Re: Public Water Supplies: Proposed Amendments to 35 Ill. Adm. Code Parts 601, 602, and 603.

Dear Mr. Therriault:

Pursuant to 35 Ill. Adm. Code 101.302(h)(4)(C), the Agency is prohibited from filing any copyrighted material electronically through COOL. The Illinois EPA now files all the publications proposed to be incorporated by reference in the above rulemaking in paper form. Section 101.302(h)(4) requires the Agency to file three originals of any document that is protect by copyright law, but that two paper copies may be substituted if the Agency includes the copyright owners written authorization for the Agency to create the paper copies. For the copies filed with the Board, the Agency has obtained permission from the copyright owner and includes the written authorization herein.

If you have any questions, please give me a call.

Sincerely,

Joanne M. Olson
Assistant Counsel

Subject: RE: Permissions- Reprints - D2241

Dear Tracy,

Thank you for your email.

ASTM International grants the Illinois EPA a limited, non-exclusive license to reproduce and distribute up to 4 copies of ASTM D2241-09 Standard Specification for Poly(Vinyl Chloride) (PVC) Pressure-Rated Pipe (SDR Series), in hardcopy format only, for distribution to the Pollution Control Board and the attorney in charge provided the following statement appears on the first page of each printed copy:

"Copyright ASTM International, 100 Barr Harbor Drive, West Conshohocken, PA 19428. This document may only be reproduced, in hardcopy format, for use by the Illinois Pollution Control Board, and the attorney in charge, for purposes of rulemaking and not for any other distribution, republication, or resale purposes. It is not permissible to scan or make electronic versions of this document for storage on any internal or network server. Any other reproduction or use of this document, in full or in part, without the expressed written permission of ASTM is strictly prohibited."

Please send any future requests for copyright permission direct to Brad (bjaindel@astm.org). Brad will then forward to me for response.

Thank you. Should you have any questions, please do not hesitate to contact me by phone or email.

Kind regards,

Kathe Hooper

Subject: RE: Permissions- Reprints - D2241

Good morning, Kathe. I wanted to touch base with you to give some additional information on what I'm looking for. We need a copyright permissions letter allowing us to make three copies of an ASTM standard to be given to the Pollution Control Board for the purposes of rulemaking. One copy will also be made for the attorney in charge of the rulemaking to be filed with their other pertinent information pertaining to it. Of course, we are still paying for the subscription/original download, and we intend to keep that subscription active.

We have a similar arrangement with the American Water Works Association. They provide a letter that states

We are pleased to grant a print-only permission to reproduce the following AWWA material. No digital reproductions of the AWWA Standards may be made including posting on an intranet or the internet.

They then list the standards being used. At the end of the letter they include the following:

Reproduction is authorized for the following stated purpose:

To supply the Pollution Control Board with 3 copies each of the standards being considered as reference during the rulemaking process, and to provide Illinois EPA staff one copy of the abovementioned standards to be used during the rule making process.

I'm hoping a similar letter can be arranged. I assume this is something we will arrange with you each time we are going to incorporate a standard by reference so that we can indicate which standard(s) is being used. For the purposes of our current rulemaking, we are referencing ASTM D 2241-09, Standard Specification for Poly(Vinyl Chloride) (PVC) Pressure-Rated Pipe (SDR Series), approved December 1, 2009.

Please let me know if I can provide you with any additional information to assist us with this. I really appreciate your help. We're all extremely pleased with ASTM's willingness to grant us free copyright permissions for the purposes of rulemaking.

Sincerely,
Tracy Pierceall

Hey Tracy,

I just wanted to send an email to connect you with Kathe Hooper (CC'd on this email), our permissions expert. She will be able to assist you with the documents you need that we spoke about, at no charge. I will let you two work out details, but if I'm not mistaken, you need 3 hard copies of D2241-09. Please let me know if there is anything else I can do to assist or if there any other questions I can help answer.

Thanks Tracy and Kathe!

Dear Ms. Pierceall:

We are pleased to grant a one-time, English-only, print-only use permission to reproduce the following AWWA material. No digital reproductions of the AWWA Standards may be made including posting on an intranet or the internet.

ANSI/AWWA A100-06, Water Wells, approved February 2, 2006, effective August 1, 2006.

