

PC.#2268

Illinois Pollution Board Hearing  
March 6th, 2018

RECEIVED  
CLERK'S OFFICE

MAR 12 2018

STATE OF ILLINOIS  
Pollution Control Board

Dynegy, like all utilities, have been highly regulated power systems- this has served them well in term of profitability. As the power grid changes in the 21st century they now want special political treatment. They have lobbied for state funds as well as new state laws. Currently this hearing is in terms of changing Sulfur dioxide Levels, UNITS, such as the one in Baldwin Illinois, burns nearly 110 railroad cars of coal daily. The good citizen of Southern Illinois cannot be subjected to higher levels of  $SO_2$  in the air. I urge you not to permit higher discharges of any toxins. Thank You -  
Wayne R Politsch.
