Re: Case **PCB 2016-54 and PCM 2016-56**

Dear Pollution Control Board,

We at Kaluzny Bros., Inc. are in agreement with the Village of Rockdale's approval of the Moen Avenue Transfer Station referenced in the above case numbers.

As a lifelong property and business owner directly southwest of the site location, I have no objections to the waste transfer station. This area has had a long history of heavy industrial uses. As such, the Moen Avenue Transfer Station would have a positive impact in our industrial area.

Sincerely,

David J. Kaluzny, II

DJK. II/dmw
