**To:** [Brown, Don](#)  
**Subject:** [External] Dynegy-Vistra Proposed rule change, case number R2018-20.  
**Date:** Thursday, February 14, 2019 10:20:18 AM

---

Dear IL Pollution Control Board Assistant Clerk,

What is it with the fossil fuel industry? We pushed Springfield to STOP any new construction of ANY fossil fuel power plants. Yet we are getting one WE DO NOT WANT IN ELWOOD!  
Now Dynegy is asking for yet another free handout.  
Instead of appeasing the fossil fuel industry, why are you not addressing the coal ash problem?  
Do more than give tree huggers lip service. Do your JOB!

Dear Clerk Brown:

Please accept my comment on the Dynegy-Vistra Proposed rule change, case number R2018-20.

I am writing in solidarity with communities members who are rightly concerned about their air quality worsening under the current proposal. While the PCB made changes to Dynegy-Vistra's request, those changes do not go far enough and ultimately still allow Dynegy-Vistra to increase its dangerous coal pollution by 40%. These changes to state air protections are unnecessary and the current MPS rate-based standard should be kept in place.

No Illinois community, like Peoria, should be a sacrifice zone with uncontrolled plants. Instead of weakening air regulations, Illinois should be leading in environmental health protections for our residents by strengthening existing rules like the MPS to require polluting coal plants to install modern pollution controls.

Thank you for this opportunity to comment,

Sincerely,

Randy Juras
