Subject: Please Reject Midwest Generation's Petition for a Variance (Docket No. PCB 2013-024)

Feb 5, 2013

Illinois Pollution Control Board Members

Dear Control Board Members,

RECEIVED
CLERK'S OFFICE
FEB 06 2013

Please reject Midwest Generation's request for a variance of the historic clean air standards Illinois adopted in 2006 (docket no. PCB 2013-024). Hold the company to its previous commitment, which is vital to protecting public health and the environment.

STATE OF ILLINOIS
Pollution Control Board

It is the responsibility and duty of the Board to protect Illinois residents from being taken advantage of by companies like Midwest Generation, which has delayed compliance with clean air laws for long enough and which has hidden behind threats to slash jobs and close plants. As you know from the Board's earlier experience with Ameren, a variance doesn't guarantee jobs or that plants will stay open.

The people of Illinois should not have to suffer from years of extra pollution. Midwest Generation should live up to their promise to install modern pollution controls on schedule.

Sincerely,

Ms. Henrietta saunders
59 Park Dr
Glenview, IL 60025-2720

Please reject Midwest Generation's request for a variance of the historic clean air standards Illinois adopted in 2006 (docket no. PCB 2013-024). Hold the company to its previous commitment, which is vital to protecting public health and the environment.

It is the responsibility and duty of the Board to protect Illinois residents from being taken advantage of by companies like Midwest Generation, which has delayed compliance with clean air laws for long enough and which has hidden behind threats to slash jobs and close plants. As you know from the Board's earlier experience with Ameren, a variance doesn't guarantee jobs or that plants will stay open.

The people of Illinois should not have to suffer from years of extra pollution. Midwest Generation should live up to their promise to install modern pollution controls on schedule.

Sincerely,

Dr. Norma Field

It is the responsibility and duty of the Board to protect Illinois residents from being taken advantage of by companies like Midwest Generation, which has delayed compliance with clean air laws for long enough and which has hidden behind threats to slash jobs and close plants. As you know from the Board's earlier experience with Ameren, a variance doesn't guarantee jobs or that plants will stay open.

The people of Illinois should not have to suffer from years of extra pollution. Midwest Generation should live up to their promise to install modern pollution controls on schedule.

Sincerely,

Mr. Justin Horstmann

Subject: Please Reject Midwest Generation's Petition for a Variance (Docket No. PCB 2013-024)

Feb 5, 2013

Illinois Pollution Control Board Members

Dear Control Board Members,

Please reject Midwest Generation's request for a variance of the historic clean air standards Illinois adopted in 2006 (docket no. PCB 2013-024). Hold the company to its previous commitment, which is vital to protecting public health and the environment.
