Jonathan,

You called for clarification of the meaning of the Board note attached to the definition of “point of material origination” in 35 Ill. Adm. Code 721.981. I explained that the Board changed “In this case,” in corresponding note to paragraph (i) of the definition of the term in 40 C.F.R. 261.1081, to use the opening words of that half of the definition. We agreed that adding the words “is the generator of the hazardous secondary material” would add the needed clarity to the note.
