 ORIGINAL

HEARING OFFICER ORDER

On December 1, 2015, the parties participated in a telephone status conference with the hearing officer. Since the last status conference, respondent requested additional detailed information about the layout of the existing structures at the site. The request demonstrates that respondent's technical unit is actively working on this appeal. Petitioner provided responses to all of the questions except for the information regarding subsurface structures. According to petitioner, the Department of Homeland Security has asked operators who store natural gas not to disclose this information. Additionally, petitioner does not believe the information is needed because the emissions involved in this case relate to the surface structures.

Assuming respondent's technical unit is satisfied with the site information recently provided, respondent may reconsider its position on the single-source issue and grant the permit, or the case will proceed toward litigation.

The parties are directed to participate in a telephone status conference with the hearing officer at 10:30 a.m. on February 1, 2016. Petitioner will email a conference call-in number.

Petitioner agreed to file an additional deadline waiver to June 16, 2016.

IT IS SO ORDERED.
