Respondent.	)	

**MOTION TO STAY THE PROCEEDING AND CONSOLIDATE CASES**

NOW COMES Petitioner, THE PREMCOR REFINING GROUP INC. (“Premcor” or “Petitioner”), by and through its attorneys, HEPLERBROOM, LLC, pursuant to 35 Ill. Admin. Code §§ 101.406, 101.500, and 101.514 and requests that the Illinois Pollution Control Board (“Board”) grant this Motion to Stay the Proceeding and Consolidate Cases. Petitioner provides as follows:

1. On December 9, 2009, Petitioner issued a revised Clean Air Act Permit Program (“CAAPP”) Permit (No. 96030082) to Premcor’s Hartford Terminal, a petroleum bulk storage and loading terminal, located in Hartford, Illinois.
2. A previous version of the CAAPP Permit is the subject of another appeal before the Board, *The Premcor Refining Group Inc. v. Illinois EPA*, PCB 07-30.
3. On January 27, 2010, Premcor filed a Petition for Review (“Petition”) of the CAAPP Permit, explaining that it does not reflect the current applicable requirements or the current operation of the facility. In addition, Premcor filed a Motion to Confirm Automatic Stay of Effectiveness of CAAPP Permit.

4. On February 4, 2010, the Board accepted Petitioner's petition for hearing. On April 1, 2010, the Board confirmed the stay of the effectiveness of the CAAPP Permit.

5. Discussions between Premcor and Illinois EPA continue, and Premcor is currently awaiting Illinois EPA's technical review of its most recent comments. Therefore, Premcor respectfully moves to stay the proceeding until at least December 31, 2016.

6. Section 101.514 of the Board's rules requires that motions to stay a proceeding be accompanied by sufficient information detailing why a stay is needed, a waiver of the decision deadline, and a status report. 35 Ill. Admin. Code § 101.514(a).

7. On November 6, 2013, Petitioner filed an open waiver of the decision deadline in this matter. Accordingly, a waiver is not included with this filing.

8. As required by Section 101.514(a), Petitioner is hereby updating the Board on the status of this matter. Premcor has provided Illinois EPA with comments and feedback on the most recently issued CAAPP Permit and is awaiting Illinois EPA's technical review. Accordingly, it is necessary to allow time for Illinois EPA to assess Premcor's comments and, if appropriate, issue a revised CAAPP Permit that replaces the most recently issued CAAPP Permit and resolves both this matter and PCB 07-30.

9. Further, granting a stay here would not result in any harm to the parties or the public. Premcor currently operates its facility pursuant to permits in effect as well as applicable State and federal regulations.

10. Thus, Petitioner has satisfied the requirements of 35 Ill. Admin. Code § 101.514(a).

11. Moreover, the Board has granted stays of proceedings in prior cases so there is precedent for doing so here. In PCB 01-72, Stepan Company appealed a CAAPP permit issued

by Illinois EPA. *Stepan Company v. Illinois EPA*, PCB 01-72 (Ill.Pol.Control.Bd. Jan. 4, 2001). In *Stepan*, the Board found that a stay of the proceeding was needed “to conserve the resources of the parties and the Board while settlement discussions continue.” *Id.* at 1.

12. Similarly, in another case the Board extended a stay of the proceedings to allow time for technical review of a permit application by Illinois EPA. *Cabot Corporation v. Illinois EPA*, PCB 91- 197 (Ill.Pol.Control.Bd. Jan. 21, 1993). In *Cabot*, a company submitted a RCRA Part B Post-Closure Application for Illinois EPA to review. *Id.* at 1. The company argued that the RCRA Part B Post-Closure Permit and its revised closure plan would replace the closure plan that was the subject of the appeal. *Id.* The Board granted the request of the parties to stay the matter until Illinois EPA finished its technical review of the company’s Part B Post-Closure Permit Application and revised closure plan for a vaporizer bottom treatment tank and Illinois EPA issues a permit.

13. Moreover, in light of the common issues, Premcor requests that this matter and PCB 10-55 be consolidated into one docket.

14. Section 101.406 of the Board Procedural Rules, 35 Ill. Adm. Code § 101.406, provides:

#### Consolidation of Claims

The Board, upon the motion of any party or upon its own motion, may consolidate two or more proceedings for the purpose of hearing or decision or both. The Board will consolidate the proceedings if consolidation is in the interest of convenient, expeditious, and complete determination of claims, and if consolidation would not cause material prejudice to any party. The Board will not consolidate proceedings where the burdens of proof vary.

15. Consolidation of the this matter and PCB 07-30 for hearing and decision is in the interest of convenient, expeditious, and complete determination of claims.

16. Both cases proposed for consolidation involve different versions of the same CAAPP Permit issued to Premcor's Hartford Terminal. These matters may be resolved by Illinois EPA issuing a revised CAAPP Permit for the facility. Furthermore, to resolve these matters, Premcor must discuss technical issues with the same Illinois EPA staff assigned to Premcor's CAAPP Permit.

17. The consolidation will not cause material prejudice to any party, as Premcor has no objections to awaiting Illinois EPA's technical review in these matters.

18. Both cases are permit appeals. Therefore, the Board's standard for both cases is the same.

19. It is the practice of the Board to consolidate multiple appeals of the same permit. See *Prairie Rivers Network, et al. v. Illinois EPA and Prairie State Generating Company, LLC*, PCB 06-124 and PCB 06-127 (consolidated) (Jan. 19, 2006).

WHEREFORE, Petitioner respectfully requests that the Board stay this proceeding until December 31, 2016, and consolidate cases PCB 07-30 and PCB 10-55.

Respectfully submitted,  
THE PREMCOR REFINING GROUP INC.,  
Petitioner,
