 - B) Any person he or she is representing; and
 - C) The docket number of the proceeding on which he or she would like to make public remarks.

 - 3) **Nature of Public Remarks.** Public remarks are not made under oath or affirmation and are not subject to cross-examination. If written objections to a part of the request are made, the remainder of the request must be answered within the period designated in the request. A denial must fairly address the substance of the requested admission.
- g) Partial Denial or Qualification. If good faith requires that a party deny a part of a matter for which an admission is requested, or if a part requires qualification, the party must specify the part which is denied or qualified and admit only the remainder.
- h) Objection. Any objection to a request or to any answer must be stated with specificity, and will be heard by the hearing officer upon notice and motion of the party making the request.
- i) Effect of Admission. Any admission made by a party ~~under~~ pursuant to a request under this Section is for the purpose of the pending proceeding only. It does not constitute an admission by the party for any other purpose and may not be used against him in any other proceeding.

A copy of the subpoena must be filed with the Clerk and served upon the hearing officer within 7 days after service upon the witness. - d) The hearing officer, upon motion made promptly and in any event at or before the time specified in the subpoena for compliance, may quash or modify the subpoena if it is unreasonable or irrelevant. (See Ill. S. Ct. Amended Rule 206(d).)
- g) Failure of any witness to comply with a subpoena will subject the witness to sanctions under this Part, or the judicial enforcement of the subpoena. The Board may, upon proper motion by the party requesting the subpoena, request the Attorney General to pursue judicial enforcement of the subpoena on behalf of the Board.

Section 101.626 Information Produced at Hearing

In accordance with Section 10-40 of the IAPA, the hearing officer will admit evidence that is admissible under the rules of evidence as applied in the civil courts of Illinois, except as otherwise provided in this Part.

- a) Evidence. The hearing officer may admit evidence that is material, relevant, and would be relied upon by prudent persons in the conduct of serious affairs, unless the evidence is privileged.
- b) Admissibility of Evidence. When the admissibility of evidence depends upon a good faith argument as to the interpretation of substantive law, the hearing officer will admit the evidence.
- c) Scientific Articles and Treatises. Relevant scientific or technical articles, treatises, or materials may be introduced into evidence by a party. The materials are subject to refutation or disputation through introduction of documentary evidence or expert testimony.
- d) Written Testimony. Written testimony may be introduced by a party in a hearing only if provided to all other parties of record prior to the date of the hearing and only after the opposing parties have had an opportunity to object to the written testimony and to obtain a ruling on the objections prior to its introduction. Written testimony may be introduced by a party only if the persons whose written testimony is introduced are available for cross-examination at hearing.

- e) Admission of Business Records. A writing or record, whether in the form of any entry in a book or otherwise made as a memorandum or record of any act, transaction, occurrence, or event, may be admissible as evidence of the act, transaction, occurrence, or event. To be admissible, the writing or record ~~must~~ will have been made in the regular course of business, provided it was the regular course of business to make the memorandum or record at the time of the act, transaction, occurrence, or event, or within a reasonable time ~~afterwardsthereafter~~. The term "business," as used in this subsection (e), includes businesses, professions, occupations, and callings of every kind.
- f) Prior Inconsistent Statements. Prior statements made under oath may be admitted to impeach a witness if the statement is inconsistent with the witness' testimony at hearing.

(Source: Amended at 41 Ill. Reg. _____, effective _____)

- b) Written Statements. Any participant may submit written statements relevant to the subject matter at any time prior to hearing or at hearing. - c) Public Comments or Amicus Curiae Briefs. Oral public comment may be made on the record at a hearing and is not subject to cross-examination. SUBPART J: ELECTRONIC FILING AND E-MAIL SERVICE

Section 101.1000 Electronic Filing and E-Mail Service

- a) The Board provides the opportunity to file and access documents electronically through its Clerk's Office On-Line (COOL). COOL is located on the Board's website (www.ipcb.state.il.us). The Board has taken steps designed to ensure the

integrity and security of COOL in accordance with State policies developed under the Electronic Commerce Security Act~~;~~ [5 ILCS 175]~~;~~

