Subject: [External] Dynegy-Vistra Proposed rule change, case number R2018-20.
Date: Tuesday, February 19, 2019 6:18:23 AM

Dear IL Pollution Control Board Assistant Clerk,

Please do what you can to keep our world clean! America should be setting the example of how to keep our world clean, lower pollution, and developing green power. Lets invest in the future, not energy that is as relevant as the wagon wheel.

Dear Clerk Brown:

Please accept my comment on the Dynegy-Vistra Proposed rule change, case number R2018-20.

I am writing in solidarity with communities members who are rightly concerned about their air quality worsening under the current proposal. While the PCB made changes to Dynegy-Vistra's request, those changes do not go far enough and ultimately still allow Dynegy-Vistra to increase its dangerous coal pollution by 40%. These changes to state air protections are unnecessary and the current MPS rate-based standard should be kept in place.

No Illinois community, like Peoria, should be a sacrifice zone with uncontrolled plants. Instead of weakening air regulations, Illinois should be leading in environmental health protections for our residents by strengthening existing rules like the MPS to require polluting coal plants to install modern pollution controls.

Thank you for this opportunity to comment,

Sincerely,

Rachel Kaiser
