ILLINOIS ENVIRONMENTAL)
PROTECTION AGENCY,)
Respondent.)

**REQUEST FOR NINETY DAY EXTENSION
OF APPEAL PERIOD**

NOW COMES the Respondent, the Illinois Environmental Protection Agency (“Illinois EPA”), by one of its attorneys, James G. Richardson, Deputy General Counsel, and, pursuant to Section 40(a)(1) of the Illinois Environmental Protection Act (415 ILCS 5/40(a)(1)) and 35 Ill. Adm. Code 105.208, hereby requests that the Illinois Pollution Control Board (“Board”) grant an extension of the thirty-five (35) day period for petitioning for a hearing to December 18, 2015, or any other date not more than a total of one hundred twenty-five (125) days from the date of receipt of the Illinois EPA’s final decision. In support thereof, the Illinois EPA respectfully states as follows:

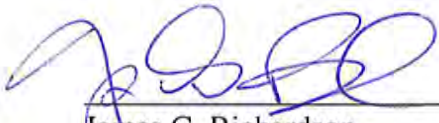

1. On August 12, 2015, the Illinois EPA issued a final decision to the Petitioner.
2. On September 14, 2015, the Petitioner made a written request to the Illinois EPA for an extension of time by which to file a petition for review, asking the Illinois EPA to join in requesting that the Board extend the thirty-five day period for filing a petition by ninety days. Upon information and belief, the Petitioner received the final decision on or about August 15, 2015.

3. The additional time requested by the parties may eliminate the need for a hearing in this matter or, in the alternative, allow the parties to identify issues and limit the scope of any hearing that may be necessary to resolve this matter.

WHEREFORE, for the reasons stated above, the parties request that the Board, in the interest of administrative and judicial economy, grant this request for a ninety-day extension of the thirty-five day period for petitioning for a hearing.

Respectfully submitted,

ILLINOIS ENVIRONMENTAL PROTECTION AGENCY

James G. Richardson
Deputy General Counsel

Leaking UST Incident No. 20090353
Leaking UST Technical File

Dear Mr. Villanueva:

The Illinois Environmental Protection Agency (Illinois EPA) has reviewed the Corrective Action Plan (plan) submitted for the above-referenced incident. This plan, dated July 21, 2015 was received by the Illinois EPA on July 27, 2015. Citations in this letter are from the Environmental Protection Act (415 ILCS 5) (Act) and Title 35 of the Illinois Administrative Code (35 Ill. Adm. Code).

The Illinois EPA requires modification of the plan; therefore, the plan is conditionally approved with the Illinois EPA's modifications. The following modifications are necessary, in addition to those provisions already outlined in the plan, to demonstrate compliance with Title XVI of the Act (Sections 57.7(b)(2) and 57.7(c) of the Act and 35 Ill. Adm. Code 734.505(b) and 734.510(a)):

1. Based on the modeled plume of potential groundwater contamination extending 114 feet to the South an Environmental Land Use Control (ELUC) will be required for the open field to the South of Illinois Rt 3. The ELUC would be restricting the use of groundwater on the property to the south.

Please note that all activities associated with the remediation of this release proposed in the plan must be executed in accordance with all applicable regulatory and statutory requirements, including compliance with the proper permits.

Further, the Illinois EPA has determined that the use of a project labor agreement (PLA) is required, as set forth in Attachment A. A *Standard Project Labor Agreement for UST Fund Corrective Action Work* (model PLA) is available on the Illinois EPA's Leaking UST Program Web site. This model PLA has been reviewed and approved by the AFL-CIO Statewide PLA Committee, which is the central committee authorized by all respective crafts to negotiate and sign PLAs on behalf of the crafts (PLA Committee). Please submit a signed copy of a PLA to the PLA Committee for the Committee's execution at the following address:

Michael T. Carrigan, President
Illinois AFL-CIO
534 South Second Street, Suite 200
Springfield, IL 62701-1764

Once the PLA is fully executed, a copy will be returned to the environmental consultant retained by the UST owner or operator so the environmental consultant will know when work conducted under the PLA may begin. Please note that, as more fully set forth in Attachment A, when submitting an application for payment from the UST Fund, the UST owner or operator will be required to certify that work for which a PLA is required was performed under a PLA. The environmental consultant should provide a copy of the fully executed PLA to the UST owner or operator so the UST owner or operator will be able to make the certification.

