Dear Mr. Polchow,

Notified 11/5/15
Board Meeting Oct 3/2015
Hand Delivered to all Board Members 01-0009008/08/01/2011

We have received your FOIA request on September 27th 2011. You requested any and all information, documents with consideration to all taxes paid for by the Village of Rankin for the "railroad property" since 2003 to present and by whom those taxes were paid. You also requested the attorneys' name that's handling the account, all tax records and assessment records to the "village railroad property". It is our intent to comply with your Freedom of Information Act request; however the Village of Rankin does not pay property taxes on the land that it owns for example "the railroad property". The Village of Rankin does not have any accounts or an attorney handling any accounts for the "railroad property". All tax assessment records can be found at the Vermilion County Tax Assessors' Office in Danville Illinois. In an effort to assist you with your FOIA request please contact me at your convenience so that I might better understand what information you are seeking.

Enclosed are copies of correspondence and land transactions made by Gary Polchow. His complaint alleges that a John Haley owns property that he is being charged for. He has asked the Supervisor of Assessments to correct the error.

Mr. Polchow has challenged the authenticity of a recorded deed and makes allegations that it was prepared by an attorney in error.

I forward this to your office because the complaint is nothing that our office has jurisdiction over.

It's a home care worker. I feel that a nature walk would not only be beneficial to my clients and others like them, but possibly therapeutic as well. Furthermore, a fire pit in such a good location is harmful to the surrounding community, let alone my clients.

To Whom It May Concern,

I would like to see the West End Trash +
Burn dump moved to a different location in Rankin
because of smoke.

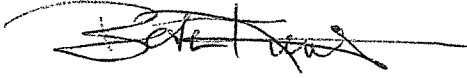

I would like to see a nature trail put

A Cherie DeFrancisco ~~letter~~ believes that a nature walk would be fantastic in our little town. It would benefit the seniors for exercise and for the youngsters to learn about nature. Having water fountains and benches along the way for people to sit if they get tired and the burn pile needs to move somewhere else because it is affecting the people that live near it. The smoke bellows into their houses and cause the people with ~~asma~~ breathing problems.

To whom it may concern,

I have been a resident of Rankin for 14 years and in that time this nice little town has nothing to offer the residents as far as any type of amusement. The nature walk would benefit not only the youngsters as far as educating them on our beautiful wild plants and animals but give them some exercise and it would help the aging residents as well. For health reasons they need to walk and get fresh air. Benches and water fountains along the nature walk would help as well for relaxation and periodic rest stops for the people who are exercising.

As for the burn pile that needs to be moved away from the residents because the polluting smoke gets into their homes and causes breathing problems.

Sincerely,
Cheri Leonard
