ORGANIC MATERIAL EMISSION STANDARDS AND LIMITATIONS FOR THE
CHICAGO AREA (35 Ill. Adm. Code 218)
ORGANIC MATERIAL EMISSION STANDARDS AND LIMITATIONS FOR THE
METRO EAST AREA (35 Ill. Adm. Code 219)

1) Rulemaking: No docket presently reserved.

A) Description:

The IEPA is currently developing amendments for proposal to the Board to accomplish several goals in a single cleanup rulemaking. This includes the following amendments to the Illinois ozone rules: (1) the rulemaking may amend existing air pollution control rules for lithographic printing operations to clean up the existing language to make Parts 218 and 219 consistent with revisions to 35 Ill. Adm. Code Part 211 (Definitions) and with recent revisions to these rules; (2) the rulemaking may include amendments to existing rules for volatile organic liquid storage tanks; (3) the rulemaking may include a rule to amend existing rules for perchlorethylene dry cleaners, since perchloroethylene was delisted as a volatile organic material by the United States Environmental Protection Agency (USEPA); (4) the rulemaking may amend existing rules for capture efficiency testing in order to make state rules consistent with

POLLUTION CONTROL BOARD

USEPA's final rule on the revised capture efficiency test methods; (5) the rulemaking may correct minor or nonsubstantive errors amending rules for incorporations by reference, batch operations, and afterburner operation, air oxidation reactors and vapor collection and control systems; and (6) the rulemaking may also amend Part 211 to conform any possible conflicting provisions with the changes made to 35 Ill. Adm. Code 218 and 219.

B) Statutory authority:

Implementing and authorized by Sections 9.8, 27, 28.2, and 28.5 of the Environmental Protection Act [415 ILCS 5/9.8, 27, 28.2 & 28.5].

C) Scheduled meeting/hearing dates:

The IEPA has stated that it anticipates submitting its rulemaking proposal to the Board in the Summer or Fall of 2002. No hearings are scheduled at this time. Once a proposal is filed, the Board will hold hearings on the schedule established in Section 27 or 28.5 of the Environmental Protection Act [415 ILCS 5/27 or 28.5] for rulemakings that are required under the federal CAA.

D) Date agency anticipates First Notice:

An IEPA submittal of a proposal to the Board would commence this proceeding, and the IEPA has stated that it expects to file a proposal in the Summer or Fall of 2002. After the filing of a proposal by the IEPA, the Board will cause publication of a Notice of Proposed Amendments in the *Illinois Register*.

E) Effect on small business, small municipalities, or not-for-profit corporation:

This rulemaking may affect any small business, small municipality, or not-for-profit corporation that emits volatile organic material. However, the IEPA anticipates that the amendments will have no new substantive impact on any sources, since the amendments will be a clean-up of existing requirements.

d) Part (Heading and Code Citation):

DEFINITIONS AND GENERAL PROVISIONS (35 Ill. Adm. Code 211)

1) Rulemaking: Docket number R03-3

POLLUTION CONTROL BOARD

JULY 2002 REGULATORY AGENDA

A) Description:

Section 9.1(e) of the Environmental Protection Act [415 ILCS 5/9.1(e)] mandates that the Board update the Illinois definition of volatile organic material (VOM) to reflect the additions made by the United States Environmental Protection Agency (USEPA) to the list of compounds exempt from regulation as ozone precursors. Those compounds are determined by USEPA to be exempt from regulation under the state implementation plan (SIP) for ozone in the federal "Recommended Policy on the Control of Volatile Organic Compounds" (Recommended Policy) due to their negligible photochemical reactivity. On February 3, 1992 (57 Fed. Reg. 3945), USEPA codified its definition of VOM at 40 CFR 51.100(s), which now embodies the former Recommended Policy. This codified definition now includes all the compounds and classes of compounds previously exempted in the former Recommended Policy. The Illinois definition of VOM is presently codified at 35 Ill. Adm. Code 211.7150.

The Board has reserved docket number R03-3 to accommodate any amendments to the 40 CFR 51.100(s) definition of VOM that USEPA may make in the period January 1, 2002 through June 30, 2002. At this time, the Board is not aware of any federal amendments to the federal definition of VOM. The Board will verify the existence of any federal actions and the Board action required in response to each in coming weeks, by about mid-August 2002. The Board will then propose corresponding amendments to the Illinois definition of VOM using the identical-in-substance procedure or dismiss docket R03-3, as necessary and appropriate.

