Legal Notice

Notice of Petition by Caterpillar Inc. for an Adjusted Standard before the Illinois Pollution Control Board

On June 27, 2013, Caterpillar Inc. filed with the Illinois Pollution Control Board a petition for an adjusted standard for operations at its Mapleton plant, located at 8826 West Route 24, Mapleton, Peoria County, Illinois. The petition was filed under docket number AS 2013-005 and seeks an adjusted standard from 35 III. Admin. Code 620.410(a) and 817.106(a). Specifically. Caterpillar is seeking an adjusted standard for the Class I groundwater quality standard for Total Dissolved Solids ("TDS") for its on-site potentially reusable foundry sand landfill. Cater pillar has requested a proposed adjusted groundwater quality standard of 2,539 mg/L for TDS and a corresponding maximum allowable leachate concentration ("MALC") of 2,539 mg/L for TD5 for the landfill, which would take into consideration existing background levels of TDS near the site. The landfill receives potentially reusable spent foundry sand from the foundry operations at Caterpillar's Mapleton plant and has been in operation since 1977. Caterpillar inc has its headquarters at 100 NE Adams St., Peoria, IL

Any person may cause a public hearing to be held in the abovedescribed adjusted standard proceeding by filing a hearing request with the illinois Pollution Control Board within 21 days after the date of the publication of this notice. The hearing request should clearly indicate the docket number for the adjusted standard proceeding as found in this notice, and must be mailed to the Clerk of the Board, Illinois Pollution Control Board, 100 W. Randolph Street, Suite 11-500, Chicago, Illinois
