Respondent.)

ORDER OF THE BOARD (by J.D. O’Leary):

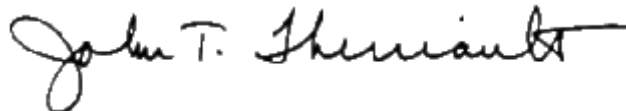

On November 21, 2014, AkzoNobel Surface Chemistry LLC (petitioner) timely filed a motion for voluntary dismissal (Mot.) of this permit appeal, which concerns petitioner’s industrial organic chemicals manufacturing facility located at 8005 North Tabler Road, Morris, Grundy County. Petitioner had appealed a National Pollutant Discharge Elimination System (NPDES) permit subject to conditions. Petitioner also requested that the Board stay two contested permit conditions. On April 4, 2013, the Board accepted petitioner’s petition for hearing, but reserved ruling on petitioner’s request for a partial stay. On April 18, 2013, the Board granted petitioner’s unopposed request for a stay of specified contested permit conditions.

In its motion, petitioner states that the parties “have resolved the matters forming the basis for this appeal” and that “a modified NPDES permit was issued on November 6, 2014.” Mot. at 1. Petitioner further states that it “no longer wishes to pursue this permit appeal” and requests that the Board dismiss it. *Id.*

The Board grants petitioner’s unopposed motion for voluntary dismissal, dismisses the appeal, and closes the docket.

IT IS SO ORDERED.

I, John T. Therriault, Clerk of the Illinois Pollution Control Board, certify that the Board adopted the above order on December 4, 2014, by a vote of 4-0.

John T. Therriault, Clerk
Illinois Pollution Control Board