Section 9.1(e) mandates that the Board complete amendments within one year of the date on which USEPA adopted its action upon which the amendments are based. Assuming for the purposes of illustration that USEPA adopted an amendment that will require Board action on the first day of the update period, on January 1, 2002, the due date for Board adoption would be January 1, 2003.

B) Statutory authority:

Implementing and authorized by Sections 7.2, 9.1(e), and 27 of the Environmental Protection Act [415 ILCS 5/7.2, 9.1(e) & 27].

POLLUTION CONTROL BOARD

JULY 2002 REGULATORY AGENDA

C) Scheduled meeting/hearing dates:

None scheduled at this time. The Board will vote to propose any amendments at an open meeting in accordance with requirements established by Sections 27 and 28 of the Act [415 ILCS 5/27 & 28]. The Board will then schedule and conduct at least one public hearing, as required by Section 118 of the federal Clean Air Act (42 USC § 7418) for amendment of the Illinois ozone SIP.

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-August 2002, after which time the Board will propose any amendments to the Illinois definition of VOM that are necessary in response to the federal amendments that have occurred. If the due date for Board adoption of amendments in this docket is assumed to be January 1, 2003, for the purposes of illustration, the Board would vote to propose amendments and cause a Notice of Proposed Amendments to appear in the *Illinois Register* by early-October 2002. This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments. Alternatively, if no amendment to the Illinois definition is needed, the Board would promptly dismiss this reserved docket.

E) Effect on small business, small municipalities, or not-for-profit corporations:

This rulemaking may affect any small business, small municipality, or not-for-profit corporation that engages in the emission of a chemical compound that is the subject of a proposed exemption or proposed deletion from the USEPA list of exempted compounds.

F) Agency contact person for information:

G) Related rulemakings and other pertinent information:

Other prospective proceedings (see item (c) above) and other, as yet unknown, unrelated Board proceedings could potentially impact the general provisions of Part 211.

Section 9.1(e) of the Environmental Protection Act [415 ILCS 5/9.1(e)] provides that Title VII of the Act and Section 5 of the Administrative Procedure Act (APA) [5 ILCS 100/5-35, 40] shall not apply. Because this rulemaking is not subject to Section 5 of the APA, it is not subject to First Notice or to Second Notice review by the Joint Committee on Administrative Rules. Rather, the Board will cause a Notice of Proposed Amendments to appear in the *Illinois Register*, and it will accept public comments on the proposal for 45 days after the date of publication.

e) Part(s) Heading(s) and Code Citation(s):

NITROGEN OXIDES EMISSIONS (35 Ill. Adm. Code 217)

1) Rulemaking: No docket presently reserved.

A) Description:

On October 27, 1998, USEPA issued a NO_x SIP Call requiring Illinois and numerous other states to adopt certain regulations for the control of nitrogen oxide (NO_x) emissions that contribute to non-attainment or interfere with maintenance of the ozone air quality standard in other states pursuant to Section 110(a)(2)(D) of the CAA. Illinois is required to adopt NO_x emission controls for four categories of industrial sources. The Board has already adopted rules that control NO_x emissions from boilers

POLLUTION CONTROL BOARD

JULY 2002 REGULATORY AGENDA

and turbines serving electric generator units greater than 25 megawatts; boilers and turbines with heat input greater than 250 mmBtu/hr; and large cement kilns with ozone season emissions greater than one ton. The fourth category, large internal combustion engines, is the subject of this notice. The U.S. Court of Appeals remanded this category to USEPA for further consideration. Once USEPA promulgates a final rule for large internal combustion engines, the Agency will have to proceed promptly with this rulemaking. The Agency may also revise Sections in 35 Ill. Adm. Code 201 concerning continuous emissions monitoring.

B) Statutory Authority:

Implementing Section 10 and authorized by Sections 27 and 28.5 of the Act [415 ILCS 5/10, 27 and 28.5].

C) Scheduled meeting/hearing dates:

No meetings or hearings are scheduled at this time. Once the proposal is filed, the Board will conduct hearings as required by Sections 27 and 28 of the Act [415 ILCS 5/27 & 28].

