COMPLAINANTS’ EXHIBIT LIST FOR EACH WITNESS

Pursuant to the telephonic conference between the hearing officer and parties in PCB No. 2013-15, included herein is a list of exhibits for each witness.

On October 17, 2017 Complainants submitted a proposal to Respondents to minimize the number of groundwater reports to be introduced as exhibits. All of the groundwater reports listed herein were included in Complainants’ October 17, 2017 proposal. Any of these groundwater reports that has not yet been authenticated is being resubmitted for authentication.

Complainants are also resubmitting for authentication all documents where Complainants have indicated below that they have resolved an objection specific to that document.

Finally, as Complainants stated on October 6, 2017 when submitting their Witness Specific Exhibit Lists, Complainants note that the document description for exhibit lists in **COMPLAINANTS’ WITNESS SPECIFIC EXHIBIT LISTS** and **COMPLAINANTS’ PRE-HEARING MEMORANDUM** should not be treated as limiting. Similarly, the document description for exhibit lists in **COMPLAINANTS’ EXHIBIT LIST FOR EACH WITNESS** should not be treated as limiting. For instance, the bates ranges listed for emails include entire email chains. For emails, Complainants provided descriptive information, in some cases, that identifies exclusively the top email in the chain. That descriptive information was intended solely to aid in the identification of the document and not intended to be limiting information. Complainants intend to use the entire email chain as an exhibit (and may question witnesses about any email in the chain) as identified by the applicable bates ranges that accompany the document descriptions.

Complainants Exhibit List for Each Witness
