Narrative Inspection Report

I conducted an open dump complaint inspection at the above referenced facility on October 27, 2014. The inspection lasted from approximately 11:15 until 11:30 A.M. This inspection was conducted to determine the regulatory status and evaluate compliance with the Environmental Protection Act (Act) and Title 35 Illinois Administrative Code, Subtitle G: Land Pollution (Regulations). Nineteen photos and no samples were taken. The weather was mostly cloudy with a moderate south wind and temperatures in the 50s.

Background & Initial Inspection

IEPA HQ received a complaint via email alleging Clark County Roll-off, located at 18801 East 1150th Road, Marshall, IL, was collecting trash on its regular routes and dumping the refuse on the ground before reloading into trucks to go to the landfill.

The site is located several miles south of Marshall and a quarter mile east of Route 1. The property consists of a residence and small garage.

An inspection on March 18, 2014 found a very large pile of waste dumped on the property. Most of the material consisted of demolition debris. I observed large amounts of lumber, drywall, shingles, carpet, insulation, furniture, plumbing fixtures, mattresses, and televisions dumped on the ground. North of the main dump area I noted a burn area with what appeared to be burned shingles.

I spoke with the owner, Todd Brashear, during the first inspection. He said he didn't realize dumping the material and reloading it required a permit from the Agency, and promised to remove the waste to a landfill. An ACWN was issued on 3/26/14 with a clean up deadline of June 15, 2014.

A reinspection on May 8, 2014 found the waste had been removed and the site had returned to compliance.

Current Inspection

I received another complaint against Clark County Roll-off on October 24, 2014. The complainant said Mr. Brashear was again dumping waste at his property from his hauling business.

I conducted another inspection at the property the following Monday at 11:15 A.M. As I approached the house, I could see a pile of what looked like demolition debris from the road (photo 1). I drove down the long drive and knocked on the door. No one answered, so I walked out to the pile of refuse located in the northeast corner of the yard. I observed approximately 4 cubic yards of shingles dumped west of the main pile (photos 2-3). The main pile of waste consisted of what looked like four distinct 30-yard roll-off-sized piles of demolition debris. The piles contained wood, plastic flower pots, an appliance, cardboard, drywall, cardboard, cloth, a small mattress, pallets, carpet and padding, and insulation (photos 3-10)

Back at the area I had previously seen waste north of the house, I noted a light yellow, sand-like substance had been dumped and spread on the ground near a full roll-off box (photo 11). An empty bag nearby was labeled "Grit o' cobs." From the information on the bag, it appeared as if the material was a blasting media made from corn cobs. I deduced from the bag and looking at the light yellow substance on the ground, that it was likely waste generated from the use of the material in the bag. If this is the case, then the material would be considered an industrial process waste and would be regulated as a special waste unless it was certified by the generator as a non-special waste.

Just north of the cob blasting material I found another pile of waste shingles covered by a tarp.

Regulatory Status

This site is regulated as an unpermitted waste transfer station and an open dump. Large amounts of general construction and demolition debris have been dumped onto the ground.

Apparent violations observed during this inspection:

Environmental Protection Act. 415 ILCS 5/1 et. seq. (formerly Ill. Rev. Stat. Ch. 111 1/2, 1001 et. seq.) {hereinafter called the "Act"}

1. Pursuant to Section 21(a) of the Act, no person shall cause or allow the open dumping of any waste.

A violation of Section 21(a) of the [Illinois] Environmental Protection Act (415 ILCS 5/21(a)) is alleged for the following reason: **Wastes were observed open dumped at this site.**

2. Pursuant to Section 21(d)(1) of the Act , in relevant part, no person shall conduct any waste-storage, waste-treatment, or waste-disposal operation without a permit granted by the Agency or in violation of any conditions imposed by such permit, including periodic reports and full access to adequate records and the inspection of facilities, as may be necessary to assure compliance with this Act and with regulations and standards adopted there under.

A violation of Section 21(d)(1) of the [Illinois] Environmental Protection Act (415 ILCS 5/21(d)(1)) is alleged for the following reason: **A waste storage and waste disposal operation is being conducted without a permit.**

3. Pursuant to Section 21(d)(2) of the Act, no person shall conduct any waste-storage, waste-treatment, or waste-disposal operation in violation of any regulations or standards adopted by the Board under this Act.

A violation of Section 21(d)(2) of the [Illinois] Environmental Protection Act (415 ILCS 5/21(d)(2)) is alleged for the following reason: **A waste storage and waste disposal operation is being conducted in violation of the Act and Regulations**

4. Pursuant to Section 21(e) of the Act, no person shall dispose, treat, store or abandon any waste, or transport any waste into this State for disposal, treatment, storage or abandonment, except at a site or facility which meets the requirements of this Act and of regulations and standards there under.

A violation of Section 21(e) of the [Illinois] Environmental Protection Act (415 ILCS 5/21(e)) is alleged for the following reason: **A waste storage and waste disposal operation is being conducted that does not meet the requirements of the Act or Regulations.**

5. Pursuant to Section 21(p) of the [Illinois] Environmental Protection Act (415 ILCS 5/21(p)), no person shall, in violation of subdivision (a) of this Section[21], cause or allow the open dumping of any waste in a manner which results in
 1. litter;
 2. scavenging;
 3. open burning;

5. proliferation of disease vectors;
6. standing or flowing liquid discharge from the dump site; or
7. deposition of:

The prohibitions specified in this subsection (p) shall be enforceable by the Agency either by administrative citation under Section 31.1 of this Act or as otherwise provided by this Act. The specific prohibitions in this subsection do not limit the power of the Board to establish regulations or standards applicable to open dumping.

8. A violation of Section 21(p) of the [Illinois] Environmental Protection Act (415 ILCS 5/21(p)) is alleged for the following reasons: **Waste was observed open dumped resulting in: 21(p)(1) Litter and 21(p)(7) deposition of general and clean construction and demolition debris**

9. Pursuant to Section 812.101(a), all persons, except those specifically exempted by Section 21(d) of the Environmental Protection Act (Act) (Ill. Rev. Stat. 1991, ch. 111 1/2, par. 1021(d)) [415 ILCS 5/21(d)] shall submit to the Agency an application for a permit to develop and operate a landfill. The applications must contain the information required by this Subpart and by Section 39(a) of the Act, except as otherwise provided in 35 Ill. Adm. Code 817.