D) Date Agency Anticipates First Notice:

A Fall 2002 or early Winter 2003 IEPA submittal to the Board of the proposal is expected, after which the Board will cause publication of a Notice of Proposed Amendments in the *Illinois Register*.

E) Effect on small business, small municipalities or not-for-profit corporations:

The proposed amendments would affect small businesses, small municipalities, or not-for-profit corporations to the extent that they own or operate a large internal combustion engine source that emits NO_x.

COMMERCIAL AND INDUSTRIAL SOLID WASTE INCINERATION UNITS AND AIR CURTAIN INCINERATORS (35 Ill. Adm. Code 230)

1) Rulemaking: No docket presently reserved.

A) Description:

On December 1, 2000, pursuant to Sections 111(d) and 129 of the Clean Air Act, the US EPA promulgated emission guidelines for commercial and industrial solid waste incinerators as well as air curtain incinerators (65 Fed. Reg. 75337). Illinois is required to adopt a State plan that includes rules, implementing these emission guidelines. This rule would apply to units that commenced construction on or before November 29, 1999, and units where reconstruction or modification commenced prior to June 1, 2001.

SEWER DISCHARGE CRITERIA (35 Ill. Adm. Code 307)
PRETREATMENT PROGRAMS (35 Ill. Adm. Code 310)

1) Rulemaking: Docket number R03-2

A) Description:

Section 13.3 of the Environmental Protection Act [415 ILCS 5/13.3] mandates that the Board update the Illinois wastewater pretreatment regulations to reflect revisions made to the federal wastewater pretreatment rules made by the United States Environmental Protection Agency (USEPA).

The Board has reserved docket number R03-2 to accommodate any amendments to the federal wastewater pretreatment rules, 40 CFR 400 through 499, that the USEPA may have made in the period January 1, 2002 through June 30, 2002. At this time, the Board is aware that USEPA undertook one action that affected the text of 40 CFR 400 through 499 and its implementation. This action is described as follows:

66 Fed. Reg. 50339 (October 3, 2001)	USEPA approved Project XL agreements involving five publicly owned treatment works, including the Metropolitan Water Reclamation District of Greater Chicago and amended the core wastewater pretreatment requirements to allow the states to implement these and future similar agreements.

The Board has already taken action on the listed federal action under a separate docket number, R02-9, for which a Notice of Proposed Amendments appeared in the November 30, 2001 issue of the *Illinois Register*, at 25 Ill. Reg. 15365. At present, we are unaware of any further federal actions in the time-frame of docket R03-2 that affect the text of 40 CFR 400 through 499 in a way that will require further Board attention to initiate amendments to the Illinois wastewater pretreatment regulations. The Board will verify the existence of any additional federal actions and the Board action required in response to each set of federal amendments in coming weeks, by about mid-August 2002. The Board will propose

corresponding amendments to the wastewater pretreatment regulations using the identical-in-substance procedure.

Section 9.1(e) of the Act mandates that the Board complete amendments within one year of the date on which USEPA adopted its action upon which the amendments are based. Assuming for the purposes of illustration that the earliest USEPA action during the update period that will require Board action is January 1, 2002, the due date for Board adoption of all amendments in the period would be January 1, 2003.

B) Statutory authority:

Implementing and authorized by Sections 7.2, 13, 13.3 and 27 of the Environmental Protection Act [415 ILCS 5/7.2, 13, 13.3 & 27].

C) Scheduled meeting/hearing dates:

None scheduled at this time. The Board will vote to propose any amendments at an open meeting in accordance with requirements established by Sections 27 and 28 of the Act [415 ILCS 5/27 & 28]. No hearing is required in identical-in-substance proceedings.

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-August 2002, after which time the Board will propose any amendments to the Illinois wastewater treatment rules that are necessary in response to the federal amendments that have occurred. If the due date for Board adoption of amendments in this docket is assumed to be January 1, 2003, the Board will vote to propose amendments and cause a Notice of Proposed Amendments to appear in the *Illinois Register* by early-October 2002. This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments.

E) Effect on small business, small municipalities, or not-for-profit corporations:

This rulemaking may affect any small business, small municipality, or not-for-profit corporation that pretreatment engages in the discharge of pollutants into the collection system of a publicly-owned treatment works that is the subject of any federal amendments.