Section 101.1010 Electronic Filing Authorization and Signatures

- a) A person seeking to upload a document on COOL for filing must have been issued a State of Illinois digital signature certificate underpursuant to ~~underpursuant to~~ Section 15-310 of the Electronic Commerce Security Act. (See 5 ILCS 175/15-310.) A link to the subscriber agreement and application for a State of Illinois digital signature certificate is available through COOL.
 - 1) Maintaining digital signature confidentiality is the responsibility of the holder of the digital signature certificate. The certificate holder is responsible for any document electronically filed by anyone using his or her digital signature certificate.
 - 2) The digital signature certificate holder is responsible for keeping his or her contact information current.
- b) Each electronic document uploaded on COOL for filing must bear a facsimile electronic signature (i.e., scanned image of original pen-and-ink signature) or typographical electronic signature (i.e., "/s/ typed name") of the person authorizing the filing (e.g., attorney, participant, pro se party). However, if this

electronic signature is absent, the document will be deemed to have been signed by the holder of the digital signature certificate used to upload the document and the certificate holder will be deemed to have authorized the filing. (See 5 ILCS 175/5-120.) To file an electronic document on behalf of another person in an adjudicatory proceeding, an electronic signature of a licensed and registered attorney is required. - d) ~~In lieu of complying with subsection (c) of this Section, the person authorizing the filing may file the paper original of the document, including the original pen and ink signatures of the additional persons, and separately file the document through COOL without the facsimile electronic signatures of the additional persons (see Section 101.1020(e)(2) of this Subpart).~~

Section 101.1020 Filing Electronic Documents

- a) COOL. To file an electronic document through COOL, the document must first be uploaded on COOL.

- b) Digital Signature Certificate. Uploading a document on COOL requires a valid State of Illinois digital signature certificate.
- c) Uploading Hours. Electronic documents may be uploaded on COOL 24 hours per day, every day.
- d) E-Mail Receipt. Uploading a document on COOL will generate an e-mail receipt for the digital signature certificate holder. The receipt will verify the date and time when the document was uploaded on COOL.
- e) Time of Filing. Subject to subsection (f) ~~of this Section~~, an electronic document uploaded on COOL will be considered filed as of the date and time specified on the e-mail receipt generated underpursuant to subsection (d) ~~of this Section~~, except that:
 - 1) A document uploaded on a Saturday or Sunday, on a national or State legal holiday, or after 4:30 p.m. on a weekday is deemed filed the next business day.
 - 2) A document uploaded without one or more portions of the filing (e.g., oversized exhibit; trade secret or non-disclosable information; copyrighted document proposed for incorporation by reference in a rule) or without a required oath, affidavit, notarization, signature, or filing fee is considered filed:
 - A) On the date that the Clerk receives the document's last missing item; or
 - B) On the postmark date of the document's last missing item if that item was sent by U.S. Mail, was received after the date of a filing deadline, and has a postmark date that precedes or is the same as the deadline date.
 - 3) A document consisting of multiple electronic files is considered filed as of the date and time specified on the e-mail receipt generated underpursuant to subsection (d) ~~of this Section~~ for the last file uploaded to complete the document.
- f) Review by the Clerk. The Clerk will review electronically each document uploaded on COOL, validate the proceeding information provided, and accept or reject the document for filing.
 - 1) If the Clerk accepts an uploaded document, the Clerk's Office will e-mail a notice of acceptance to the digital signature certificate holder, indicating that the filed document may be viewed on COOL.

