Re: Case# PCB 16-54 and PCB 16-56

Dear Illinois Pollution Control Board,

We are located down the street from Environmental Recycling and Disposal. Our business has NO objection to them building a waste transfer facility. We believe it would be an asset to the community. I believe it would help the community with traffic congestion problems at a current nearby facility. Municipalities and Companies could be more productive and would not have to wait in long lines or on the roadway. We feel the communities have grown and a need for another facility is much needed.

Respectively,

A handwritten signature in black ink, appearing to read "Wes Kochel", with a long, sweeping horizontal line extending to the right.

PC# 18

Dear Illinois Pollution Control Board,

Thank you for the opportunity to give public comment on the Moen Transfer Station. I applaud the Village of Rockdale for its approval vote. This is great foresight planning for Rockdale's future and the communities that surround Rockdale. There is significant growth in the area and with that growth is the need for efficiencies. The Moen Transfer Station will provide those efficiencies for years to come.

Thank you once again for the opportunity to express my support of the Moen Transfer Station publicly.

Sincerely,
James C Kingery

President