1) Rulemaking: Docket number R98-11

A) Description:

The Board opened this rulemaking docket R98-11 on September 4, 1997, to identify and reconcile any inconsistencies between the LMFA-related regulations of Part 506 and the pre-existing agricultural-related pollution regulations of Parts 501 through 504.

Since the opening of docket R98-11, however, Public Acts 90-565 and 91-110, effective July 13, 1999, again amended the LMFA. The Board opened docket R98-26 to amend the LMFA-related rules to conform with the subsequent statutory amendments. The Board entered an order on January 22, 1998 staying the R98-11 rulemaking proceeding until the conforming amendments of docket R98-26 are completed. It is unlikely that the Board will proceed with this docket since P.A. 91-110 delegated a majority of the regulations to the Department of Agriculture. However, the Board will wait to act on this docket until reviewing the Department's final rules and the corresponding proposal to 35 Ill. Adm. Code 506.

PRIMARY DRINKING WATER STANDARDS (35 Ill. Adm. Code 611)

1) Rulemaking: Docket number R03-4

A) Description:

Section 17.5 of the Environmental Protection Act [415 ILCS 5/17.5] mandates that the Board update the Illinois SDWA regulations to reflect the USEPA amendments to the federal Safe Drinking Water Act (SDWA) primary drinking water regulations.

POLLUTION CONTROL BOARD

JULY 2002 REGULATORY AGENDA

The Board has reserved docket number R03-4 to accommodate any amendments to the SDWA primary drinking water regulations, 40 CFR 141 through 143, that the United States Environmental Protection Agency (USEPA) may make in the period January 1, 2002 through June 30, 2002. At this time, the Board is aware that USEPA undertook a single action that affected the text of 40 CFR 141 through 143 in a way that will likely require amendment of the Illinois drinking water regulations. This action is described as follows:

67 Fed. Reg. 1812 (January 14, 2002)	USEPA adopted the Long Term 1 Enhanced Surface Water Rule, to improve control of the risks posed by microbial pathogens and balance the risks of disinfection byproducts. The LT1ESWR applies to systems using surface water or groundwater under the direct influence of surface water that serve fewer than 10,000 persons. The LT1ESWR complements the earlier Interim Enhanced Surface Water Treatment Rule (IESWR) that applies to larger systems.
---	---

The Board will verify the existence of any additional federal actions and the Board action required in response to each set of federal amendments in coming weeks, by about mid-August 2002. The Board will then propose corresponding amendments to the Illinois SDWA regulations using the identical-in-substance procedure under docket R03-4, as necessary and appropriate.

Section 17.5 mandates that the Board complete its amendments within one year of the date on which the United States Environmental Protection Agency (USEPA) adopted its action upon which the amendments are based. Assuming for the purposes of illustration that USEPA adopted an amendment that will require Board action on the first action in the update period, that of January 14, 2002, the due date for Board adoption would be January 14, 2003.

B) Statutory authority:

Implementing and authorized by Sections 17, 17.5, and 27 of the Environmental Protection Act [415 ILCS 5/17, 17.5 & 27].

C) Scheduled meeting/hearing dates:

None scheduled at this time. The Board will vote to propose any amendments at an open meeting in accordance with requirements established by Sections 27 and 28 of the Act [415 ILCS 5/27 & 28]. No hearing is required in identical-in-substance proceedings.

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-August 2002, after which time the Board will propose any amendments to the Illinois SDWA drinking water rules that are necessary in response to the federal amendments that have occurred. This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments.

E) Effect on small business, small municipalities, or not-for-profit corporations:

This rulemaking may affect any small business, small municipality, or not-for-profit corporation in Illinois that owns or operates a "public water supply," as defined by Section 3.28 of the Act, *i.e.*, it has at least fifteen service connections or regularly serves an average of at least 25 individuals daily at least 60 days out of the year, or it is assisting a public water supply to demonstrate compliance.

Because this rulemaking is not subject to Section 5 of the APA, it is not subject to First Notice or to Second Notice review by the Joint Committee on Administrative Rules. LABORATORY ACCREDITATION RULES (35 Ill. Adm. Code 611)

1) Rulemaking: No docket presently reserved.

