

Electronic Filing: Received, Clerk's Office 1/18/2019 P.C. #3141

From: [Marilyn Anderson \(jmsyoshi@gmail.com\) Sent You a Personal Message](mailto:jmsyoshi@gmail.com)
To: [Brown, Don](#)
Subject: [External] Dynege-Vistra Proposed rule change, case number R2018-20.
Date: Thursday, January 17, 2019 4:58:31 PM

Dear IL Pollution Control Board Assistant Clerk,

Ultimately there should be no coal plants creating pollution anywhere in the world, and especially not in Illinois. Those of us who suffer from asthma, especially feel the affects of pollution. Children with breathing issues suffer needlessly while wealthy polluters just make more and more profit. Please strengthen existing rules to prevent dirty air.

Dear Clerk Brown:

Please accept my comment on the Dynege-Vistra Proposed rule change, case number R2018-20.

I am writing in solidarity with communities members who are rightly concerned about their air quality worsening under the current proposal. While the PCB made changes to Dynege-Vistra's request, those changes do not go far enough and ultimately still allow Dynege-Vistra to increase its dangerous coal pollution by 40%. These changes to state air protections are unnecessary and the current MPS rate-based standard should be kept in place.

No Illinois community, like Peoria, should be a sacrifice zone with uncontrolled plants. Instead of weakening air regulations, Illinois should be leading in environmental health protections for our residents by strengthening existing rules like the MPS to require polluting coal plants to install modern pollution controls.

Thank you for this opportunity to comment,

Sincerely,

Marilyn Anderson
