Regarding Case# PCB2016-54 and PCB 2016-56

Dear Illinois Pollution Control Board,

I am a long time business owner in Rockdale and neighbor. We would like to express our support of the Moen Transfer Station. After reviewing their application, we feel that Environmental Recycling and Disposal will build and operate the waste transfer to ensure our health, safety, and welfare will be protected.

Thank you,

John Kloski

Regarding Case PCB 2016-54 & PCB 2016-56

Dear Illinois Control Board,

I fully support Environmental Recycling and Disposal in their efforts to grow their business to develop their proposed waste transfer station. As a neighbor located directly across the street from, I do not have any issues with the activity that they are proposing; and fully understand and support their project.

Regards,

Keith Carpenter

Regarding Case PCB 2016-54 & PCB 2016-56

Dear Illinois Pollution Control Board,

As a property owner just to the east of the proposed transfer station in Rockdale. I would like to express my support for the approval vote made by the Village of Rockdale. The Ipema's have always been good neighbors and have always been good to our community.

Thank you,

ANTHONY JURKAS

To whom it may concern,

As a neighbor to Environmental Recycling and Disposal, and a business owner in Rockdale. I like to reach out in support of their proposal to build the Moen Transfer Station. I see no problems with this facility in the industrial park of Rockdale. I hope to see them succeed in there endeavors.

Sincerely,

Kevin Manning, President

*PC#5*

Dear Illinois Pollution Control Board,

I am writing in support of the Village of Rockdale approval of The Moen Transfer Station. Combined with the limited option of disposal facilities and limited hours of the only municipal waste transfer in the area I feel The Moen Transfer Station would greatly accommodate the waste needs of the Will County area.

In addition, I feel strongly that the owners/operators of the proposed facility have the knowledge and experience to safely and effectively manage The Moen Transfer Station.

It is also unfortunate that the appeal process is being used as a way to prevent entry in to the marketplace and to inhibit competition.

Regards,

Re: Case # PCB 2016-54 & PCB 2016-56

Date: January 18, 2016

Dear Illinois Pollution Control Board:

K. Hoving Recycling & Disposal, Inc is a waste and recycling hauler that services the greater Chicago area, including Will County. This letter is written in support of the proposed Municipal Waste Transfer Station in Rockdale, IL.

For several important reasons, our industry depends on the utilization of waste transfer stations such as the proposed Moen Transfer Station. The restriction of new facilities such as this transfer station would impede the logistics of our business and industry. It would ultimately increase the cost of waste disposal to all consumers; it would also increase fuel consumption, fleet maintenance, air emissions and wear and tear on the roadways.

It is critical in the opinion of our company that facilities such as this be supported, and we feel that the operator of this facility is well qualified to ensure the protection of the health and welfare of the public in this facility.

Sincerely,

Ken Hoving, President