- 2) If the Clerk rejects an uploaded document, the Clerk's Office will e-mail a notice of rejection to the digital signature certificate holder. The Clerk may reject an uploaded document because the document is prohibited from being filed electronically ~~underpursuant to~~ Section 101.302(h)(3) or (h)(4) ~~of this Part~~, the document fails to comply with file size or naming requirements of Section 101.1030(c) ~~of this Subpart~~, or the document is corrupted or otherwise cannot be readily opened. If an uploaded document is rejected by the Clerk, the Board may, upon good cause shown, enter an order deeming the document filed as of the date and time specified when the document was uploaded on COOL, subject to subsections (e)(1) through (e)(3) ~~of this Section~~.
- g) Technical Failure. If an electronic document is not uploaded, or is materially delayed in uploading, on COOL due to a technical failure, the Board may, upon good cause shown, enter an order deeming the document uploaded ~~underpursuant to~~ subsection (d) ~~of this Section~~ as of the date and time of the first attempted uploading. "Technical failure" as used in this subsection is limited to a system outage of COOL or other malfunction of the hardware, software, or telecommunications facilities of the Board or the Board's electronic filing provider. "Technical failure", therefore, does not include any malfunction of the equipment used by the person authorizing the filing or the digital signature certificate holder.
- h) Clerk's Electronic Stamp. An electronic document uploaded on COOL and accepted by the Clerk for filing will be endorsed by the Clerk with a file stamp setting forth the date of filing. This file stamp will be merged with the electronic document and visible when the document is viewed on COOL. Electronically filed documents so endorsed have the same legal effect as paper documents file-stamped by the Clerk conventionally in accordance with Section 101.300(b) ~~of this Part~~.
- i) Decision Deadlines. For purposes of Board decision deadlines, the decision period does not begin until the date on which the electronic document constituting the initial filing is considered filed under this Section.
- j) Filing Deadlines. The electronic filing of a document does not alter any applicable filing deadlines.

- c) No single electronic file uploaded on COOL, whether constituting all or part of an electronic document, may contain more than 10 megabytes (MB) of data. To comply with this requirement, an electronic document may be divided into parts and submitted as multiple electronic files, each file being 10 MB or less. The person authorizing the filing is responsible for dividing the document into appropriately-sized files and naming each file to reflect its place within the electronic document.
- d) Multiple electronic documents, whether for the same proceeding or different proceedings, must be uploaded separately on COOL and, therefore, must not be combined into a single electronic file for filing through COOL.
- e) Electronic documents may contain links to material external to the filed document. However, links to external material are for convenience purposes only. The external material behind the link is not considered part of the filing or the record of the proceeding in which the document was filed.
- f) All documents uploaded on COOL must be free of viruses or other harmful processes. If an electronic document containing a virus or other harmful process is uploaded on COOL, the Board may, consistent with Section 101.800(b) and (c) ~~of this Part~~, impose sanctions, including barring the document from being filed in any manner and barring the person authorizing the filing or the digital signature certificate holder from any further electronic filing through COOL.
- g) Documents filed under Section 101.302(h)(2) must:

The version of the document that is redacted underpursuant to 35 Ill. Adm. Code 130 must may be filed through COOL.

BOARD NOTE: The Board notes that all docket numbers consist of letter(s) followed by two numbers. The first two digit number is the fiscal year the matter was filed. Then the second number is the sequential number for that type of filing the Board has received that year. Persons making filings are not responsible for the Board docket number on the original filing. The Clerk of the Board will assign the appropriate docket number when the matter is filed. All filings in a matter that has been assigned a docket number ~~must~~ should contain a docket number located as indicated on the examples above. The Board will also be designating its opinion and orders with the type of case and media involved in the matter. Where the above examples have the type of case followed by "X", the Board will, for example if the case is dealing with a variance from certain water regulations, put the media, water, after variance to become "Variance-Water". Again, persons making filings need not place this on original filings. However, all filings in a matter that has been assigned the media ~~must~~ should indicate that media in the location as in the above examples. Where there are specific procedural rules developed for specific types of cases, as in a "UST Appeal", persons making filings ~~must~~ should follow those examples.

