c) In addition to subsections (a) and (b) ~~of this Section~~, the Board has the authority to act as otherwise provided by law.

(Source: Amended at 41 Ill. Reg. ~~_____~~, effective ~~_____~~)

Section 101.108 Board Proceedings

c) The following are examples of Board adjudicatory proceedings: Enforcement Proceedings (35 Ill. Adm. Code 103), Variance Petitions (35 Ill. Adm. Code 104), Adjusted Standard Petitions (35 Ill. Adm. Code 104), Permit Appeals (35 Ill. Adm. Code 105), Leaking Underground Storage Tank Appeals (35 Ill. Adm. Code 105), Pollution Control Facility Siting Appeals (35 Ill. Adm. (Source: Amended at 41 Ill. Reg. _____, effective _____)

Section 101.110 Public Participation

a) General. The Board encourages public participation in all of its proceedings. The extent to which the law allows for the participation varies, depending on the type of Board proceeding involved, the party status of the person or persons seeking to participate, and the rules governing that type of proceeding. Public participation in particular proceedings may be more specifically delineated by Board or hearing officer order consistent with the provisions of applicable law and the Board's procedural rules. (See Sections 101.114 and ~~101.628 of this Part.~~ 101.628.)

b) Party/Non-Party Status. The issue of who constitutes a proper party in each type of adjudicatory proceeding before the Board is addressed in the rules. A person who wishes to participate in a Board adjudicatory proceeding and is not a party will be deemed a participant and will have only those rights specifically provided in these rules. A person who wishes to participate in a Board regulatory proceeding will be deemed a participant and will have only those rights specifically provided in these rules.

c) Amicus Curiae Briefs. Amicus curiae briefs may be filed in any adjudicatory proceeding by any interested person, provided permission is granted by the Board. Response briefs may be allowed by permission of the Board, but not as of right. The briefs must consist of argument only and may not raise facts that are not in evidence in the relevant proceeding. Amicus curiae briefs, and any responses, will be considered by the Board only as time allows. The briefs will not delay decision-making of the Board. (See also Section 101.302(k) ~~of this Part.~~)

d) Public Remarks at a Board Meeting. During the time period designated for public remarks ~~at a Board meeting~~, any person physically present ~~at the meeting~~, once recognized by the Chairman, may make public remarks to the Board concerning a proceeding listed on that meeting's agenda.

1) Sign-In Sheet. Beginning at least 15 minutes before the scheduled start of each Board meeting, a public remarks sign-in sheet will be available to the public at the meeting. Anyone who wishes to make public remarks at the meeting must provide the following information on the sign-in sheet:

A) Full name;

B) Any person he or she is representing; and

C) The docket number of the proceeding on which he or she would like to make public remarks.

2) Time Limits. A time period of up to 30 minutes at the beginning of each Board meeting, as designated on the meeting agenda, is reserved for public remarks. The Chairman may extend the duration of the public remarks portion of the meeting as necessary to accommodate persons who signed in under ~~pursuant to subsection (d)(1) of this Section~~. A person's public remarks on a given proceeding must not exceed five minutes in length, but this time period may be extended with the Chairman's permission.

3) Nature of Public Remarks. Public remarks are not made under oath or affirmation and are not subject to cross-examination. Public remarks that are relevant to the proceeding for which they are made may be considered by the Board, but factual statements made during public remarks do not constitute evidence in the proceeding. The public remarks portion of a Board meeting is not a hearing and cannot be used to offer documentary or other physical evidence to the Board. The Chairman may direct persons to cease public remarks that are irrelevant, repetitious, or disruptive. Persons engaging in disorderly conduct may be asked by the Chairman to leave the meeting.

4) Transcription. The Board will arrange for public remarks to be transcribed. Transcripts of public remarks will be made a part of the record of the proceeding to which the remarks correspond. (See 5 ILCS 120/2.06(g).)

(Source: Amended at 41 Ill. Reg. _____, effective _____)

a) No Board Member or Board employee may represent any other person in any Board proceeding.

b) No former Board Member or Board employee may represent any other person in any Board proceeding in which he or she participated personally and substantially as a Board Member or Board employee, unless the Board and, as applicable, all parties or proponents in the proceeding consent in writing after disclosure of the participation. For purposes of subsections (a) and (b) ~~of this Section~~, representation includes consulting on legal or technical matters, and Board employee means a person the Board employs on a full-time, part-time, contract, or intern basis.

c) The Board, on its own motion or the motion of any party, may disqualify a hearing officer for bias or conflict of interest as provided by Section 10-30(b) of the IAPA [5 ILCS 100/10-30(b)].

(Source: Amended at 41 Ill. Reg. _____ ~~—~~, effective _____)

Section 101.114 Ex Parte Communications

a) For the purposes of this Section, "interested person or party" means a person or entity whose rights, privileges, or interests are the subject of or are directly affected by a regulatory, quasi-adjudicatory, investment, or licensing matter [5 ILCS 430/5-50(d)].

b) For the purposes of this Section, "Executive Ethics Commission" means the commission created by the State Officials and Employees Ethics Act [5 ILCS 430].

c) Adjudicatory and Regulatory Proceedings. Board Members and Board employees must ~~should~~ not engage in an ex parte communication designed to influence their action with respect to an adjudicatory or regulatory proceeding pending before or under consideration by the Board. (See definition of "ex parte communication" in Section ~~101.202 of this Part.~~ 101.202.) Whenever practicable, an interested person or party or his or her official representative or attorney should make all communications with respect to an adjudicatory or regulatory proceeding pending before or under consideration by the Board in writing and address them to the Clerk rather than to individual Board Members or Board employees. (See Sections 101.110 and ~~101.628 of this Part.~~ 101.628.)

d) Nothing in this Section precludes Board Members or Board employees from receiving informal complaints about individual pollution sources, or forbids the administrative contacts as would be appropriate for judges and other judicial officers. Information about a pollution source included in the record of a regulatory proceeding is not an ex parte communication with respect to any adjudicatory proceeding concerning the pollution source.

e) When the Clerk on behalf of the Board, a Board member, or a Board employee receives an ex parte communication from an interested person or party or his or her official representative or attorney, the recipient, in consultation with the Board's ethics officer or his or her designee, must promptly memorialize the communication and make it part of the record of the proceeding. To make an oral ex parte communication part of the record, the substance of the oral communication, along with the identity of each person involved in the communication, will be either set forth in a memorandum and placed in the record or announced on the record at a public hearing.

f) When the Clerk on behalf of the Board, a Board member, or a Board employee receives an ex parte communication, other than an ex parte communication received from an interested person or party or his or her official representative or attorney, that communication must be promptly reported to the Board's ethics officer or his or her designee by the recipient of the communication and by any other employee of the Board who responds to the communication [5 ILCS 430/5-50(c)].

1) The ethics officer or his or her designee, in consultation with the recipient of the ex parte communication, must ensure that the ex parte communication is promptly made part of the record of the proceeding [5 ILCS 430/5-50(c)].

2) The ethics officer or his or her designee, in consultation with the recipient of the ex parte communication, must promptly file the ex parte communication with the Executive Ethics Commission, including:

A) All written communications;

B) All written responses to the communications;

C) A memorandum prepared by the ethics officer stating the nature and substance of all oral communications;

D) The identity and job title of the person to whom each communication was made;

E) All responses made;

F) The identity and job title of the person making each response;

G) The identity of each person from whom the written or oral ex parte communication was received;

H) The individual or entity represented by that person;

I) Any action the person requested or recommended;

and

J) Any other pertinent information.

3) The disclosure shall also contain the date of any ex parte communication. [5 ILCS 430/5-50(c)]

- b) The hearing officer may rule upon any motion to revise the schedule to complete the record. The hearing officer may grant the motion to the extent that the revised schedule provides for a completed record at least 30 days before the decision date or to prevent material prejudice. If the hearing officer grants a motion to revise the schedule, the hearing officer must file the revised schedule with the

Clerk and serve a copy of the revised schedule on all parties in accordance with Subpart C ~~of this Part~~. (See also Section 101.510(d) ~~of this Part~~.)

Section 101.616 Discovery

The assigned hearing officer will set all time deadlines for discovery not already provided for in this Subpart consistent with Board deadlines. For purposes of discovery, the Board may look to the Code of Civil Procedure and the Supreme Court Rules for guidance where the Board's procedural rules are silent (see Section 101.100(b)). All discovery disputes will be handled by the assigned hearing officer.

- a) All relevant information and information calculated to lead to relevant information is discoverable, excluding those materials that would be protected from disclosure in the courts of this State under ~~pursuant to~~ statute, Supreme Court Rules or common law, and materials protected from disclosure under 35 Ill. Adm. Code 130.
- b) If the parties cannot agree on the scope of discovery or the time or location of any deposition, the hearing officer has the authority to order discovery or to deny requests for discovery.
- c) All discovery must be completed at least 10 days prior to the scheduled hearing in the proceeding unless the hearing officer orders otherwise.
- d) The hearing officer may, on his or her own motion or on the motion of any party or witness, issue protective orders that deny, limit, condition or regulate discovery to prevent unreasonable expense, or harassment, to expedite resolution of the proceeding, or to protect non-disclosable materials from disclosure consistent with Sections 7 and 7.1 of the Act and 35 Ill. Adm. Code 130.
- e) Unless a claim of privilege is asserted, it is not a ground for objection that the testimony of a deponent or person interrogated will be inadmissible at hearing, if the information sought is reasonably calculated to lead to relevant information. Any appeals of rulings by the hearing officer regarding discovery must be in writing and filed with the Board prior to hearing.
- f) Failure to comply with any order regarding discovery may subject the offending persons to sanctions under ~~pursuant to Subpart H of this Part~~.
- g) If any person serves any request for discovery or answers to discovery for any improper purpose, such as to harass or to cause unnecessary delay or needless increase in the cost of litigation, or knowingly gives a false answer to discovery questions, the Board, on its

own motion or the motion of a party, may impose sanctions under ~~pursuant to~~ Subpart H ~~of this Part~~.

h) A party must amend any prior responses to interrogatories, requests for production, or requests for admission if the party learns that the response is in some material respect incomplete or incorrect, and the additional or corrected information has not otherwise been made known to the other parties during the discovery process or in writing.