A) Description:

The IEPA proposal will seek to amend the public water supplies rules found in 35 Ill. Adm. Code 611 to cross reference the IEPA's own laboratory accreditation rules found at 35 Ill. Adm. Code 186. These prospective amendments to Sections 611.359, 611.611, 611.646, and 611.648 would cross-reference the Illinois Environmental Protection Agency's (IEPA's) laboratory accreditation rules at 35 Ill. Adm. Code 186. Currently, the existing text of Part 611 references 35 Ill. Adm. Code 183, which are joint rules of the IEPA, the Illinois Department of Public Health, and the Illinois Department of Nuclear Safety. A repeal of Part 183 has been completed.

D) Date Agency Anticipates First Notice:

An IEPA submittal of the rulemaking proposal is anticipated by Summer or Fall 2002. The Board will conduct proceedings pursuant to Sections 27 and 28 of the Environmental Protection Act [415 ILCS 5/27 & 28] upon receipt of the proposal and would cause a Notice of Proposed Amendments to appear in the *Illinois Register* when it decides to propose amendments for First Notice.

E) Affect on small business, small municipalities or not-for-profit corporations:

These amendments may affect small business, small municipalities, and not-for-profit corporations that own or operate a "public water supply", as defined by Section 3.28 of the Act, i.e., it has at least fifteen service connections or regularly serves an average of at least 25 individuals daily at least 60 days out of the year, or it is assisting a public water supply to demonstrate compliance with the federally-derived National Primary Drinking Water Standards of 35 Ill. Adm. Code 611. However, it is anticipated that the proceeding will not likely have a quantifiable affect on these entities because the program for national laboratory certification is voluntary. The burden of compliance with the requirements, such as filing documentation, reporting or completion of the necessary forms, likely will not increase.

1) Rulemaking: Presently reserved docket number R03-5

A) Description:

Section 13(c) of the Environmental Protection Act [415 ILCS 5/13(c)] mandates that the Board update the Illinois underground injection control (UIC) regulations to reflect amendments to the United States Environmental Protection Agency (USEPA) UIC regulations.

The Board has reserved docket number R03-5 to accommodate any amendments to the federal UIC regulations, 40 CFR 144 through 148,

POLLUTION CONTROL BOARD

JULY 2002 REGULATORY AGENDA

during the period January 1, 2002 through June 30, 2002. At this time, the Board is not aware of any federal amendments to the federal UIC regulations. The Board will verify the existence of any federal actions and the Board action required in response to each in coming weeks, by about mid-August 2002. The Board will then propose corresponding amendments to the Illinois UIC regulations using the identical-in-substance procedure or dismiss docket R03-5, as necessary and appropriate.

Section 13(c) mandates that the Board complete amendments within one year of the date on which USEPA adopted its action upon which the amendments are based. Assuming for the purposes of illustration that the earliest USEPA action during the update period that will require Board action is the first day of the update period, on January 1, 2002, the due date for Board adoption of all amendments in the period would be January 1, 2003.

B) Statutory authority:

Implementing and authorized by Sections 7.2, 13(c) and 27 of the Environmental Protection Act [415 ILCS 5/7.2, 13(c) & 27].

C) Scheduled meeting/hearing dates:

None scheduled at this time. The Board will vote to propose any amendments at an open meeting in accordance with requirements established by Sections 27 and 28 of the Act [415 ILCS 5/27 & 28]. No hearing is required in identical-in-substance proceedings.

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-August 2002, after which time the Board will propose any amendments to the Illinois UIC rules that are necessary in response to the federal amendments that have occurred. If the due date for Board adoption of amendments in this docket is assumed to be January 1, 2003, the Board will vote to propose amendments and cause a Notice of Proposed Amendments to appear in the *Illinois Register* by early-October 2001. This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments.

1) Rulemaking: Docket number R03-7

A) Description:

Section 22.4(a) of the Environmental Protection Act [415 ILCS 5/22.4(a)] mandates that the Board update the Illinois rules implementing Subtitle C of the federal Resource Conservation and Recovery Act (RCRA) to reflect the United States Environmental Protection Agency (USEPA) amendments to the federal RCRA Subtitle C regulations.