Section 105.412 Board Hearing

The Board will conduct a public hearing, in accordance with 35 Ill. Adm. Code 101. Subpart F, including any hearing held by videoconference (see 35 Ill. Adm. Code 101.600(b)) upon an appropriately filed petition for review, unless a petition is disposed of by a motion for summary judgment brought underpursuant to 35 Ill. Adm. Code 101.516. The hearing will be based exclusively on the record before the Agency at the time the permit or decision was issued.

SUBPART E: APPEAL OF OSFM LUST DECISIONS

Section 105.500 Applicability

This Subpart applies to proceedings before the Board concerning appeals from OSFM final determinations made underpursuant to Section 57.9(c) of the Act.

(Source: Amended at 41 Ill. Reg. _____, effective _____)

Section 105.502 General Overview

OSFM final determinations are made either through the issuance of an "Eligibility and Deductibility Determination" letter or by the failure of OSFM to act upon receipt of an "Eligibility and Deductibility Determination" form within 60 days underpursuant to Section 57.9(c)(2) of the Act. The process before the Board for review of final determinations by the OSFM includes the following steps. Upon receipt of a petition for review, unless the Board determines that the petition is insufficient, a hearing date and location will be assigned. Hearings will be publicly-noticed in the county where the underground storage tank site is located. If the parties enter into a settlement agreement prior to or during the hearing process, the parties may request that the Board accept and enter a final order adopting a proposed settlement agreement; the order may be requested with or without a hearing.

Section 105.508 OSFM Record and Appearance

- a) Within 14 days after a petition for review of an OSFM eligibility or deductibility determination, the attorney representing the OSFM must file an appearance with the Board.

- b) The OSFM must file the entire record of its decision with the Board in accordance with Section 105.116 ~~of this Part~~. The record must include:
 - 1) The request for OSFM determination of eligibility or deductibility;
 - 2) Correspondence with the petitioner;
 - 3) The denial letter; and
 - 4) Any other information the OSFM relied upon in making its determination.

Section 105.510 Location of Hearing

The hearing will be held in ~~either Springfield, in or Chicago, by videoconference~~ (see 35 Ill. Adm. Code 101.600(b)), or in such other location as the hearing officer or the Board may designate to prevent material prejudice or undue delay. Upon the proceeding being set for hearing, the Clerk will cause notice of the hearing to be published. Public notice will be published at least 21 days before the hearing by public advertisement in a newspaper of general circulation in the county in which the LUST site in question is located. Nothing in this Section precludes holding the hearing by videoconference ~~underpursuant to~~ 35 Ill. Adm. Code 101.600(b).

- i) All special conditions that may affect the dispersion of the effluent plume, including local terrain effects and aerodynamic downwash, must be considered in the modeling study;
- ii) If terrain is a factor in the vicinity of the source, a model capable of handling variable-height receptors must be used; and
- iii) If the computed height of the effluent plume is less than 2.5 times the height of nearby buildings or local obstructions, aerodynamic downwash must be studied and considered as a possible factor in the dispersion of that effluent.

E) Determination of violation: The determination of whether an applicable air quality increment or standard is being violated must be based on the second-highest predicted concentration over the receptor grid for short-term averaging times and on the highest predicted concentration for annual averaging times. However, if only one year of meteorological data is used in the short-term analysis, then the highest predicted concentration may be

compared to the applicable standard to determine whether a violation has occurred.

- F) Other sources: Effects of other sources of sulfur dioxide must be taken into account in the modeling study. Methods by which other sources of sulfur dioxide may be accounted are as follows:
- i) An acceptable method is to estimate the "background" from monitoring data which has been subjected to adequate quality control where available. When monitored data is used, the background must be estimated using monitoring days with meteorological conditions similar to those identified as "worst case" for the source in question; or
 - ii) If monitoring data is not available, then all sources of sulfur dioxide having a significant impact in the area of the source's impact area must be used in the simulation model. These sources of sulfur dioxide must also be modeled at their maximum allowable emission rate for any studies addressing 24-hour or 3-hour averaging times.
- 8) Estimates of the frequency, characteristics, probable time of occurrence, and duration of the meteorological conditions associated with the maximum ground-level concentration of sulfur dioxide to which the facility under study contributes. A description of the techniques used in arriving at the above estimates must be included.
- 9) Background concentrations that were determined for all meteorological conditions required to be examined under subsection (c)(7) ~~of this Section~~ and for any other meteorological conditions considered in the development of the alternative standard.
- 10) A description of the method that was used to determine background sulfur dioxide concentrations in the vicinity of the subject facility for each of the meteorological conditions required to be examined under subsection (c)(7) ~~of this Section~~ and for any additional meteorological conditions considered in developing the alternative standard.
- 11) An evaluation and calibration of the dispersion model if air quality monitoring data were available to perform the evaluation and calibration.
- 12) A statement that the procedural requirements of 40 CFR 51.4 (1977) are met. At least 30 days prior to the date of the hearing, the petitioner must:

- A) Give notice to the public, by prominent advertisement in the Air Quality Control Region affected, announcing the date, time, and place of the hearing;
- B) Make available a copy of the petition for public inspection in at least one location in the Air Quality Control Region in which the source is located;
- C) Notify the Administrator of USEPA (through the Region V Office);
- D) Notify each local air pollution control agency located within the affected Air Quality Control Region; and
- E) Notify, in the case of an interstate Air Quality Control Region, any air pollution control agencies of other states included, in whole or in part, in the Region.

Copies of the document must be served with the request unless copies have already been furnished.~~
- j) ~~Each of the matters of fact and the genuineness of each document of which admission is requested is admitted unless, within 15 days after service under subsection (h) or (i) of this Section, the party to whom the request is directed serves upon the party requesting the admission either a sworn statement that denies specifically the matters on which the admission is requested or that sets forth in detail the reasons why the party cannot truthfully admit or deny those matters or written objections on the ground that some or all of the requested admissions are privileged or irrelevant or that the request is otherwise improper in whole or in part. If a party objects in writing to a part of the request, the~~

In addition to these definitions, all definitions of the Illinois Environmental Protection Act~~;~~ [415 ILCS 5]~~;~~ and 35 Ill. Adm. Code 301~~;~~ apply to this Subpart. For the purpose of this Subpart:

"Alternative thermal effluent limitations" means all effluent limitations or standards of performance for the control of the thermal component of any discharge that are established under 35 Ill. Adm. Code 304.141(c), Section 316(a) of the CWA and this Subpart.

"CWA" means the Federal Water Pollution Control Act, as amended, (33 USC 1251 et seq., ~~Public Law 92-500 enacted by Congress October 18, 1972, as amended by the Clean Water Act, Public Law 95-217, enacted December 12, 1977, as amended~~).

"Representative important species" means species that are representative, in terms of their biological needs, of a balanced, indigenous community of shellfish, fish, and wildlife in the body of water into which a discharge of heat is made.

"Balanced, indigenous community" is synonymous with the term "balanced, indigenous population" in the CWA and means a biotic community typically characterized by diversity, the capacity to sustain itself through cyclic seasonal changes, presence of necessary food chain species, and ~~by~~ a lack of domination by pollution tolerant species. Such a community may include historically non-native species introduced in connection

with a program of wildlife management and species whose presence or abundance results from substantial, irreversible environmental modifications. Normally, however, such a community will not include species whose presence or abundance is attributable to the introduction of pollutants that will be eliminated by compliance by all sources with section 301(b)(2) of the CWA; and may not include species whose presence or abundance is attributable to alternative thermal effluent limitations imposed under pursuant to this Subpart or to through regulatory relief, granted by the Board, from otherwise applicable thermal limitations or standards under 35 Ill. Adm. Code 301 through 312 Chapter I of Subtitle C or standards granted by the Board.

Section 106.1160 Burden of Proof

- a) The burden of proof is on the petitioner.