Section 101.618 Admissions

a) General. All requests to admit must be served upon a party no later than 35 days before hearing. All answers or objections to requests to admit must be served upon the party requesting the admission within 28 days after the service of the request.

b) Extension of Time. In accordance with Sections 101.522 and ~~101.610 of this Part~~, 101.610, the hearing officer may extend the time for filing any request, answer, or objection either before or after the expiration of time.

c) Request to Admit. Any party serving a request to admit in accordance with subsection (d) or (e) must include the following language in the first paragraph of the request. "Failure to respond to the following requests to admit within 28 days may have severe consequences. Failure to respond to the following requests will result in all the facts requested being deemed admitted as true for this proceeding. If you have any questions about this procedure, you should contact the hearing officer assigned to this proceeding or an attorney."

d) Request for Admission of Fact. A party may serve a written request for admission of the truth of specific statements of fact on any other party.

e) Request for Admission of Genuineness of Document. A party may serve a written request for admission of the genuineness of documents on any other party. Copies of the document must be served unless the document has already been furnished in the present proceeding.

f) Admission in the Absence of Denial. Each of the matters of fact and the genuineness of each document of which admission is requested is admitted unless, within 28 days after service ~~thereof~~, the party to whom the request is directed serves upon the party requesting the admission either a sworn statement denying specifically the matters of which admission is requested or setting forth in detail the reasons why the party cannot truthfully admit or deny those matters, or written objections on the ground that some or all of the requested admissions are privileged or irrelevant or that the request is otherwise improper in whole or in part. If written objections to a part of the request are made, the remainder of the request must be answered within the period

designated in the request. A denial must fairly address the substance of the requested admission.

g) Partial Denial or Qualification. If good faith requires that a party deny a part of a matter for which an admission is requested, or if a part requires qualification, the party must specify the part which is denied or qualified and admit only the remainder.

h) Objection. Any objection to a request or to any answer must be stated with specificity, and will be heard by the hearing officer upon notice and motion of the party making the request.

i) Effect of Admission. Any admission made by a party under ~~pursuant to~~ a request under this Section is for the purpose of the pending proceeding only. It does not constitute an admission by the party for any other purpose and may not be used against him in any other proceeding.

(Source: Amended at 41 Ill. Reg. , effective)

Section 101.620 Interrogatories

a) Unless ordered otherwise by the hearing officer, a party may serve a maximum of 30 written interrogatories, including subparts, on any other party, no later than 35 days before hearing.

b) Within 28 days after service ~~thereof~~, the party to whom the interrogatory is directed must serve the answers and objections, if any, upon the party submitting the interrogatories. Each interrogatory must be answered separately and fully in writing under oath, unless it is objected to. Answers must be signed by the person making them and objections must be signed by the attorney making them or, in the event of an individual representing himself or herself, the individual making them.

c) Grounds for an objection to an interrogatory must be stated with specificity, and be accompanied by a copy of the interrogatory. Any ground that is not stated in a timely objection is waived unless it results in material prejudice or good cause for the delay is shown.

(Source: Amended at 41 Ill. Reg. , effective)

Section 101.622 Subpoenas and Depositions

a) Upon request by any party to a contested proceeding, the Clerk will issue subpoenas for the attendance of witnesses at a hearing or deposition. Subpoena forms are available at the Board's Chicago office. The person requesting the subpoena is responsible for completing the subpoena and serving it upon the witness.

b) Service of the subpoena on the witness must be completed no later than 10 days before the date of the required appearance. A copy of the

subpoena must be filed with the Clerk and served upon the hearing officer within 7 days after service upon the witness. Failure to serve both the Clerk and the hearing officer will render the subpoena null and void. Service and filing must be in accordance with Subpart C ~~of this Part~~.

c) Subpoenas may include a command to produce books, papers, documents, or other tangible things designated therein and relevant to the matter under consideration.

d) The hearing officer, upon motion made promptly and in any event at or before the time specified in the subpoena for compliance, may quash or modify the subpoena if it is unreasonable or irrelevant. The hearing officer will rule upon motions to quash or modify material requested in the subpoena under ~~pursuant to~~ subsection (c) ~~of this Section~~ in accordance with the standards articulated in Section ~~101.614 of this Part~~ 101.614.

e) Each witness subpoenaed by a party under this Section is entitled to receive witness fees from that party as provided in Section 4.3 of the Circuit Courts Act [705 ILCS 35/4.3].

f) Unless the hearing officer orders otherwise, any witness subpoenaed for a deposition may be required to attend only in the county in which he resides or maintains an office address. In accordance with Supreme Court Rule 206(d), all depositions must be limited to 3 hours in length unless the parties and the non-party deponent by stipulation agree to a longer time frame or unless the hearing officer orders otherwise after a showing of good cause. (See Ill. S. Ct. Amended Rule 206(d).)

g) Failure of any witness to comply with a subpoena will subject the witness to sanctions under this Part, or the judicial enforcement of the subpoena. The Board may, upon proper motion by the party requesting the subpoena, request the Attorney General to pursue judicial enforcement of the subpoena on behalf of the Board.

Section 101.626 Information Produced at Hearing

In accordance with Section 10-40 of the IAPA, the hearing officer will admit evidence that is admissible under the rules of evidence as applied in the civil courts of Illinois, except as otherwise provided in this Part.

a) Evidence. The hearing officer may admit evidence that is material, relevant, and would be relied upon by prudent persons in the conduct of serious affairs, unless the evidence is privileged.

b) Admissibility of Evidence. When the admissibility of evidence depends upon a good faith argument as to the interpretation of substantive law, the hearing officer will admit the evidence.

c) Scientific Articles and Treatises. Relevant scientific or technical articles, treatises, or materials may be introduced into evidence by a party. The materials are subject to refutation or disputation through introduction of documentary evidence or expert testimony.

d) Written Testimony. Written testimony may be introduced by a party in a hearing only if provided to all other parties of record prior to the date of the hearing and only after the opposing parties have had an opportunity to object to the written testimony and to obtain a ruling on the objections prior to its introduction. Written testimony may be introduced by a party only if the persons whose written testimony is introduced are available for cross-examination at hearing.

e) Admission of Business Records. A writing or record, whether in the form of any entry in a book or otherwise made as a memorandum or record of any act, transaction, occurrence, or event, may be admissible as evidence of the act, transaction, occurrence, or event. To be admissible, the writing or record must ~~will~~ have been made in the regular course of business, provided it was the regular course of business to make the memorandum or record at the time of the act, transaction, occurrence, or event, or within a reasonable time afterwards ~~thereafter~~. All other circumstances of the making of the writing or record, including lack of personal knowledge by the entrant or maker, may be admitted to affect the weight of the evidence, but will not affect admissibility. The term "business," as used in this subsection (e), includes businesses, professions, occupations, and callings of every kind.

f) Prior Inconsistent Statements. Prior statements made under oath may be admitted to impeach a witness if the statement is inconsistent with the witness' testimony at hearing.

g) Oral and Written Statements. Oral and written statements from participants may be taken at hearing in accordance with Section ~~101.628 of this Part.~~ 101.628.

(Source: Amended at 41 Ill. Reg. ~~—~~, effective)

Section 101.628 Statements from Participants

a) Oral Statements. The hearing officer may permit a participant to make oral statements on the record when time, facilities, and concerns for a clear and concise hearing record so allow. The oral statements must be made under oath and are subject to cross-examination. (See Sections 101.110 and ~~101.114 of this Part.~~ 101.114.)

b) Written Statements. Any participant may submit written statements relevant to the subject matter at any time prior to hearing or at hearing. Participants submitting such a statement will be subject to cross-examination by any party. Written statements submitted without the availability of cross-examination will be treated as public comment in accordance with subsection (c) ~~of this Section~~ and will be afforded lesser weight than evidence subject to cross-examination.

c) Public Comments or Amicus Curiae Briefs. Oral public comment may be made on the record at a hearing and is not subject to cross-examination. Additionally, ~~pParticipants~~participants may file written public comments subject to the requirements of this Section and the hearing officer's schedule for completion of the record. The Board also allows for the filing of amicus curiae briefs by non-party participants. Amicus curiae briefs will be allowed in accordance with Section ~~101.110 of this Part.~~101.110.

1) Written public ~~Public~~ comments must be filed within 14 days after the close of the last hearing unless the hearing officer specifies a different date for submission of post-hearing comments. However, all public comments must be filed with the Board no later than 30 days before the decision date, unless the hearing officer orders otherwise to prevent material prejudice. Consistent with the burden of proof in a proceeding, the hearing officer may provide for differing filing deadlines with respect to post-hearing comments by different persons. Under ~~pursuant to~~ hearing officer order, rebuttal public comments may be submitted.

2) All public comments must present arguments or comments based on evidence contained in the record. The comments may also present legal argument citing legal authorities.

3) Comments must be filed with the Board. Comments will be distributed to parties and the hearing officer by the Clerk's office.

SUBPART I: REVIEW OF FINAL BOARD OPINIONS AND ORDERS

Section 101.902 Motions for Reconsideration

In ruling upon a motion for reconsideration, the Board will consider factors including new evidence, or a change in the law, to conclude that the Board's decision was in error. (See also Section ~~101.520 of this Part.~~101.520.) A motion for reconsideration of a final Board order is not a prerequisite for the appeal of the final Board order.

(Source: Amended at 41 Ill. Reg. ~~—~~_____, effective _____)

Section 101.904 Relief from Final Opinions and Orders

a) Upon its own motion or motion of any party, the Board may correct clerical mistakes in orders or other parts of the record and errors therein arising from oversight or omission. ~~The mistakes may be so corrected by the Board~~ before the appeal is docketed in the appellate court. After ~~Thereafter, while~~ the appeal is pending, the mistakes may be corrected only with permission ~~leave~~ of the appellate court. Any corrected order will be mailed to all parties and participants in that proceeding.

b) On written motion, the Board may relieve a party from a final order entered in a contested proceeding, for the following:

1) Newly discovered evidence that existed at the time of hearing and that by due diligence could not have been timely discovered;

2) Fraud (whether intrinsic or extrinsic), misrepresentation, or other misconduct of an adverse party; or

3) Void order, such as an order based upon jurisdictional defects.

c) A motion under this Section does not affect the finality of a Board order or suspend the operation of a Board order. The motion must be filed in the same proceeding in which the order was entered but is not a continuation of the proceeding. The motion must be supported by oath or affidavit or other appropriate showing as to matters not of record. All parties or participants in the proceeding must be notified by the movant as provided by Section ~~101.304 of this Part.~~ 101.304.

d) A motion under subsection (b) ~~of this Section~~ must be filed with the Board within one year after entry of the order, except that a motion under ~~pursuant to~~ subsection (b) (3) ~~of this Section~~ must be filed within a reasonable time after entry of the order.

e) Any response to a motion under this Section must be filed within 14 days after the filing of the motion.

However, under ~~pursuant to~~ Section 11-60 of the Property Tax Code [35 ILCS 200/11-60], judicial review of final Board orders in tax certification proceedings is available from the circuit court.

b) For purposes of judicial review, a final Board order is appealable as of the date of service of the final order upon the appealing person (see Section 101.300(d)).

c) The procedure for stay of any final Board order during appeal will be as provided in Rule 335 of the Rules of the Supreme Court of Illinois (Ill. S. Ct. Rule 335).

SUBPART J: ELECTRONIC FILING AND E-MAIL SERVICE

Section 101.1000 Electronic Filing and E-Mail Service

a) The Board provides the opportunity to file and access documents electronically through its Clerk's Office On-Line (COOL). COOL is located on the Board's website (www.ipcb.state.il.us). The Board has taken steps designed to ensure the integrity and security of COOL in accordance with State policies developed under the Electronic Commerce Security Act [5 ILCS 175].

b) To file an electronic document with the Board, a person must upload the document on COOL. Electronic filing is not accomplished by sending a document to the e-mail address of the Clerk or hearing officer.

c) Except as provided in Section 101.302(h)(2), (h)(3), (h)(4), and (j) ~~of this Part~~ and Section ~~101.1050 of this Subpart, 101.1050~~, all documents may be filed through COOL. However, if filing through COOL is not reasonably practicable, the Board, the hearing officer, or the Clerk may grant permission to file in paper. ~~If a person files an electronic document in accordance with this Subpart, the person is not required to file a paper original or copy of that document.~~

d) Generally, the Clerk's Office will not accept paper documents for filing; however, the Clerk's Office will convert paper-filed documents into electronic documents and place them on COOL, when permission to file a paper document is granted under subsection (c).

e) All documents filed with the Board may be served by e-mail except for enforcement complaints, administrative citations, and EMSA statements of deficiency. (See Section 101.304(c) ~~of this Part~~ and Section ~~101.1060 of this Subpart.~~ 101.1060.)

(Source: Amended at 41 Ill. Reg. , effective)

Section 101.1010 Electronic Filing Authorization and Signatures

a) A person seeking to upload a document on COOL for filing must have been issued a State of Illinois digital signature certificate under ~~pursuant to~~ Section 15-310 of the Electronic Commerce Security Act. (See 5 ILCS 175/15-310.) A link to the subscriber agreement and application for a State of Illinois digital signature certificate is available through COOL.

1) Maintaining digital signature confidentiality is the responsibility of the holder of the digital signature certificate. The certificate holder is responsible for any document electronically filed by anyone using his or her digital signature certificate.

2) The digital signature certificate holder is responsible for keeping his or her contact information current.

b) Each electronic document uploaded on COOL for filing must bear a facsimile electronic signature (i.e., scanned image of original pen-and-ink signature) or typographical electronic signature (i.e., "/s/ typed name") of the person authorizing the filing (e.g., attorney, participant, pro se party). However, if this electronic signature is absent, the document will be deemed to have been signed by the holder of the digital signature certificate used to upload the document and the certificate holder will be deemed to have authorized the filing. (See 5 ILCS 175/5-120.) To file an electronic document on behalf of another person in an adjudicatory proceeding, an electronic signature of a licensed and registered attorney is required. (See Section 101.400(a)-~~of this Part.~~)

c) If an electronic document or portion thereof requires the signatures of any persons in addition to those specified in subsection (b)-~~of this Section~~ (e.g., settlement agreement, witness' affidavit), the person authorizing the filing must:

1) Confirm that the additional persons have approved the document or corresponding portion thereof and obtain their original pen-and-ink signatures before the document is uploaded on COOL for filing;

2) Ensure that the document or corresponding portion thereof bears the facsimile electronic signatures of, and indicates the identity of, the additional persons;

3) Upload the document on COOL as a scanned image containing the necessary signatures; and

4) Retain the paper original of the document, including the original pen-and-ink signatures of the additional persons, for one year after the later of the following:

A) The date on which the time period expires for appealing the final order of the Board; or

B) If the final order of the Board is appealed, the date on which the time period expires for seeking any further review in the courts.

~~d) In lieu of complying with subsection (c) of this Section, the person authorizing the filing may file the paper original of the document, including the original pen and ink signatures of the additional persons, and separately file the document through COOL-~~

~~without the facsimile electronic signatures of the additional persons (see Section 101.1020(e)(2) of this Subpart).~~

(Source: Amended at 41 Ill. Reg. , effective)

Section 101.1020 Filing Electronic Documents

a) COOL. To file an electronic document through COOL, the document must first be uploaded on COOL.

b) Digital Signature Certificate. Uploading a document on COOL requires a valid State of Illinois digital signature certificate.

c) Uploading Hours. Electronic documents may be uploaded on COOL 24 hours per day, every day.

d) E-Mail Receipt. Uploading a document on COOL will generate an e-mail receipt for the digital signature certificate holder. The receipt will verify the date and time when the document was uploaded on COOL.

e) Time of Filing. Subject to subsection (f) ~~of this Section~~, an electronic document uploaded on COOL will be considered filed as of the date and time specified on the e-mail receipt generated under ~~pursuant to~~ subsection (d) ~~of this Section~~, except that:

1) A document uploaded on a Saturday or Sunday, on a national or State legal holiday, or after 4:30 p.m. on a weekday is deemed filed the next business day.

2) A document uploaded without one or more portions of the filing (e.g., oversized exhibit; trade secret or non-disclosable information; copyrighted document proposed for incorporation by reference in a rule) or without a required oath, affidavit, notarization, signature, or filing fee is considered filed:

A) On the date that the Clerk receives the document's last missing item; or

B) On the postmark date of the document's last missing item if that item was sent by U.S. Mail, was received after the date of a filing deadline, and has a postmark date that precedes or is the same as the deadline date.

3) A document consisting of multiple electronic files is considered filed as of the date and time specified on the e-mail receipt generated under ~~pursuant to~~ subsection (d) ~~of this Section~~ for the last file uploaded to complete the document.

f) Review by the Clerk. The Clerk will review electronically each document uploaded on COOL, validate the proceeding information provided, and accept or reject the document for filing.

1) If the Clerk accepts an uploaded document, the Clerk's Office will e-mail a notice of acceptance to the digital signature certificate holder, indicating that the filed document may be viewed on COOL.

2) If the Clerk rejects an uploaded document, the Clerk's Office will e-mail a notice of rejection to the digital signature certificate holder. The Clerk may reject an uploaded document because the document is prohibited from being filed electronically under ~~pursuant to~~ Section 101.302(h)(3) or (h)(4) ~~of this Part~~, the document fails to comply with file size or naming requirements of Section 101.1030(c) ~~of this Subpart~~, or the document is corrupted or otherwise cannot be readily opened. If an uploaded document is rejected by the Clerk, the Board may, upon good cause shown, enter an order deeming the document filed as of the date and time specified when the document was uploaded on COOL, subject to subsections (e)(1) through (e)(3) ~~of this Section.~~

g) Technical Failure. If an electronic document is not uploaded, or is materially delayed in uploading, on COOL due to a technical failure, the Board may, upon good cause shown, enter an order deeming the document uploaded under ~~pursuant to~~ subsection (d) ~~of this Section~~ as of the date and time of the first attempted uploading. "Technical failure" as used in this subsection is limited to a system outage of COOL or other malfunction of the hardware, software, or telecommunications facilities of the Board or the Board's electronic filing provider. "Technical failure", therefore, does not include any malfunction of the equipment used by the person authorizing the filing or the digital signature certificate holder.

h) Clerk's Electronic Stamp. An electronic document uploaded on COOL and accepted by the Clerk for filing will be endorsed by the Clerk with a file stamp setting forth the date of filing. This file stamp will be merged with the electronic document and visible when the document is viewed on COOL. Electronically filed documents so endorsed have the same legal effect as paper documents file-stamped by the Clerk conventionally in accordance with Section 101.300(b) ~~of this Part.~~

i) Decision Deadlines. For purposes of Board decision deadlines, the decision period does not begin until the date on which the electronic document constituting the initial filing is considered filed under this Section.

j) Filing Deadlines. The electronic filing of a document does not alter any applicable filing deadlines.

(Source: Amended at 41 Ill. Reg. ~~—~~, effective ~~_____~~)

a) In addition to complying with the formatting requirements of Section 101.302(g) and (j) ~~of this Part~~, electronic documents uploaded on COOL for filing must be in one of the following electronic formats:

- 1) Adobe Portable Document Format (PDF), version 2.0 or greater;
- 2) Microsoft Word for Windows, version 6.0 or greater;
- 3) Corel WordPerfect for Windows, version 6.0 or greater; or
- 4) Microsoft Excel for Windows, version 4.0 or greater.

b) Generally, electronic documents filed in accordance with this Subpart will be posted to COOL by the Clerk's Office in text-searchable Adobe PDF. When practicable, persons should:

- 1) Upload their electronic documents on COOL in text-searchable Adobe PDF; and
- 2) Convert their electronic documents to a text-searchable Adobe PDF directly from the program used to create the document, rather than from a scanned image of the paper document.

c) No single electronic file uploaded on COOL, whether constituting all or part of an electronic document, may contain more than 10 megabytes (MB) of data. To comply with this requirement, an electronic document may be divided into parts and submitted as multiple electronic files, each file being 10 MB or less. The person authorizing the filing is responsible for dividing the document into appropriately-sized files and naming each file to reflect its place within the electronic document.

d) Multiple electronic documents, whether for the same proceeding or different proceedings, must be uploaded separately on COOL and, therefore, must not be combined into a single electronic file for filing through COOL.

e) Electronic documents may contain links to material external to the filed document. However, links to external material are for convenience purposes only. The external material behind the link is not considered part of the filing or the record of the proceeding in which the document was filed.

f) All documents uploaded on COOL must be free of viruses or other harmful processes. If an electronic document containing a virus or other harmful process is uploaded on COOL, the Board may, consistent with Section 101.800(b) and (c) ~~of this Part~~, impose sanctions, including barring the document from being filed in any manner and barring the person authorizing the filing or the digital signature certificate holder from any further electronic filing through COOL.

g) Documents filed under Section 101.302(h) (2) must:

1) Include bookmarks, immediately viewable when the document is opened, to individual documents in the same order as they appear in the corresponding Table of Contents to facilitate navigation and location of specific contents within the record; and

a) A document containing information claimed or determined to be a trade secret, or other non-disclosable information under ~~pursuant to~~ 35 Ill. Adm. Code 130, is prohibited from being filed electronically and must instead be filed only in paper under ~~pursuant to~~ Section 101.302(h)(3) ~~of this Part~~. The version of the document that is redacted under ~~pursuant to~~ 35 Ill. Adm. Code 130 may be filed through COOL.

b) If a rulemaking proposal contains a document that is protected by copyright law (17 USC 101 et seq.) and proposed under ~~pursuant to~~ Section 5-75 of the IAPA [5 ILCS 100/5-75] to be incorporated by reference, that copyrighted document is prohibited from being filed electronically and must instead be filed only in paper under ~~pursuant to~~ Section 101.302(h)(4) ~~of this Part~~. The remainder of the rulemaking proposal may be filed through COOL.

Section 101.1060 E-Mail Service

a) Except as provided in subsections (b) and (c), a person required to serve a document may serve the document by e-mail, in lieu of serving a paper document, if the recipient has consented to e-mail service in the proceeding and has not revoked the consent. (See Section 101.1070.) To serve a document by e-mail, it is not necessary to electronically file the document or to obtain a State of Illinois digital signature certificate.

b) Service of enforcement complaints and EMSA statements of deficiency on a respondent must be made personally, by U.S. Mail with a recipient's signature recorded, or by a third-party commercial carrier with a recipient's signature recorded. (See Section 101.304(c)(2).)

c) Service of administrative citations must be made as required under 35 Ill. Adm. Code 108.

d) A person required to serve a document on the hearing officer must serve the hearing officer by sending the document to the hearing officer's e-mail address in lieu of serving a paper document upon the hearing officer if the person has the capability of serving the document by e-mail.

e) When a document is served by e-mail, documentation of service must be filed with the Clerk and served on all persons entitled to service in that proceeding. A sample form of affidavit or certificate of e-mail service is available in Appendix H. An affidavit or certificate of e-mail service must include the following:

1) The e-mail address of the recipient and the person authorizing the filing;

2) The number of pages in the e-mail transmission;

3) A statement that the document was served by e-mail; and

4) The date of the e-mail transmission and the time by when it took place.

f) If any computer malfunction precludes the e-mail service of a document, the person authorizing the filing must promptly serve the document in paper under ~~pursuant to~~ Section 101.304(c).

g) Except for final adjudicatory orders of the Board, which the Clerk's Office serves in paper by certified mail, the Clerk's Office will serve Board orders and hearing officer orders by e-mail, in lieu of serving paper documents, if the recipient has consented to e-mail

service in the proceeding and has not revoked the consent. (See Section 101.1070.) The Clerk will record the date and time of e-mail service, consistent with subsection (e) ~~of this Section~~.

BOARD NOTE: The Board notes that all docket numbers consist of letter(s) followed by two numbers. The first two digit number is the fiscal year the matter was filed. Then the second number is the sequential number for that type of filing the Board has received that year. Persons making filings are not responsible for the Board docket number on the original filing. The Clerk of the Board will assign the appropriate docket number when the matter is filed. All filings in a matter that has been assigned a docket number must ~~should~~ contain a docket number located as indicated on the examples above. The Board will also be designating its opinion and orders with the type of case and media involved in the matter. Where the above examples have the type of case followed by "X", the Board will, for example if the case is dealing with a variance from certain water regulations, put the media, water, after variance to become "Variance-Water". Again, persons making filings need not place this on original filings. However, all filings in a matter that has been assigned the media must ~~should~~ indicate that media in the location as in the above examples. Where there are specific procedural rules developed for specific types of cases, as in a "UST Appeal", persons making filings must ~~should~~ follow those examples.

- a) General. The Board encourages public participation in all of its proceedings. The extent to which the law allows for the participation varies, depending on the type of Board proceeding involved, the party status of the person or persons seeking to participate, and the rules governing that type of proceeding. Public participation in particular proceedings may be more specifically delineated by Board or hearing officer order consistent with the provisions of applicable law and the Board's procedural rules. (See Sections 101.114 and 101.628 ~~of this Part.~~)

 - b) Party/Non-Party Status. The issue of who constitutes a proper party in each type of adjudicatory proceeding before the Board is addressed in the rules. A person who wishes to participate in a Board adjudicatory proceeding and is not a party will be deemed a participant and will have only those rights specifically provided in these rules. A person who wishes to participate in a Board regulatory proceeding will be deemed a participant and will have only those rights specifically provided in these rules.

 - c) Amicus Curiae Briefs. Amicus curiae briefs may be filed in any adjudicatory proceeding by any interested person, provided permission is granted by the Board. Response briefs may be allowed by permission of the Board, but not as of right. The briefs must consist of argument only and may not raise facts that are not in evidence in the relevant proceeding. Amicus curiae briefs, and any responses, will be considered by the Board only as time allows. The briefs will not delay decision-making of the Board. (See also Section 101.302(k) ~~of this Part.~~)

 - d) Public Remarks at a Board Meeting. During the time period designated for public remarks ~~at a Board meeting~~, any person physically present ~~at the meeting~~, once recognized by the Chairman, may make public remarks to the Board concerning a proceeding listed on that meeting's agenda.
 - 1) Sign-In Sheet. Beginning at least 15 minutes before the scheduled start of each Board meeting, a public remarks sign-in sheet will be available to the public at the meeting. Anyone who wishes to make public remarks at the meeting must provide the following information on the sign-in sheet:
 - A) Full name;
 - B) Any person he or she is representing; and
 - C) The docket number of the proceeding on which he or she would like to make public remarks.

The Chairman may extend the duration of the public remarks portion of the meeting as necessary to accommodate persons who signed in under pursuant to subsection (d)(1) of this Section. A person's public remarks on a given proceeding must not exceed five minutes in length, but this time period may be extended with the Chairman's permission.

- 3) Nature of Public Remarks. Public remarks are not made under oath or affirmation and are not subject to cross-examination. Public remarks that are relevant to the proceeding for which they are made may be considered by the Board, but factual statements made during public remarks do not constitute evidence in the proceeding. The public remarks portion of a Board meeting is not a hearing and cannot be used to offer documentary or other physical evidence to the Board. The Chairman may direct persons to cease public remarks that are irrelevant, repetitious, or disruptive. Persons engaging in disorderly conduct may be asked by the Chairman to leave the meeting.

- 4) Transcription. The Board will arrange for public remarks to be transcribed. Transcripts of public remarks will be made a part of the record of the proceeding to which the remarks correspond. (See 5 ILCS 120/2.06(g).)

- a) No Board Member or Board employee may represent any other person in any Board proceeding.

- b) No former Board Member or Board employee may represent any other person in any Board proceeding in which he or she participated personally and substantially as a Board Member or Board employee, unless the Board and, as applicable, all parties or proponents in the proceeding consent in writing after disclosure of the participation. For purposes of subsections (a) and (b) of this Section, representation includes consulting on legal or technical matters, and Board employee means a person the Board employs on a full-time, part-time, contract, or intern basis.

(See definition of "ex parte communication" in Section 101.202 ~~of this Part.~~) Whenever practicable, an interested person or party or his or her official representative or attorney should make all communications with respect to an adjudicatory or regulatory proceeding pending before or under consideration by the Board in writing and address them to the Clerk rather than to individual Board Members or Board employees. (See Sections 101.110 and 101.628 ~~of this Part.~~)
- d) Nothing in this Section precludes Board Members or Board employees from receiving informal complaints about individual pollution sources, or forbids the administrative contacts as would be appropriate for judges and other judicial officers. Information about a pollution source included in the record of a regulatory proceeding is not an ex parte communication with respect to any adjudicatory proceeding concerning the pollution source.
- e) When the Clerk on behalf of the Board, a Board member, or a Board employee receives an ex parte communication from an interested person or party or his or her official representative or attorney, the recipient, in consultation with the Board's ethics officer or his or her designee, must promptly memorialize the communication and make it part of the record of the proceeding. To make an oral ex parte communication part of the record, the substance of the oral communication, along with the identity of each person involved in the communication, will be either set forth in a memorandum and placed in the record or announced on the record at a public hearing.

Section 101.306 Incorporation of Documents from Another Proceeding

- a) Upon the separate written request of any person or on its own initiative, the Board or hearing officer may incorporate materials from the record of another Board docket into any proceeding. The person seeking incorporation must file the material to be incorporated with the Board in accordance with Section 101.302(h) of this Subpart. The person seeking incorporation must demonstrate to the Board or the hearing officer that the material to be incorporated is authentic, credible, and relevant to the proceeding. Notice of the request must be given to all identified participants or parties by the person seeking incorporation.
- b) The Board will give the incorporated matter the appropriate weight in light of the following factors: the standard of evidence under which the material was previously presented to the Board; the present purpose for incorporating the material; and the past and current opportunity for cross-examination of the matters asserted within the incorporated material.

(Source: Amended at 41 Ill. Reg. _____, effective _____)

Section 101.308 Statutory Decision Deadlines and Waiver of Deadlines

- a) Petitions in the following proceedings each have a 120-day statutory decision deadline: Variances (Section 38 of the Act), Permit Appeals and UST appeals (Section 40 of the Act), and Pollution Control Facility Siting Review (Section 40.1 of the Act). Other adjudicatory proceedings may be subject to decision deadlines as provided by law.
- b) Where the petitioner does not waive the decision deadline, the Board will proceed expeditiously to establish all hearing and filing requirements. Willful or unexcused failure to follow Board requirements on the deadlines will subject the party to sanctions underpursuant to Subpart H of this Part. This Section will be strictly construed where there is a decision deadline unless the Board receives a waiver as set out in subsection (c).
- c) All waivers of a deadline for Board action must be filed as a separate document. Waivers must be clearly-titled and state which type of waiver it is, identify the

proceeding by name and docket number, and be signed by the party or by anhis authorized representative or attorney. A waiver of a statutory deadline does not preclude the Board from issuing an opinion or order prior to any decision deadline, nor does it preclude the filing of a motion seeking a decision on the matter.

- 1) ~~An open waiver waives~~Open Waiver. Waives the decision deadline completely and unequivocally until the petitioner elects to reinstate the 120-day decision period by filing a notice to reinstate. Upon proper filing of the notice, the decision period is reinstated. In accordance with Section 101.300(b)(4) ~~of this Part~~, the decision period recommences as of the date the notice to reinstate is filed with the Board.
- 2) ~~A time certain waiver must~~Time Certain Waiver. Waives the decision deadline until a time certain. The time certain may be expressed in length of days or to a specific calendar date. If expressed in length of days, day one will be the first day after the date upon which the current time clock expires. If the petitioner files a time certain waiver before the hearing date, the waiver must be for at least 40 days. If the extension is not renewed for at least 40 days prior to the decision deadline, the Board will set the matter for hearing.

1668 grant any motion before expiration of the 14 day response period except in

1736
- 1737 d) If the hearing officer grants a motion to cancel a hearing, the hearing officer will

- 1769
- 1770 b) If the record, including pleadings, depositions and admissions on file, together

 1907
 - 1908 d) The hearing officer may, on his or her own motion or on the motion of any party
 1909 or witness, issue protective orders that deny, limit, condition or regulate discovery
 1910 to prevent unreasonable expense, or harassment, to expedite resolution of the
 1911 proceeding, or to protect non-disclosable materials from disclosure consistent
 1912 with Sections 7 and 7.1 of the Act and 35 Ill. Adm. Code 130.
 1913
 - 1914 e) Unless a claim of privilege is asserted, it is not a ground for objection that the
 1915 testimony of a deponent or person interrogated will be inadmissible at hearing, if
 1916 the information sought is reasonably calculated to lead to relevant information.
 1917 Any appeals of rulings by the hearing officer regarding discovery must be in
 1918 writing and filed with the Board prior to hearing.
 1919
 - 1920 f) Failure to comply with any order regarding discovery may subject the offending
 1921 persons to sanctions ~~underpursuant to Subpart H of this Part~~.
 1922
 - 1923 g) If any person serves any request for discovery or answers to discovery for any
 1924 improper purpose, such as to harass or to cause unnecessary delay or needless
 1925 increase in the cost of litigation, or knowingly gives a false answer to discovery
 1926 questions, the Board, on its own motion or the motion of a party, may impose
 1927 sanctions ~~underpursuant to Subpart H of this Part~~.
 1928
 - 1929 h) A party must amend any prior responses to interrogatories, requests for
 1930 production, or requests for admission if the party learns that the response is in

1932 information has not otherwise been made known to the other parties during the
1933 discovery process or in writing.