In addition, the total budget is approved for the amounts listed below. Please note that the costs must be incurred in accordance with the approved plan. Be aware that the amount of payment from the Fund may be limited by Sections 57.7(c), 57.8(d), 57.8(e), and 57.8(g) of the Act, as well as 35 Ill. Adm. Code 734.630 and 734.655:

The following amounts are approved:

\$0.00	Drilling and Monitoring Well Costs
\$0.00	Analytical Costs
\$1,000.00	Remediation and Disposal Costs
\$0.00	UST Removal and Abandonment Costs
\$4,716.25	Paving, Demolition, and Well Abandonment Costs
\$40,042.16	Consulting Personnel Costs
\$1,563.00	Consultant's Materials Costs

Handling charges will be determined at the time a billing package is reviewed by the Illinois EPA. The amount of allowable handling charges will be determined in accordance with Section 57.1(a) of the Environmental Protection Act and 35 Illinois Administrative Code 734.635.

RECEIVED
AUG 15 2015
OR
BY: _____

If the owner or operator agrees with the Illinois EPA's modifications, submittal of an amended plan is not required (Section 57.7(c) of the Act).

In the event that the use of a PLA will impact the project costs set forth in the approved or modified budget, a revised budget may be submitted for Illinois EPA review and decision. As set forth at 35 Ill. Adm. Code 734.800(a)(2), if the revised costs exceed the maximum payment amounts at 35 Ill. Adm. Code 734.Subpart H (Subpart H amounts), bidding is required in order for payment from the UST Fund to exceed the Subpart H amounts. Any bidding must be done in accordance with 35 Ill. Adm. Code 734.855, and the requirement for a PLA must be part of the invitation for bid.

Further, pursuant to 35 Ill. Adm. Code 734.145, it is required that the Illinois EPA be notified of field activities prior to the date the field activities take place. This notice must include a description of the field activities to be conducted; the name of the person conducting the activities; and the date, time, and place the activities will be conducted. This notification of field activities may be done by telephone, facsimile, or electronic mail—and must be provided at least three (3) working days prior to the scheduled field activities.

Pursuant to Sections 57.7(b)(5) and 57.12(c) and (d) of the Act and 35 Ill. Adm. Code 734.100 and 734.125, the Illinois EPA requires that a Corrective Action Completion Report that achieves compliance with applicable remediation objectives be submitted within 30 days after completion of the plan to:

Illinois Environmental Protection Agency
Bureau of Land - #24
Leaking Underground Storage Tank Section
1021 North Grand Avenue East
Post Office Box 19276
Springfield, IL 62794-9276

Please submit all correspondence in duplicate and include the Re: block shown at the beginning of this letter.

If within four years after the approval of this plan, compliance with the applicable remediation objectives has not been achieved and a Corrective Action Completion Report has not been submitted, the Illinois EPA requires the submission of a status report pursuant to Section 57.7(b)(6) of the Act.

An underground storage tank system owner or operator may appeal this decision to the Illinois Pollution Control Board. Appeal rights are attached.

Leaking UST Technical File

NOTICE OF PROJECT LABOR AGREEMENT REQUIREMENT

Please be advised that, pursuant to Section 57.7(c)(3) of the Environmental Protection Act (415 ILCS 5/57.7(c)(3)), the Illinois EPA has determined that a project labor agreement (PLA) is required for the work included in the plan for which the UST owner or operator is seeking payment from the Underground Storage Tank (UST) Fund. The basis for the Illinois EPA's determination that a PLA is required for the project is set forth, as follows:

Use of a PLA will advance the State's interest in performance of the project work by a skilled labor force, thereby achieving the remediation objectives of the project. The work requiring the use of a PLA involves sealing of the onsite potable well an installation of the concrete barrier.

A PLA is not required for project work for which no payment from the UST Fund is being requested.

Pursuant to Section 57.8 of the Environmental Protection Act (415 ILCS 5/57.8), applications for payment from the UST Fund must include a certification signed by the UST owner or operator stating that the work was (i) performed under a PLA that meets the requirements of Section 25 of the Project Labor Agreements Act and (ii) implemented in a manner consistent with the terms and conditions of the Project Labor Agreements Act and in full compliance with all statutes, regulations, and Executive Orders as required under that Act and the Prevailing Wage Act (820 ILCS 130).

Appeal Rights

An underground storage tank owner or operator may appeal this final decision to the Illinois Pollution Control Board pursuant to Sections 40 and 57.7(c)(4) of the Act by filing a petition for a hearing within 35 days after the date of issuance of the final decision. However, the 35-day period may be extended for a period of time not to exceed 90 days by written notice from the owner or operator and the Illinois EPA within the initial 35-day appeal period. If the owner or operator wishes to receive a 90-day extension, a written request that includes a statement of the date the final decision was received, along with a copy of this decision, must be sent to the Illinois EPA as soon as possible.

For information regarding the filing of an appeal, please contact:
