pollution and save lives in Illinois, I urge you to require the company to meet the pollution reductions it previously agreed to by voting no on the requested variance. OR BETTER YET, STOP USING DIRTY COAL! IT IS POLLUTING THE AIR, WATERS, AND LANDS WITH MERCURY AND OTHER TOXIC METALS AND CHEMICALS!!! WHY WOULD YOU ALLOW SUCH BAD FAITH IN THE GENERAL ENVIRONMENT USED BY ALL OF US! THESE TOXINS ARE POLLUTING YOUR BODIES, TOO, ALONG WITH THE REST OF US! IT IS INSANE TO ALLOW IT! PLEASE BECOME ENLIGHTENED AND SOCIAL-MINDED! THANK YOU FOR READING THIS.

RE: PCB 2013-024

Mr. Therriault

As you know Midwest Generation's dirty coal plants in Illinois have been dumping dangerous sulfur dioxide emissions into the air since first constructed, contributing to global pollution, making local residents sick and adding to the already polluted Illinois air. In order to reduce dangerous pollution, help clean the nation's already significantly sour air and help save lives in Illinois, I urge you to require the company to meet the pollution reductions it previously agreed to in 2007. Please disallow the request by a no vote on the variance. Please enforce the requirements or close Midwest Generation down.

Sincerely,

Paul Brady

RE: PCB 2013-024

Mr. Therriault

Midwest Generation's dirty coal plants in Illinois have been dumping dangerous sulfur dioxide emissions into the air and making local residents sick for far too long. In order to reduce dangerous pollution and save lives in Illinois, I urge you to require the company to meet the pollution reductions it previously agreed to by voting no on the requested variance.

Sincerely,

Patricia Verstrat