1937 **Section 101.618 Admissions**
1938

- 1939 a) General. All requests to admit must be served upon a party no later than 35 days
1940 before hearing. All answers or objections to requests to admit must be served
1941 upon the party requesting the admission within 28 days after the service of the
1942 request.
1943
- 1944 b) Extension of Time. In accordance with Sections 101.522 and 101.610 ~~of this~~
1945 ~~Part~~, the hearing officer may extend the time for filing any request, answer, or
1946 objection either before or after the expiration of time.
1947
- 1948 c) Request to Admit. Any party serving a request to admit in accordance with
1949 subsection (d) or (e) must include the following language in the first paragraph of
1950 the request. "Failure to respond to the following requests to admit within 28 days
1951 may have severe consequences. Failure to respond to the following requests will
1952 result in all the facts requested being deemed admitted as true for this proceeding.
1953 If you have any questions about this procedure, you should contact the hearing
1954 officer assigned to this proceeding or an attorney."
1955
- 1956 d) Request for Admission of Fact. A party may serve a written request for
1957 admission of the truth of specific statements of fact on any other party.
1958
- 1959 e) Request for Admission of Genuineness of Document. A party may serve a
1960 written request for admission of the genuineness of documents on any other party.
1961 Copies of the document must be served unless the document has already been
1962 furnished in the present proceeding.
1963
- 1964 f) Admission in the Absence of Denial. Each of the matters of fact and the
1965 genuineness of each document of which admission is requested is admitted unless,
1966 within 28 days after service thereof, the party to whom the request is directed
1967 serves upon the party requesting the admission either a sworn statement denying
1968 specifically the matters of which admission is requested or setting forth in detail
1969 the reasons why the party cannot truthfully admit or deny those matters, or written
1970 objections on the ground that some or all of the requested admissions are
1971 privileged or irrelevant or that the request is otherwise improper in whole or in
1972 part. If written objections to a part of the request are made, the remainder of the
1973 request must be answered within the period designated in the request. A denial

- 1974 must fairly address the substance of the requested admission.
1975
1976 g) Partial Denial or Qualification. If good faith requires that a party deny a part of a
1977 matter for which an admission is requested, or if a part requires qualification, the
1978 party must specify the part which is denied or qualified and admit only the
1979 remainder.
1980
1981 h) Objection. Any objection to a request or to any answer must be stated with
1982 specificity, and will be heard by the hearing officer upon notice and motion of the
1983 party making the request.
1984
1985 i) Effect of Admission. Any admission made by a party ~~underpursuant to~~ a request
1986 under this Section is for the purpose of the pending proceeding only. It does not
1987 constitute an admission by the party for any other purpose and may not be used
1988 against him in any other proceeding.

1995 30 written interrogatories, including subparts, on any other party, no later than 35
1996 days before hearing.
1997
1998 b) Within 28 days after service thereof, the party to whom the interrogatory is
1999 directed must serve the answers and objections, if any, upon the party submitting
2000 the interrogatories. Each interrogatory must be answered separately and fully in
2001 writing under oath, unless it is objected to. Answers must be signed by the person
2002 making them and objections must be signed by the attorney making them or, in
2003 the event of an individual representing himself or herself, the individual making
2004 them.
2005
2006 c) Grounds for an objection to an interrogatory must be stated with specificity, and

2013 **Section 101.622 Subpoenas and Depositions**
2014

- 2015 a) Upon request by any party to a contested proceeding, the Clerk will issue
2016 subpoenas for the attendance of witnesses at a hearing or deposition. Subpoena

forms are available at the Board's Chicago office. The person requesting the subpoena is responsible for completing the subpoena and serving it upon the witness.

- b) Service of the subpoena on the witness must be completed no later than 10 days before the date of the required appearance. A copy of the subpoena must be filed with the Clerk and served upon the hearing officer within 7 days after service upon the witness. Failure to serve both the Clerk and the hearing officer will render the subpoena null and void. Service and filing must be in accordance with Subpart C ~~of this Part~~.
- c) Subpoenas may include a command to produce books, papers, documents, or other tangible things designated therein and relevant to the matter under consideration.
- d) The hearing officer, upon motion made promptly and in any event at or before the time specified in the subpoena for compliance, may quash or modify the subpoena if it is unreasonable or irrelevant. The hearing officer will rule upon motions to quash or modify material requested in the subpoena underpursuant to subsection (c) ~~of this Section~~ in accordance with the standards articulated in Section 101.614 ~~of this Part~~.
- e) Each witness subpoenaed by a party under this Section is entitled to receive witness fees from that party as provided in Section 4.3 of the Circuit Courts Act [705 ILCS 35/4.3].
- f) Unless the hearing officer orders otherwise, any witness subpoenaed for a deposition may be required to attend only in the county in which he resides or maintains an office address. In accordance with Supreme Court Rule 206(d), all depositions must be limited to 3 hours in length unless the parties and the non-party deponent by stipulation agree to a longer time frame or unless the hearing officer orders otherwise after a showing of good cause. (See Ill. S. Ct. Amended Rule 206(d).)
- g) Failure of any witness to comply with a subpoena will subject the witness to sanctions under this Part, or the judicial enforcement of the subpoena. The Board may, upon proper motion by the party requesting the subpoena, request the Attorney General to pursue judicial enforcement of the subpoena on behalf of the Board.

In accordance with Section 10-40 of the IAPA, the hearing officer will admit evidence that is admissible under the rules of evidence as applied in the civil courts of Illinois, except as otherwise provided in this Part.

- a) Evidence. The hearing officer may admit evidence that is material, relevant, and would be relied upon by prudent persons in the conduct of serious affairs, unless the evidence is privileged.
- b) Admissibility of Evidence. When the admissibility of evidence depends upon a good faith argument as to the interpretation of substantive law, the hearing officer will admit the evidence.
- c) Scientific Articles and Treatises. Relevant scientific or technical articles, treatises, or materials may be introduced into evidence by a party. The materials are subject to refutation or disputation through introduction of documentary evidence or expert testimony.
- d) Written Testimony. Written testimony may be introduced by a party in a hearing only if provided to all other parties of record prior to the date of the hearing and only after the opposing parties have had an opportunity to object to the written testimony and to obtain a ruling on the objections prior to its introduction. Written testimony may be introduced by a party only if the persons whose written testimony is introduced are available for cross-examination at hearing.
- e) Admission of Business Records. A writing or record, whether in the form of any entry in a book or otherwise made as a memorandum or record of any act, transaction, occurrence, or event, may be admissible as evidence of the act, transaction, occurrence, or event. To be admissible, the writing or record ~~must~~ will have been made in the regular course of business, provided it was the regular course of business to make the memorandum or record at the time of the act, transaction, occurrence, or event, or within a reasonable time ~~afterwardsthereafter~~. All other circumstances of the making of the writing or record, including lack of personal knowledge by the entrant or maker, may be admitted to affect the weight of the evidence, but will not affect admissibility. The term "business," as used in this subsection (e), includes businesses, professions, occupations, and callings of every kind.
- f) Prior Inconsistent Statements. Prior statements made under oath may be admitted to impeach a witness if the statement is inconsistent with the witness' testimony at hearing.
- g) Oral and Written Statements. Oral and written statements from participants may

be taken at hearing in accordance with Section 101.628 ~~of this Part.~~

(Source: Amended at 41 Ill. Reg. _____, effective _____)

Section 101.628 Statements from Participants

- a) Oral Statements. The hearing officer may permit a participant to make oral statements on the record when time, facilities, and concerns for a clear and concise hearing record so allow. The oral statements must be made under oath and are subject to cross-examination. (See Sections 101.110 and 101.114 ~~of this Part.~~)
- b) Written Statements. Any participant may submit written statements relevant to the subject matter at any time prior to hearing or at hearing. Participants submitting such a statement will be subject to cross-examination by any party. Written statements submitted without the availability of cross-examination will be treated as public comment in accordance with subsection (c) ~~of this Section~~ and will be afforded lesser weight than evidence subject to cross-examination.
- c) Public Comments or Amicus Curiae Briefs. Oral public comment may be made on the record at a hearing and is not subject to cross-examination. Additionally, participants ~~Participants~~ may file written public comments subject to the requirements of this Section and the hearing officer's schedule for completion of the record. The Board also allows for the filing of amicus curiae briefs by non-party participants. Amicus curiae briefs will be allowed in accordance with Section 101.110 ~~of this Part.~~
 - 1) Written public ~~Public~~ comments must be filed within 14 days after the close of the last hearing unless the hearing officer specifies a different date for submission of post-hearing comments. However, all public comments must be filed with the Board no later than 30 days before the decision date, unless the hearing officer orders otherwise to prevent material prejudice. Consistent with the burden of proof in a proceeding, the hearing officer may provide for differing filing deadlines with respect to post-hearing comments by different persons. Under ~~Pursuant to~~ hearing officer order, rebuttal public comments may be submitted.
 - 2) All public comments must present arguments or comments based on evidence contained in the record. The comments may also present legal argument citing legal authorities.
 - 3) Comments must be filed with the Board. Comments will be distributed to parties and the hearing officer by the Clerk's office.

SUBPART I: REVIEW OF FINAL BOARD OPINIONS AND ORDERS

Section 101.902 Motions for Reconsideration

In ruling upon a motion for reconsideration, the Board will consider factors including new evidence, or a change in the law, to conclude that the Board's decision was in error. (See also Section 101.520 of this Part.) A motion for reconsideration of a final Board order is not a prerequisite for the appeal of the final Board order.

(Source: Amended at 41 Ill. Reg. _____, effective _____)

Section 101.904 Relief from Final Opinions and Orders

- a) Upon its own motion or motion of any party, the Board may correct clerical mistakes in orders or other parts of the record and errors therein arising from oversight or omission. ~~The mistakes may be so corrected by the Board before the appeal is docketed in the appellate court. After~~ Thereafter, while the appeal is pending, the mistakes may be corrected only with permission leave of the appellate court. Any corrected order will be mailed to all parties and participants in that proceeding.
- b) On written motion, the Board may relieve a party from a final order entered in a contested proceeding, for the following:
 - 1) Newly discovered evidence that existed at the time of hearing and that by due diligence could not have been timely discovered;
 - 2) Fraud (whether intrinsic or extrinsic), misrepresentation, or other misconduct of an adverse party; or
 - 3) Void order, such as an order based upon jurisdictional defects.
- c) A motion under this Section does not affect the finality of a Board order or suspend the operation of a Board order. The motion must be filed in the same proceeding in which the order was entered but is not a continuation of the proceeding. The motion must be supported by oath or affidavit or other appropriate showing as to matters not of record. All parties or participants in the proceeding must be notified by the movant as provided by Section 101.304 of this Part.

