**Attachments:** Filing Petions and Cover Letters.pdf

Mr. Threrriault:

Please accept the attached documents for filing with your office. These were sent to your office via overnight carrier last week for filing. These were returned to us today, unopened, with a sticker on the USPS Priority Mail envelope that said "Return to Sender". The documents were addressed to you at your office.

The balance of the letters and documents contained herein are self-explanatory. These documents will also be sent to you in hard copy form, along with the filing fee.

Under the circumstances, it is very politely and respectfully requested that you accept these documents for filing, effective today, conditioned upon receipt of the filing fee and hard copy documents.

I did speak briefly about this situation with Ms. Flowers. I explained this situation and she suggested I call your office. I certainly do not want to suggest something that might not be correct, however, the impression I drew from my telephone conversation with Ms. Flowers is that she most likely does not have an objection to these documents being filed in this fashion. I have not spoken with Mr. Kohrmann at the Division of Public Water. I will attempt to reach him at this time.

Thank you.

Re: Calhoun Rural Water District v. Illinois Environmental Protection Agency  
PCB 15-74

Dear Mr. Therriault:

I am faxing to you for filing the attached Petitions for Review, Variance or Adjusted Standard. This was sent to you for filing on 12/24/14 via overnight mail by the United States Postal Service. It was sent to the above address. It was returned to us today, unopened, with a note sticker on it "Return to Sender", the basis for it being returned was not noted.

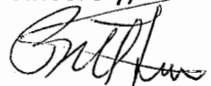

I am also enclosing a copy of our check for the filing fee for these Petitions in the total amount of \$225.00, \$75 per petition.

I kindly ask that you accept this form of filing. I have attempted to file these electronically today and have not be able to do so. I am also emailing this to you as well for filing. We will follow this up with a hard copy filing.

I should also note that this may be a premature filing because the Division of Public Water Supplies is presently considering an additional request in regard to this matter and they have not rendered a decision on that request as of today. That decision, when it comes, may render this unnecessary. We felt, under the circumstances of the entire record, that this should at least be filed at this time.

Thank you.

Sincerely,

William R. Lamb
