

Electronic Filing: Received, Clerk's Office 1/18/2019 P.C. #3185

From: [Kimberly Williams \(miss.kimw@yahoo.com\)](mailto:miss.kimw@yahoo.com) Sent You a Personal Message
To: [Brown, Don](#)
Subject: [External] Dynegy-Vistra Proposed rule change, case number R2018-20.
Date: Friday, January 18, 2019 7:16:42 AM

Dear IL Pollution Control Board Assistant Clerk,

I believe clean air should be much more important than making profit. We need to help preserve life not compromise living things further. Air is a basic necessity and we should be cleansing it not the opposite by weakening laws. Please use common sense when deciding and meet the people's needs. Asthma and breathing issues are already a concern in Illinois both personally and within my friends and neighbors.

Dear Clerk Brown:

Please accept my comment on the Dynegy-Vistra Proposed rule change, case number R2018-20.

I am writing in solidarity with communities members who are rightly concerned about their air quality worsening under the current proposal. While the PCB made changes to Dynegy-Vistra's request, those changes do not go far enough and ultimately still allow Dynegy-Vistra to increase its dangerous coal pollution by 40%. These changes to state air protections are unnecessary and the current MPS rate-based standard should be kept in place.

No Illinois community, like Peoria, should be a sacrifice zone with uncontrolled plants. Instead of weakening air regulations, Illinois should be leading in environmental health protections for our residents by strengthening existing rules like the MPS to require polluting coal plants to install modern pollution controls.

Thank you for this opportunity to comment,

Sincerely,

Kimberly Williams
