Subject: [External] Comment on R2018-20, Amendments to 35 Ill. Adm. Code 225.233
Date: Sunday, February 10, 2019 8:15:46 AM

Dear IL Pollution Control Board Assistant Clerk,

I have a slightly different reason for requesting that you deny the Dynegy Corporation any regulatory changes regardless of their environmental or health impact. That reason simply is: They asked for this.

Dynegy acquired generation assets from Ameren Illinois either knowing full well the regulatory climate they were expected to perform in and the future direction such a climate was headed (both in-state and nationally) or, through a lack of due diligence during their acquisition, failed to account for this aspect of their future responsibilities. It should not become the responsibility of your Board or any other Agency of the State of Illinois to offset this negligence or shortsightedness for their benefit while it is to the detriment of even one other person or business entity.

For this specific reason, the Illinois Pollution Control Board should reject the regulatory changes proposed by R2018-20.

Thank you for your time and attention.

Sincerely,

Christopher Roberts
