---

Dear IL Pollution Control Board,

My name is Iliana Genkova and I am an atmospheric scientist from Chicago, IL. I oppose the weakening of the pollution control for Dynergy-Vista. I believe human health is of greater importance than Dynergy-Vista's corporate bottom line. Dynergy-Vista entered into this merger with full knowledge of their obligations.

Illinois residents should not be suffering while Dynergy-Vista is benefiting from the wrong decision being made. What's more, pollution has climate implications beyond the local regional effects.

I hope you would take a stand on behalf of the residents of Illinois.

Sincerely,  
iliana Genkova  
Chicago, IL
