PL# 21

Thank you. I will now prepare to file the amendments.

Indeed, the eight appearances of "276" in the IIS-RA (F) were typographic errors, and "726" was intended. I have made the corrections, and I will have John T. replace the IIS-RA (F) in the docket with the attached corrected version.

John T.: Please print this e-mail, enter it into docket R16-7 as a public comment, and replace the IIS-RA (F) in docket R16-7 with the attached corrected document.

Mike: I have reviewed the final rules and find all is well for R 16-7. One thing in the Addendum. Table 1, 35 IAC 276 is consistently listed. Is this actually supposed to be 35 IAC 726? As it references being the analog to 40 CFR 266.

These are on page 9 and 10 of Table 1 in the addendum.
