From: [Joan Granger \(granstub4452@yahoo.com\)](mailto:granstub4452@yahoo.com) Sent You a Personal Message
To: [Brown, Don](#)
Subject: [External] Dynegy-Vistra Proposed rule change, case number R2018-20.
Date: Thursday, January 17, 2019 3:34:20 PM

Dear IL Pollution Control Board Assistant Clerk,

And it's not just Peoria. We are entitled to clean air. My children are, and my grandchildren are, and if there is any justice, you will do the right thing and stop this weakening of rules. Clean is good. Pollution is BAD. We thought you knew that and had learned from past mistakes. People's health MATTERS.

Dear Clerk Brown:

Please accept my comment on the Dynegy-Vistra Proposed rule change, case number R2018-20.

I am writing in solidarity with communities members who are rightly concerned about their air quality worsening under the current proposal. While the PCB made changes to Dynegy-Vistra's request, those changes do not go far enough and ultimately still allow Dynegy-Vistra to increase its dangerous coal pollution by 40%. These changes to state air protections are unnecessary and the current MPS rate-based standard should be kept in place.

No Illinois community, like Peoria, should be a sacrifice zone with uncontrolled plants. Instead of weakening air regulations, Illinois should be leading in environmental health protections for our residents by strengthening existing rules like the MPS to require polluting coal plants to install modern pollution controls.

Thank you for this opportunity to comment,

Sincerely,

Joan Granger