- 2189 d) A motion under subsection (b) ~~of this Section~~ must be filed with the Board within
- 2190 one year after entry of the order, except that a motion under ~~pursuant to~~ subsection
- 2191 (b)(3) ~~of this Section~~ must be filed within a reasonable time after entry of the
- 2192 order.
- 2193
- 2194 e) Any response to a motion under this Section must be filed within 14 days after the

SUBPART J: ELECTRONIC FILING AND E-MAIL SERVICE

Section 101.1000 Electronic Filing and E-Mail Service

- 2218
- 2219 a) The Board provides the opportunity to file and access documents electronically
- 2220 through its Clerk's Office On-Line (COOL). COOL is located on the Board's
- 2221 website (www.ipcb.state.il.us). The Board has taken steps designed to ensure the
- 2222 integrity and security of COOL in accordance with State policies developed under
- 2223 the Electronic Commerce Security Act [5 ILCS 175].
- 2224
- 2225 b) To file an electronic document with the Board, a person must upload the
- 2226 document on COOL. Electronic filing is not accomplished by sending a
- 2227 document to the e-mail address of the Clerk or hearing officer.
- 2228
- 2229 c) Except as provided in Section 101.302(h)(2), (h)(3), (h)(4), and (j) ~~of this Part and~~
- 2230 Section 101.1050 ~~of this Subpart~~, all documents may be filed through COOL.
- 2231 However, if filing through COOL is not reasonably practicable, the Board, the

2232 hearing officer, or the Clerk may grant permission to file in paper. If a person files
2233 an electronic document in accordance with this Subpart, the person is not required
2234 to file a paper original or copy of that document.
2235

2236 d) Generally, the Clerk's Office will not accept paper documents for filing; however,
2237 the Clerk's Office will convert paper-filed documents into electronic documents
2238 and place them on COOL, when permission to file a paper document is granted
2239 under subsection (c).
2240

2241 e) All documents filed with the Board may be served by e-mail except for
2242 enforcement complaints, administrative citations, and EMSA statements of
2243 deficiency. (See Section 101.304(c) ~~of this Part~~ and Section 101.1060 ~~of this~~

2247

2248 **Section 101.1010 Electronic Filing Authorization and Signatures**

2249
2250 a) A person seeking to upload a document on COOL for filing must have been
2251 issued a State of Illinois digital signature certificate ~~underpursuant to~~ Section 15-
2252 310 of the Electronic Commerce Security Act. (See 5 ILCS 175/15-310.) A link
2253 to the subscriber agreement and application for a State of Illinois digital signature
2254 certificate is available through COOL.
2255

2256 1) Maintaining digital signature confidentiality is the responsibility of the
2257 holder of the digital signature certificate. The certificate holder is
2258 responsible for any document electronically filed by anyone using his or
2259 her digital signature certificate.
2260

2261 2) The digital signature certificate holder is responsible for keeping his or her
2262 contact information current.
2263

2264 b) Each electronic document uploaded on COOL for filing must bear a facsimile
2265 electronic signature (i.e., scanned image of original pen-and-ink signature) or
2266 typographical electronic signature (i.e., "/s/ typed name") of the person
2267 authorizing the filing (e.g., attorney, participant, pro se party). However, if this
2268 electronic signature is absent, the document will be deemed to have been signed
2269 by the holder of the digital signature certificate used to upload the document and
2270 the certificate holder will be deemed to have authorized the filing. (See 5 ILCS
2271 175/5-120.) To file an electronic document on behalf of another person in an
2272 adjudicatory proceeding, an electronic signature of a licensed and registered
2273 attorney is required. (See Section 101.400(a) ~~of this Part.~~)
2274

- 2275 c) If an electronic document or portion thereof requires the signatures of any persons
2276 in addition to those specified in subsection (b) of this Section (e.g., settlement
2277 agreement, witness' affidavit), the person authorizing the filing must:
2278
2279 1) Confirm that the additional persons have approved the document or
2280 corresponding portion thereof and obtain their original pen-and-ink
2281 signatures before the document is uploaded on COOL for filing;
2282
2283 2) Ensure that the document or corresponding portion thereof bears the
2284 facsimile electronic signatures of, and indicates the identity of, the
2285 additional persons;
2286
2287 3) Upload the document on COOL as a scanned image containing the
2288 necessary signatures; and
2289
2290 4) Retain the paper original of the document, including the original pen-and-
2291 ink signatures of the additional persons, for one year after the later of the

2295 order of the Board; or
2296
2297 B) If the final order of the Board is appealed, the date on which the
2298 time period expires for seeking any further review in the courts.
2299
2300 d) ~~In lieu of complying with subsection (c) of this Section, the person authorizing the~~
2301 ~~filing may file the paper original of the document, including the original pen-and-~~
2302 ~~ink signatures of the additional persons, and separately file the document through~~

may reject an uploaded document because the document is prohibited from being filed electronically ~~underpursuant to~~ Section 101.302(h)(3) or (h)(4) ~~of this Part~~, the document fails to comply with file size or naming requirements of Section 101.1030(c) ~~of this Subpart~~, or the document is corrupted or otherwise cannot be readily opened. 2589 BOARD NOTE: The Board notes that all docket numbers consist of letter(s) followed by two
2590 numbers. The first two digit number is the fiscal year the matter was filed. Then the second
2591 number is the sequential number for that type of filing the Board has received that year. Persons
2592 making filings are not responsible for the Board docket number on the original filing. The Clerk
2593 of the Board will assign the appropriate docket number when the matter is filed. All filings in a
2594 matter that has been assigned a docket number ~~must~~ contain a docket number located as
2595 indicated on the examples above. The Board will also be designating its opinion and orders with
2596 the type of case and media involved in the matter. Where the above examples have the type of
2597 case followed by "X", the Board will, for example if the case is dealing with a variance from
2598 certain water regulations, put the media, water, after variance to become "Variance-Water".
2599 Again, persons making filings need not place this on original filings. However, all filings in a
2600 matter that has been assigned the media ~~must~~ indicate that media in the location as in the
2601 above examples. Where there are specific procedural rules developed for specific types of cases,
2602 as in a "UST Appeal", persons making filings ~~must~~ follow those examples.

138 2) Resource Conservation and Recovery Act (RCRA) Variance. A RCRA
139 variance is an exemption from 35 Ill. Adm. Code 703, 720, 721, 722, 723,

A) Stack diameters, stack heights, exit gas temperatures, and exit gas velocities for all stacks and vents emitting sulfur dioxide at the subject facility as well as for any other sources of sulfur dioxide that were modeled;

B) All sulfur dioxide emission sources that were modeled; and

C) All meteorological data.

7) Calculated maximum ground-level concentrations using the following method, or such other method (or modification of the hereinafter stated method) that the petitioner proves to the satisfaction of the Board to be acceptable.

A) Selection of simulation model:

i) Gaussian models that allow the input of hourly meteorological data must be used which are appropriate for the specific location and type of source ~~(s)~~ or sources in question.

ii) Dispersion models presented in "Guidelines on Air Quality Models" (EPA-450/2-78-027), or those deemed by the Board to be equivalent to these models must be used for detailed air quality studies.

B) Selection of meteorological data and stack parameters:

i) The most recent 5 years of hour-by-hour meteorological data reasonably available, including wind speed, wind direction, atmospheric stability, mixing height and surface temperature must be used, unless the petitioner demonstrates that one of the 5 years causes substantially higher concentrations than the other four, in which case detailed analyses conducted for only that "worst case" year would be acceptable. Notwithstanding the previous sentence, one year of on-site data may be used in lieu of the 5-year data requirement;

ii) Data must be from the nearest, representative, quality controlled meteorological collecting site; and

iii) Stack parameters (including emission rate, stack height, stack diameter, exit velocity, and exit temperature) must reflect the maximum operating rate for comparison with the 24-hour and 3-hour sulfur dioxide standards.

C) Receptors:

i) Receptors must be located so as to ensure that the source's maximum impact is detected; and

ii) The determination of the receptor grid must be fully documented in the modeling study;

D) Special conditions:

- i) All special conditions that may affect the dispersion of the effluent plume, including local terrain effects and aerodynamic downwash, must be considered in the modeling study;
- ii) If terrain is a factor in the vicinity of the source, a model capable of handling variable-height receptors must be used; and
- iii) If the computed height of the effluent plume is less than 2.5 times the height of nearby buildings or local obstructions, aerodynamic downwash must be studied and considered as a possible factor in the dispersion of that effluent.

E) Determination of violation: The determination of whether an applicable air quality increment or standard is being violated must be based on the second-highest predicted concentration over the receptor grid for short-term averaging times and on the highest predicted concentration for annual averaging times. However, if only one year of meteorological data is used in the short-term analysis, then the highest predicted concentration may be compared to the applicable standard to determine whether a violation has occurred.

F) Other sources: Effects of other sources of sulfur dioxide must be taken into account in the modeling study. Methods by which other sources of sulfur dioxide may be accounted are as follows:

- i) An acceptable method is to estimate the "background" from monitoring data which has been subjected to adequate quality control where available. When monitored data is used, the background must be estimated using monitoring days with meteorological conditions similar to those identified as "worst case" for the source in question; or

- ii) If monitoring data is not available, then all sources of sulfur dioxide having a significant impact in the area of the source's impact area must be used in the simulation model. These sources of sulfur dioxide must also be modeled at their maximum allowable emission rate for any studies addressing 24-hour or 3-hour averaging times.

8) Estimates of the frequency, characteristics, probable time of occurrence, and duration of the meteorological conditions associated with the maximum ground-level concentration of sulfur dioxide to which the facility under study contributes. A description of the techniques used in arriving at the above estimates must be included.

9) Background concentrations that were determined for all meteorological conditions required to be examined under subsection (c) (7) ~~of this Section~~ and for any other meteorological conditions considered in the development of the alternative standard.

10) A description of the method that was used to determine background sulfur dioxide concentrations in the vicinity of the subject facility

for each of the meteorological conditions required to be examined under subsection (c) (7) ~~of this Section~~ and for any additional meteorological conditions considered in developing the alternative standard.

11) An evaluation and calibration of the dispersion model if air quality monitoring data were available to perform the evaluation and calibration.