ANSI/AWWA B100-09, Granular Filter Material, approved January 25, 2009, effective March 1, 2010.

ANSI/AWWA C151/A21.51-09, Ductile-Iron Pipe, Centrifugally Cast, approved January 25, 2009, effective September 1, 2009.

ANSI/AWWA C200-12, Steel Water Pipe, 6 In. (150mm) and Larger, approved June 10, 2012, effective September 1, 2012.

ANSI/AWWA C301-07, Prestressed Concrete Pressure Pipe, Steel-Cylinder Type, approved January 21, 2007, effective June 1, 2007.

ANSI/AWWA C651-05, Disinfecting Water Mains, approved January 16, 2005, effective June 1, 2005.

ANSI/AWWA C652-11, Disinfection of Water Storage Facilities, approved June 12, 2011, effective October 1, 2011.

ANSI/AWWA C653-03, Disinfection of Water Treatment Plants, approved January 19, 2003, effective June 1, 2003.

ANSI/AWWA C654-03, Disinfection of Wells, approved January 19, 2003, effective November 1, 2003.

AWWA C900-07 Polyvinyl Chloride (PVC) Pressure Pipe and Fabricated Fittings, 4 In. Through 12 In. (100 mm Through 300 mm), for Water Transmission and Distribution) (2007)

ANSI/AWWA C905-10, Polyvinyl Chloride (PVC) Pressure Pipe and Fabricated Fittings, 14 In. Through 48 In. (350 mm Through 1,200 mm), approved January 17, 2010, effective April 1, 2010.

AWWA C906-07 Polyethylene (PE) Pressure Pipe and Fittings 4 In. (100 mm) Through 63 In. (1,600 mm) for Water Distribution and Transmission (2007)

ANSI/AWWA D100-11, Welded Carbon Steel Tanks for Storage, approved January 23, 2011, effective July 1, 2011.

ANSI/AWWA D103-09, Factory Coated Bolted Carbon Steel Tanks for Water Storage, approved January 25, 2009, effective November 1, 2009.

ANSI/AWWA D107-10, Composite Elevated Tanks for Water Storage, approved January 17, 2010, effective December 1, 2010.

Reproduction is authorized for the following purpose:

To supply the Pollution Control Board with 3 copies each of the standards being considered as reference during the rulemaking process, and to provide Illinois EPA staff one copy of the abovementioned standards to be used during the rule making process.

Sincerely,

Director of Publishing

Subject: RE: inquiry regarding NSF standards

Hi Tracy,

Because these standards are referenced in so many regulations across North America, NSF has made arrangements to offer free access to these standards via our website at <http://www.nsf.org/services/by-type/standards-publications/buy-nsf-standards-publications/> (click the free access standards tab).

Thank you for your email. If you have any additional questions about NSF or its programs, please let us know.

Subject: inquiry regarding NSF standards

Good morning. I'm with the Illinois Environmental Protection Agency. I've been asked by one of our staff to contact you regarding two NSF standards (NSF 60-2014 and NSF 61-2014). We are interested in incorporating these two standards into an environmental rulemaking with our Pollution Control Board. The Board requires us to submit four copies of all standards incorporated into a rulemaking. I checked with TechStreet this morning and found that the standards are \$325 each. Unfortunately, that is outside of our budget capabilities.

I'm contacting you to see if there is an arrangement that can be made to provide four copies of each standard to our Pollution Control Board for the purposes of rulemaking for a reduced cost or for free. I've negotiated similar arrangements with the American Water Works Association and ASTM to provide us copyright permissions for Board rulemakings for free. We've agreed that they would not be distributed digitally and that they were for rulemaking purposes only. Is it possible to arrange something similar so that these standards can be included as planned?

Please let me know if you require any additional information to help us with this request. Thank you very much for your time!

Hello again, Ms. Costello. I've been asked by our attorney to see if it would be possible to get a letter or email granting us permission to print four copies of the 2014 NSF standards you provided us. Three copies would be provided to the Illinois Pollution Control Board for rulemaking purposes, and one would be made for our agency to keep for our records. This is a requirement set forth by the Board when incorporating references into a rulemaking.

Thank you again for your help and for your assistance with our request!