- c) The demonstration must show that the alternative thermal effluent limitation desired by the petitioner, considering the cumulative impact of its thermal discharge, together with all other significant impacts on the species affected, will assure the protection and propagation of a balanced indigenous community of shellfish, fish, and wildlife in and on the body of water into which the discharge is to be made.
- d) Existing dischargers may base their demonstration upon the absence of prior appreciable harm in lieu of predictive studies.
 - 1) When the petitioner bases the alternative thermal effluent limitation demonstration upon the absence of prior appreciable harm, the demonstration must show:
 - A) That no appreciable harm has resulted from the normal component of the discharge, taking into account the interaction of such thermal component with other pollutants and the additive effect of other thermal sources to a balanced, indigenous community of shellfish, fish, and wildlife in and on the body of water into which the discharge has been made; or
 - B) That despite the occurrence of such previous harm, the desired alternative thermal effluent limitation (or appropriate modifications thereof) will nevertheless assure the protection and propagation of a balanced, indigenous community of shellfish, fish, and wildlife in and on the body of water into which the discharge is made.
 - 2) In determining whether prior appreciable harm has occurred, the Board ~~will~~shall consider the length of time during which the petitioner has been discharging and the nature of the discharge.

Section 106.1170 Opinion and Order

- a) After an opportunity for a public hearing and upon a satisfactory alternative thermal effluent limitation demonstration, the Board may order the Agency to include thermal discharge effluent limitations or standards in the petitioner's NPDES permit that are less stringent than those required by applicable standards and limitations if the thermal component of the discharge, taking into account the interaction of such thermal component with other pollutants, will assure the protection and propagation of a balanced, indigenous population of shellfish, fish, and wildlife in and on the body of water.
- b) In granting an alternative thermal effluent limitation, the Board may impose such conditions as may be necessary to accomplish the purposes of the Act.

- c) If the petitioner intends for the alternative thermal effluent limitation granted by the Board ~~underpursuant to~~ this Subpart to continue beyond the expiration of the petitioner's NPDES permit, the petitioner must apply for renewal of the alternative thermal effluent limitation ~~underpursuant to~~ Section 106.1180.

(Source: Amended at 41 Ill. Reg. _____, effective _____)

Adm. Code 101.520 within 35 days after the Agency's receipt of USEPA's objection.

(Source: Amended at 41 Ill. Reg. _____, effective _____)

Section 106.1180 Renewal of Alternative Thermal Effluent Limitations

- a) The permittee may request continuation of an alternative thermal effluent limitation granted by the Board, ~~pursuant to this Subpart~~, as part of its NPDES permit renewal application.
- b) Any application for renewal ~~must~~should include sufficient information for the Agency to compare the nature of the permittee's thermal discharge and the balanced, indigenous population of shellfish, fish, and wildlife at the time the Board granted the alternative thermal effluent limitation and the current nature of the petitioner's thermal discharge and the balanced, indigenous population of shellfish, fish, and wildlife. The permittee ~~must~~should be prepared to support this comparison with documentation based upon the discharger's actual operation experience during the previous permit term.
- c) If the permittee demonstrates that the nature of the thermal discharge has not materially changed to cause appreciable harm to the balanced, indigenous population of shellfish, fish, and wildlife in and on the body of water into which the discharge is made, and the alternative thermal effluent limitation granted by the Board has not caused appreciable harm to a balanced, indigenous population of shellfish, fish, and wildlife in and on the body of water into which the discharge is made, the Agency may include the alternative thermal effluent limitation in the ~~permittee's~~permittee's renewed NPDES permit.

- d) If the nature of the thermal discharge has materially changed to cause appreciable harm to the balanced, indigenous population of shellfish, fish, and wildlife in and on the body of water into which the discharge is made, materially or the alternative thermal effluent limitation granted by the Board has caused appreciable harm to a balanced, indigenous population of shellfish, fish, and wildlife in and on the body of water into which the discharge is made, the Agency ~~must~~may not include the thermal relief granted by the Board in the ~~permittee's~~permittee's renewed NPDES permit. The permittee must file a new petition and make the required demonstration ~~under~~pursuant to this Subpart before the alternative thermal effluent limitation may be included in the permittee's renewed NPDES permit.