12) ~~That~~ A statement that the procedural requirements of 40 CFR 51.4 (1977) are met ~~and, at, At~~ least 30 days prior to the date of the hearing, the petitioner must:

The Board may permit a person to intervene at any time before the beginning of the hearing when that person shows good cause for the delay.~~

Section 106.724 Discovery, Admissions (Repealed)

~~a) Discovery, except requests to produce documents, admit facts and state the identity and location of persons with knowledge of facts, as set forth in subsection (b) of this Section, is not permitted unless the hearing officer orders otherwise.~~

~~b) Regarding any matter not privileged, the hearing officer may order a party to produce documents and to state the identity and location of persons with knowledge of facts upon the written request of any party when parties cannot agree on the legitimate scope of the requests. It is not a ground for objection that the documents will be inadmissible at hearing if the information sought appears reasonably calculated to lead to the discovery of admissible evidence or is relevant to the subject matter involved in the pending proceeding.~~

~~c) The hearing officer may order a party:~~

~~1) To state the identity and location of persons with knowledge of relevant facts.~~

~~2) To produce evidence that a party controls or possesses so that it may be inspected, copied or duplicated. The order may grant the right to reasonably inspect the pilot project.~~

~~d) The hearing officer may at any time on his or her own initiative, or on motion of any party or witness, make a protective order as justice requires. The protective order may deny, limit, condition or regulate discovery to prevent unreasonable delay, expense, harassment, or oppression, or to protect non-disclosable materials from disclosure consistent with Sections 7 and 7.1 of the Act and 35 Ill. Adm. Code 130.~~

~~e) All objections to rulings of the hearing officer must be made in the record.~~

Copies of the document must be served with the request unless copies have already been furnished.~~

~~j) Each of the matters of fact and the genuineness of each document of which admission is requested is admitted unless, within 15 days after service under subsection (h) or (i) of this Section, the party to whom~~

~~the request is directed serves upon the party requesting the admission either a sworn statement that denies specifically the matters on which the admission is requested or that sets forth in detail the reasons why the party cannot truthfully admit or deny those matters or written objections on the ground that some or all of the requested admissions are privileged or irrelevant or that the request is otherwise improper in whole or in part. If a party objects in writing to a part of the request, the remainder of the request must be answered within the period designated in the request. A denial must fairly meet the substance of the requested admission. If good faith requires that a party deny only a part, or requires qualification, of a matter of which an admission is requested, the party must specify so much of it as is true and deny only the remainder. The hearing officer will hear any objection to a request or to an answer upon prompt notice and motion of the party making the request.~~

~~k) Any admission made under this Section is for the purpose of the pending proceeding only. It does not constitute an admission by the party for any other purpose and may not be used against the party in any other proceeding.~~

SUBPART K: ALTERNATIVE THERMAL EFFLUENT LIMITATIONS PURSUANT TO SECTION 316(a) OF THE CLEAN WATER ACT AND 35 ILL. ADM. CODE 304.141(c)

Section 106.1105 General

a) Description. This Subpart applies to any point source that discharges pollutants to waters of the United States who seeks to demonstrate, under ~~pursuant to~~ 35 Ill. Adm. Code 304.141(c) and section 316(a) of the Clean Water Act, that any effluent limitation proposed for the control of a thermal component of any discharge from such source will require effluent limitations more stringent than necessary to assure the protection and propagation of a balanced, indigenous population of shellfish, fish, and wildlife in and on the body of water into which the discharge is to be made.

b) Parties. The person making the demonstration must be named the petitioner. The Agency must be named as a respondent. Any interested person may become a participant in the alternative thermal effluent

limitation demonstration proceeding in accordance with 35 Ill. Adm. Code 101.110 and 101.628.

Section 106.1110 Definitions

In addition to these definitions, all definitions of the Illinois Environmental Protection Act [415 ILCS 5]⁷ and 35 Ill. Adm. Code 301, apply to this Subpart. For the purpose of this Subpart:

"Alternative thermal effluent limitations" means all effluent limitations or standards of performance for the control of the thermal component of any discharge that are established under 35 Ill. Adm. Code 304.141(c), Section 316(a) of the CWA and this Subpart.

"CWA" means the Federal Water Pollution Control Act, as amended⁷ (33 USC 1251 et seq., Public Law 92-500 enacted by Congress October 18, 1972, as amended by the Clean Water Act, Public Law 95-217, enacted December 12, 1977, as amended).

"Representative important species" means species that are representative, in terms of their biological needs, of a balanced, indigenous community of shellfish, fish, and wildlife in the body of water into which a discharge of heat is made.

"Balanced, indigenous community" is synonymous with the term "balanced, indigenous population" in the CWA and means a biotic community typically characterized by diversity, the capacity to sustain itself through cyclic seasonal changes, presence of necessary food chain species, and by a lack of domination by pollution tolerant species. Such a community may include historically non-native species introduced in connection with a program of wildlife management and species whose presence or abundance results from substantial, irreversible environmental modifications. Normally, however, such a community will not include species whose presence or abundance is attributable to the introduction of pollutants that will be eliminated by compliance by all sources with section 301(b)(2) of the CWA; and may not include species whose presence or abundance is attributable to alternative thermal effluent limitations imposed under ~~pursuant to~~ this Subpart or through regulatory relief from otherwise applicable thermal limitations under Chapter I of Subtitle C or standards granted by the Board.

4) A proposed representative important species list and supporting data and information.

b) Within 30 days after the early screening information is submitted under subsection (a), the petitioner must ~~shall~~ consult with the Agency to discuss the petitioner's early screening information.

Section 106.1150 Request for Public Hearing

Any person can request that a public hearing be held in a proceeding under this Subpart. The requests must be filed with the Clerk ~~of the Board~~ no later than 21 days after the date of the publication of the petition notice in accordance with Section 106.1135. Requests for hearing must ~~should~~ make reference to the Board docket number assigned to the proceeding.

(Source: Amended at 41 Ill. Reg. _____, effective _____)

Section 106.1155 Notice and Conduct of Hearing

a) The Board will ~~shall~~ hold a public hearing on the petition and alternative thermal effluent limitation demonstration when one is requested in accordance with Section 106.1150, when requested by the petitioner, or if the Board, in its discretion, determines that a hearing would be advisable.

b) The hearing officer will schedule the hearing.

c) The Clerk will give notice of the hearing in accordance with 35 Ill. Adm. Code 101. The proceedings will be conducted in accordance with 35 Ill. Adm. Code 101. Subpart F, including any hearing held by videoconference (see 35 Ill. Adm. Code 101.600(b)).

(Source: Amended at 41 Ill. Reg. _____, effective _____)

Section 106.1160 Burden of Proof

a) The burden of proof is on the petitioner.

b) The petitioner must demonstrate to the satisfaction of the Board that the otherwise applicable effluent limitations under Chapter I of Subtitle C are more stringent than necessary to assure the protection and propagation of a balanced, indigenous community of shellfish, fish, and wildlife in and on the body of water into which the discharge is made.

c) The demonstration must show that the alternative thermal effluent limitation desired by the petitioner, considering the cumulative impact of its thermal discharge, together with all other significant impacts on the species affected, will assure the protection and propagation of a balanced indigenous community of shellfish, fish, and wildlife in and on the body of water into which the discharge is to be made.

d) Existing dischargers may base their demonstration upon the absence of prior appreciable harm in lieu of predictive studies.

1) When the petitioner bases the alternative thermal effluent limitation demonstration upon the absence of prior appreciable harm, the demonstration must show:

A) That no appreciable harm has resulted from the normal component of the discharge, taking into account the interaction of such thermal component with other pollutants and the additive effect of other thermal sources to a balanced, indigenous community of shellfish, fish, and wildlife in and on the body of water into which the discharge has been made; or

B) That despite the occurrence of such previous harm, the desired alternative thermal effluent limitation (or appropriate modifications thereof) will nevertheless assure the protection and propagation of a

balanced, indigenous community of shellfish, fish, and wildlife in and on the body of water into which the discharge is made.

2) In determining whether prior appreciable harm has occurred, the Board will ~~shall~~ consider the length of time during which the petitioner has been discharging and the nature of the discharge.

(Source: Amended at 41 Ill. Reg. , effective)

Section 106.1170 Opinion and Order

a) After an opportunity for a public hearing and upon a satisfactory alternative thermal effluent limitation demonstration, the Board may order the Agency to include thermal discharge effluent limitations or standards in the petitioner's NPDES permit that are less stringent than those required by applicable standards and limitations if the thermal component of the discharge, taking into account the interaction of such thermal component with other pollutants, will assure the protection and propagation of a balanced, indigenous population of shellfish, fish, and wildlife in and on the body of water.

b) In granting an alternative thermal effluent limitation, the Board may impose such conditions as may be necessary to accomplish the purposes of the Act.

c) If the petitioner intends for the alternative thermal effluent limitation granted by the Board under ~~pursuant to~~ this Subpart to continue beyond the expiration of the petitioner's NPDES permit, the petitioner must apply for renewal of the alternative thermal effluent limitation under ~~pursuant to~~ Section 106.1180.

(Source: Amended at 41 Ill. Reg. , effective)

Section 106.1175 Post-Hearing Procedures

a) The provisions of 35 Ill. Adm. Code 101 regarding default, transcripts, the record, motions, briefs, and oral arguments apply to proceedings under this Subpart.

b) In addition to the provisions of 35 Ill. Adm. Code 101.520 and 101.902, if USEPA objects under ~~pursuant to~~ 40 CFR 123.44 to issuance in the petitioner's NPDES permit of the alternative thermal effluent limitation ordered by the Board, the Agency is given permission ~~leave to~~ file a motion for reconsideration of the Board's order granting the effluent limitation under ~~pursuant to~~ 35 Ill. Adm. Code 101.520 within 35 days after the Agency's receipt of USEPA's objection.

(Source: Amended at 41 Ill. Reg. , effective)

Section 106.1180 Renewal of Alternative Thermal Effluent Limitations

a) The permittee may request continuation of an alternative thermal effluent limitation granted by the Board, ~~pursuant to this Subpart,~~ as part of its NPDES permit renewal application.

b) Any application for renewal must ~~should~~ include sufficient information for the Agency to compare the nature of the permittee's thermal discharge and the balanced, indigenous population of shellfish, fish, and wildlife at the time the Board granted the alternative thermal effluent limitation and the current nature of the petitioner's thermal discharge and the balanced, indigenous population of shellfish, fish, and wildlife. The permittee must ~~should~~ be prepared to support this comparison with documentation based upon the discharger's actual operation experience during the previous permit term.

c) If the permittee demonstrates that the nature of the thermal discharge has not materially changed to cause appreciable harm to the balanced, indigenous population of shellfish, fish, and wildlife in and on the body of water into which the discharge is made, and the alternative thermal effluent limitation granted by the Board has not caused appreciable harm to a balanced, indigenous population of shellfish, fish, and wildlife in and on the body of water into which the discharge is made, the Agency may include the alternative thermal effluent limitation in the permittee's ~~permittee's~~ renewed NPDES permit.

d) If the nature of the thermal discharge has materially changed to cause appreciable harm to the balanced, indigenous population of shellfish, fish, and wildlife in and on the body of water into which the discharge is made ~~materially,~~ or the alternative thermal effluent limitation granted by the Board has caused appreciable harm to a balanced, indigenous population of shellfish, fish, and wildlife in and on the body of water into which the discharge is made, the Agency must ~~may~~ not include the thermal relief granted by the Board in the permittee's ~~permittee's~~ renewed NPDES permit. The permittee must file a new petition and make the required demonstration under ~~pursuant to~~ this Subpart before the alternative thermal effluent limitation may be included in the permittee's renewed NPDES permit.

