Subject: [External] Reject the Proposal to Rewrite the Multi-Pollutant Standard (R18-20)

Dear Pollution Control Board Hearing Officer Marie Tipsord,

I am deeply troubled by the Illinois EPA's proposal to rewrite the state's Multi-Pollutant Standard which would allow Dynegy's Illinois coal plants to immediately begin polluting more. I am writing to strongly urge the Pollution Control Board to reject this dangerous proposal which would weaken clean air standards in Illinois and result in more soot and acid rain.

Since this proposal was first introduced, Dynegy merged with Texas-based Vistra Energy and created an energy goliath worth billions of dollars. This is clearly not a company on the verge of collapse and in need of a bailout of any kind! The company's motivation for seeking the proposed rule change through the Illinois EPA is solely to maximize its profits. Why should this out-of-state company get a pollution bailout that puts corporate profits over air quality in Illinois?

The Pollution Control Board must reject this dangerous proposal and stand up for clean air in Illinois, not more corporate profits.

Regards,
Larysa Dolyniuk

Subject: [External] Reject the Proposal to Rewrite the Multi-Pollutant Standard (R18-20)

Dear Pollution Control Board Hearing Officer Marie Tipsord,

I am deeply troubled by the Illinois EPA's proposal to rewrite the state's Multi-Pollutant Standard which would allow Dynege's Illinois coal plants to immediately begin polluting more. I am writing to strongly urge the Pollution Control Board to reject this dangerous proposal which would weaken clean air standards in Illinois and result in more soot and acid rain.

Since this proposal was first introduced, Dynege merged with Texas-based Vistra Energy and created an energy goliath worth billions of dollars. This is clearly not a company on the verge of collapse and in need of a bailout of any kind! The company's motivation for seeking the proposed rule change through the Illinois EPA is solely to maximize its profits. Why should this out-of-state company get a pollution bailout that puts corporate profits over air quality in Illinois?

The Pollution Control Board must reject this dangerous proposal and stand up for clean air in Illinois, not more corporate profits.

Regards,
Jenny Cassel
