ORDER OF THE BOARD (by T. A. Holbrook):

On March 29, 2013, the Office of the Attorney General, on behalf of the People of the State of Illinois (People), filed a three-count complaint against Midwest Environmental Consulting Services, Inc., and Universal Asbestos Removal, Inc. (respondents). The complaint concerns respondents' asbestos removal work for the Sheffield Elementary School, which is located at 306 South East Street, Sheffield, Bureau County (the School). For the reasons below, the Board accepts the complaint for hearing.

Under the Environmental Protection Act (Act) (415 ILCS 5 (2010)), the Attorney General and the State's Attorneys may bring actions before the Board to enforce Illinois' environmental requirements on behalf of the People. *See* 415 ILCS 5/31 (2010); 35 Ill. Adm. Code 103. In this case, the People allege that respondents violated Section 9(a) and 9.1(d)(1) of the Act (415 ILCS 5/9(a), 9.1(d)(1) (2010)), Section 201.141 of the Board Air Pollution Regulations (35 Ill. Adm. Code 201.141), and Section 61.145(a) and 61.145(c)(1) of the asbestos national emission standards for hazardous air pollutants (NESHAP) (40 C.F.R. §§ 61.145(a) and (c)(1))¹.

The People allege respondents committed these violations by 1) threatening the discharge or emission of a contaminant so as to cause or tend to cause air pollution in Illinois; 2) failing to thoroughly inspect the School; and 3) failing to remove all regulated asbestos-containing material (RACM) from the School that was to be demolished. The People ask that the Board

¹ Although the Board generally does not have jurisdiction over federal Clean Air Act (CAA) regulations, Section 9(b) of the Act provides that federal NESHAPs "are applicable to the state and enforceable under the Act." 415 ILCS 5/9(b) (2010). Pursuant to Section 112(b)(1) of the CAA, 42 U.S.C. 7412(b)(1) (2007), the Administrator of the United States Environmental Protection Agency lists asbestos as a hazardous air pollutant. Asbestos is a known human carcinogen for which there is no safe level of exposure.

order respondents to cease and desist from any further violations of the Act and regulations and pay civil penalties of \$50,000 for each violation and \$10,000 for each day during which each violation continued, and that the Board award the People their costs and reasonable attorney, expert witness and consultant fees.

The Board finds that the complaint meets the content requirements of the Board's procedural rules and accepts the complaint for hearing. *See* 35 Ill. Adm. Code 103.204(c), (f), 103.212(c). A respondent's failure to file an answer to a complaint within 60 days after receiving the complaint may have severe consequences. Generally, if respondents fail within that timeframe to file an answer specifically denying, or asserting insufficient knowledge to form a belief of, a material allegation in the complaint, the Board will consider respondents to have admitted the allegation. *See* 35 Ill. Adm. Code 103.204(d).

The Board directs the hearing officer to proceed expeditiously to hearing. Among the hearing officer's responsibilities is the "duty... to ensure development of a clear, complete, and concise record for timely transmission to the Board." 35 Ill. Adm. Code 101.610. A complete record in an enforcement case thoroughly addresses, among other things, the appropriate remedy, if any, for the alleged violations, including any civil penalty.

If a complainant proves an alleged violation, the Board considers the factors set forth in Sections 33(c) and 42(h) of the Act to fashion an appropriate remedy for the violation. See 415 ILCS 5/33(c), 42(h) (2010). Specifically, the Board considers the Section 33(c) factors in determining, first, what to order the respondent to do to correct an on-going violation, if any, and, second, whether to order the respondent to pay a civil penalty. The factors provided in Section 33(c) bear on the reasonableness of the circumstances surrounding the violation, such as the character and degree of any resulting interference with protecting public health, the technical practicability and economic reasonableness of compliance, and whether the respondent has subsequently eliminated the violation.

If, after considering the Section 33(c) factors, the Board decides to impose a civil penalty on the respondent, only then does the Board consider the Act's Section 42(h) factors in determining the appropriate amount of the civil penalty. Section 42(h) sets forth factors that may mitigate or aggravate the civil penalty amount, such as the duration and gravity of the violation, whether the respondent showed due diligence in attempting to comply, any economic benefit that the respondent accrued from delaying compliance, and the need to deter further violations by the respondent and others similarly situated.

With Public Act 93-575, effective January 1, 2004, the General Assembly changed the Act's civil penalty provisions, amending Section 42(h) and adding a new subsection (i) to Section 42. Section 42(h)(3) now states that any economic benefit to respondent from delayed compliance is to be determined by the "lowest cost alternative for achieving compliance." The amended Section 42(h) also requires the Board to ensure that the penalty is "at least as great as the economic benefits, if any, accrued by the respondent as a result of the violation, unless the Board finds that imposition of such penalty would result in an arbitrary of unreasonable financial hardship."

Under these amendments, the Board may also order a penalty lower than a respondent's economic benefit from delayed compliance if the respondent agrees to perform a "supplemental environmental project" (SEP). A SEP is defined in Section 42(h)(7) as an "environmentally beneficial project" that a respondent "agrees to undertake in settlement of an enforcement action . . . but which the respondent is not otherwise legally required to perform." SEPs are also added as a new Section 42(h) factor (Section 42(h)(7)), as is whether a respondent has "voluntarily self-disclosed . . . the non-compliance to the [Illinois Environmental Protection] Agency" (Section 42(h)(6)). A new Section 42(i) lists nine criteria for establishing voluntary self-disclosure of non-compliance. A respondent establishing these criteria is entitled to a "reduction in the portion of the penalty that is not based on the economic benefit of non-compliance."

Accordingly, the Board further directs the hearing officer to advise the parties that in summary judgment motions and responses, at hearing, and in briefs, each party should consider: (1) proposing a remedy for a violation, if any (including whether to impose a civil penalty), and supporting its position with facts and arguments that address any or all of the Section 33(c) factors; and (2) proposing a civil penalty, if any (including a specific total dollar amount and the portion of that amount attributable to the respondent's economic benefit, if any, from delayed compliance), and supporting its position with facts and arguments that address any or all of the Section 42(h) factors. The Board also directs the hearing officer to advise the parties to address these issues in any stipulation and proposed settlement that may be filed with the Board.

IT IS SO ORDERED.

I, John T. Therriault, Assistant Clerk of the Illinois Pollution Control Board, certify that the Board adopted the above order on April 4, 2013 by a vote of 5-0.

John T. Therriault, Assistant Clerk

Illinois Pollution Control Board