254 to the discharge in lieu of the applicable provisions of the thermal
255 water quality standards set forth in 35 Ill. Adm. Code 302.211 and
256 303, the discharger must demonstrate ~~in an adjudicatory~~
257 ~~proceeding before the Board,~~ pursuant to 35 Ill. Adm. Code

the specific location and type of source or source(s) in question.

- ii) Dispersion models presented in "Guidelines on Air Quality Models" (EPA-450/2-78-027), or those deemed by the Board to be equivalent to these models must be used for detailed air quality studies.

B) Selection of meteorological data and stack parameters:

- i) The most recent 5 years of hour-by-hour meteorological data reasonably available, including wind speed, wind direction, atmospheric stability, mixing height and surface temperature must be used, unless the petitioner demonstrates that one of the 5 years causes substantially higher concentrations than the other four, in which case detailed analyses conducted for only that "worst case" year would be acceptable. Notwithstanding the previous sentence, one year of on-site data may be used in lieu of the 5-year data requirement;
- ii) Data must be from the nearest, representative, quality controlled meteorological collecting site; and
- iii) Stack parameters (including emission rate, stack height, stack diameter, exit velocity, and exit temperature) must reflect the maximum operating rate for comparison with the 24-hour and 3-hour sulfur dioxide standards.

C) Receptors:

- i) Receptors must be located so as to ensure that the source's maximum impact is detected; and
- ii) The determination of the receptor grid must be fully documented in the modeling study;

D) Special conditions:

- i) All special conditions that may affect the dispersion of the effluent plume, including local terrain effects and aerodynamic downwash, must be considered in the modeling study;

- ii) If terrain is a factor in the vicinity of the source, a model capable of handling variable-height receptors must be used; and
 - iii) If the computed height of the effluent plume is less than 2.5 times the height of nearby buildings or local obstructions, aerodynamic downwash must be studied and considered as a possible factor in the dispersion of that effluent.

- E) Determination of violation: The determination of whether an applicable air quality increment or standard is being violated must be based on the second-highest predicted concentration over the receptor grid for short-term averaging times and on the highest predicted concentration for annual averaging times. However, if only one year of meteorological data is used in the short-term analysis, then the highest predicted concentration may be compared to the applicable standard to determine whether a violation has occurred.

- F) Other sources: Effects of other sources of sulfur dioxide must be taken into account in the modeling study. Methods by which other sources of sulfur dioxide may be accounted are as follows:
 - i) An acceptable method is to estimate the "background" from monitoring data which has been subjected to adequate quality control where available. When monitored data is used, the background must be estimated using monitoring days with meteorological conditions similar to those identified as "worst case" for the source in question; or
 - ii) If monitoring data is not available, then all sources of sulfur dioxide having a significant impact in the area of the source's impact area must be used in the simulation model. These sources of sulfur dioxide must also be modeled at their maximum allowable emission rate for any studies addressing 24-hour or 3-hour averaging times.

- 8) Estimates of the frequency, characteristics, probable time of occurrence, and duration of the meteorological conditions associated with the maximum ground-level concentration of sulfur dioxide to which the facility under study contributes. A description of the techniques used in arriving at the above estimates must be included.

If a party objects in writing to a part of the request, the remainder of the request must be answered within the period designated in the request. A denial must fairly meet the substance of the requested admission. If good faith requires that a party deny only a part, or requires qualification, of a matter of which an admission is requested, the party must specify so much of it as is true and deny only the remainder. The hearing officer will hear any objection to a request or to an answer upon prompt notice and motion of the party making the request.

- 1670 a) Description. This Subpart applies to any point source that discharges pollutants to
 1671 waters of the United States who seeks to demonstrate, ~~underpursuant to~~ 35 Ill.
 1672 Adm. Code 304.141(c) and section 316(a) of the Clean Water Act, that any
 1673 effluent limitation proposed for the control of a thermal component of any
 1674 discharge from such source will require effluent limitations more stringent than
 1675 necessary to assure the protection and propagation of a balanced, indigenous

1676 population of shellfish, fish, and wildlife in and on the body of water into which
 1677 the discharge is to be made.

1678
 1679 b) Parties. The person making the demonstration must be named the petitioner. The
 1680 Agency must be named as a respondent. Any interested person may become a

1690
 1691 In addition to these definitions, all definitions of the Illinois Environmental Protection Act [415
 1692 ILCS 5], and 35 Ill. Adm. Code 301, apply to this Subpart. For the purpose of this Subpart:

1693
 1694 "Alternative thermal effluent limitations" means all effluent limitations or
 1695 standards of performance for the control of the thermal component of any
 1696 discharge that are established under 35 Ill. Adm. Code 304.141(c), Section 316(a)
 1697 of the CWA and this Subpart.

1698
 1699 "CWA" means the Federal Water Pollution Control Act, as amended, (33 USC
 1700 1251 et seq., Public Law 92-500 enacted by Congress October 18, 1972, as
 1701 amended by the Clean Water Act, Public Law 95-217, enacted December 12,
 1702 1977, as amended).

1703
 1704 "Representative important species" means species that are representative, in terms
 1705 of their biological needs, of a balanced, indigenous community of shellfish, fish,
 1706 and wildlife in the body of water into which a discharge of heat is made.

1707
 1708 "Balanced, indigenous community" is synonymous with the term "balanced,
 1709 indigenous population" in the CWA and means a biotic community typically
 1710 characterized by diversity, the capacity to sustain itself through cyclic seasonal
 1711 changes, presence of necessary food chain species, and by a lack of domination
 1712 by pollution tolerant species. Such a community may include historically non-
 1713 native species introduced in connection with a program of wildlife management
 1714 and species whose presence or abundance results from substantial, irreversible
 1715 environmental modifications. Normally, however, such a community will not
 1716 include species whose presence or abundance is attributable to the introduction of
 1717 pollutants that will be eliminated by compliance by all sources with section
 1718 301(b)(2) of the CWA; and may not include species whose presence or abundance

1719 is attributable to alternative thermal effluent limitations imposed ~~under~~ pursuant to
1720 this Subpart or through regulatory relief from otherwise applicable thermal
1721 limitations under Chapter I of Subtitle C or standards granted by the Board.

- 1984
- 1985 b) The petitioner must demonstrate to the satisfaction of the Board that the otherwise
- 1986 applicable effluent limitations under Chapter I of Subtitle C are more stringent
- 1987 than necessary to assure the protection and propagation of a balanced, indigenous
- 1988 community of shellfish, fish, and wildlife in and on the body of water into which
- 1989 the discharge is made.
- 1990
- 1991 c) The demonstration must show that the alternative thermal effluent limitation
- 1992 desired by the petitioner, considering the cumulative impact of its thermal
- 1993 discharge, together with all other significant impacts on the species affected, will
- 1994 assure the protection and propagation of a balanced indigenous community of
- 1995 shellfish, fish, and wildlife in and on the body of water into which the discharge is
- 1996 to be made.
- 1997
- 1998 d) Existing dischargers may base their demonstration upon the absence of prior
- 1999 appreciable harm in lieu of predictive studies.
- 2000
- 2001 1) When the petitioner bases the alternative thermal effluent limitation
- 2002 demonstration upon the absence of prior appreciable harm, the
- 2003 demonstration must show:
- 2004
- 2005 A) That no appreciable harm has resulted from the normal component
- 2006 of the discharge, taking into account the interaction of such
- 2007 thermal component with other pollutants and the additive effect of
- 2008 other thermal sources to a balanced, indigenous community of
- 2009 shellfish, fish, and wildlife in and on the body of water into which
- 2010 the discharge has been made; or
- 2011
- 2012 B) That despite the occurrence of such previous harm, the desired
- 2013 alternative thermal effluent limitation (or appropriate modifications
- 2014 thereof) will nevertheless assure the protection and propagation of
- 2015 a balanced, indigenous community of shellfish, fish, and wildlife in
- 2016 and on the body of water into which the discharge is made.

Section 106.1170 Opinion and Order

- a) After an opportunity for a public hearing and upon a satisfactory alternative thermal effluent limitation demonstration, the Board may order the Agency to include thermal discharge effluent limitations or standards in the petitioner's NPDES permit that are less stringent than those required by applicable standards and limitations if the thermal component of the discharge, taking into account the interaction of such thermal component with other pollutants, will assure the protection and propagation of a balanced, indigenous population of shellfish, fish, and wildlife in and on the body of water.
- b) In granting an alternative thermal effluent limitation, the Board may impose such conditions as may be necessary to accomplish the purposes of the Act.
- c) If the petitioner intends for the alternative thermal effluent limitation granted by the Board ~~underpursuant to~~ this Subpart to continue beyond the expiration of the petitioner's NPDES permit, the petitioner must apply for renewal of the alternative thermal effluent limitation ~~underpursuant to~~ Section 106.1180.

Code 101.520 and 101.902, if USEPA objects ~~underpursuant to~~ 40 CFR 123.44 to issuance in the petitioner's NPDES permit of the alternative thermal effluent limitation ordered by the Board, the Agency is given ~~permission~~leave to file a motion for reconsideration of the Board's order granting the effluent limitation ~~underpursuant to~~ 35 Ill. Adm. Code 101.520 within 35 days after the Agency's receipt of USEPA's objection.

- a) The permittee may request continuation of an alternative thermal effluent limitation granted by the Board, ~~pursuant to this Subpart~~, as part of its NPDES permit renewal application.
- b) Any application for renewal ~~must~~should include sufficient information for the Agency to compare the nature of the permittee's thermal discharge and the balanced, indigenous population of shellfish, fish, and wildlife at the time the Board granted the alternative thermal effluent limitation and the current nature of the petitioner's thermal discharge and the balanced, indigenous population of shellfish, fish, and wildlife. The permittee ~~must~~should be prepared to support this comparison with documentation based upon the discharger's actual operation experience during the previous permit term.
- c) If the permittee demonstrates that the nature of the thermal discharge has not materially changed to cause appreciable harm to the balanced, indigenous population of shellfish, fish, and wildlife in and on the body of water into which the discharge is made, and the alternative thermal effluent limitation granted by the Board has not caused appreciable harm to a balanced, indigenous population of shellfish, fish, and wildlife in and on the body of water into which the discharge is made, the Agency may include the alternative thermal effluent limitation in the ~~permittee's~~permittee's renewed NPDES permit.
- d) If the nature of the thermal discharge has materially changed to cause appreciable harm to the balanced, indigenous population of shellfish, fish, and wildlife in and on the body of water into which the discharge is made,~~materially~~ or the alternative thermal effluent limitation granted by the Board has caused appreciable harm to a balanced, indigenous population of shellfish, fish, and wildlife in and on the body of water into which the discharge is made, the Agency ~~must~~may not include the thermal relief granted by the Board in the ~~permittee's~~permittee's renewed NPDES permit.