The Board has reserved docket number R03-7 to accommodate any amendments to the federal RCRA Subtitle C program, 40 CFR 260 through 270, 273, and 279, that USEPA made in the period January 1, 2002 through June 30, 2002. At this time, the Board is aware of seven federal actions that occurred in this time-frame. Those actions are described as follows:

POLLUTION CONTROL BOARD

JULY 2002 REGULATORY AGENDA

67 Fed. Reg. 2962 (January 22, 2002)	USEPA amended the corrective action management unit (CAMU) rule to facilitate and remove disincentives to corrective action at RCRA facilities.
67 Fed. Reg. 6792 (February 13, 2002)	USEPA established interim emission standards for hazardous waste combustors in response to the judicial order in the case <i>Cement Kiln Recycling Coalition v. EPA</i> , 255 F.3d 855 (D.C. Cir. 2001). That case vacated segments of the September 30, 1999 hazardous waste combustor rule. The court ordered that USEPA issue final emission standards by June 14, 2005 and interim standards by February 14, 2002.
67 Fed. Reg. 6968 (February 14, 2002)	USEPA amended the provisions of the September 30, 1999 hazardous waste combustor rule to facilitate implementation of the rule. These are companion amendments to those of February 13, 2002, but they do not affect substantive emissions standards.
67 Fed. Reg. 11251 (March 13, 2002)	USEPA amended its Phase IV land disposal restriction (LDR) rule in response to the judicial vacatur in the case <i>Association of Battery Recyclers v. EPA</i> , 208 F.3d 1047 (D.C. Cir. 2000). The amendments related to two aspects of the Phase IV LDR rule vacated by the court. First, USEPA deleted language that classified mineral processing characteristic sludges and byproducts being reclaimed as solid waste. Second, USEPA included language that renders the toxicity characteristic leaching procedure (TCLP) test inapplicable to manufactured gas plant (MGP) waste.
67 Fed. Reg. 16262 (April 4, 2002)	USEPA determined not to list certain paint production wastes as hazardous and impose land disposal restrictions on them.
67 Fed. Reg. 17119 (April 9, 2002)	USEPA corrected a segment of its November 20, 2001 inorganic production waste rule.
67 Fed. Reg. 30811 (May 8, 2002)	USEPA corrected segments of the consolidated permit rules of 40 C.F.R. 124 as they appeared in the 2001 edition of the <i>Code of Federal Regulations</i> , including a segment relating to RCRA permits.

POLLUTION CONTROL BOARD

JULY 2002 REGULATORY AGENDA

The Board has not yet determined whether this listing of federal actions is an exhaustive listing of all federal actions that affect the text of 40 CFR 260 through 270, 273, and 279. The Board has not yet fully verified whether Board action to amend the Illinois RCRA Subtitle C hazardous waste regulations will be required by each of the listed federal actions. The Board has already taken action relating to the federal amendments of January 22, March 13, and April 9, 2002, and it presently appears that no further Board action will be required by these three sets of federal amendments. Further, the federal action of April 4, 2002 is a USEPA determination not to amend its hazardous waste regulations, so no corresponding Board will be necessary on that basis.

The Board will verify the existence of any additional federal actions and the Board action required in response to each set of federal amendments in coming weeks, by about mid-August 2002. The Board will propose corresponding amendments to the RCRA Subtitle C hazardous waste regulations using the identical-in-substance procedure.

Section 22.4(a) mandates that the Board complete our amendments within one year of the date on which the United States Environmental Protection Agency (USEPA) adopted its action upon which our amendments are based. Assuming for the purposes of illustration that the earliest USEPA action during the update period that will require Board action is February 13, 2002, the due date for Board adoption of all amendments in the period would be February 13, 2003.

B) Statutory authority:

Implementing and authorized by Sections 7.2, 22.4(a), and 27 of the Environmental Protection Act [415 ILCS 5/7.2, 22.4(a) & 27].

None scheduled at this time. The Board will vote to propose any amendments at an open meeting in accordance with requirements established by Sections 27 and 28 of the Act [415 ILCS 5/27 & 28]. No hearing is required in identical-in-substance proceedings.

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-August 2002, after

which time the Board will propose any amendments to the Illinois RCRA Subtitle C hazardous waste rules that are necessary in response to the federal amendments that have occurred. This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments.

UNDERGROUND STORAGE TANKS (35 Ill. Adm. Code 731)

- 1) Rulemaking: Docket number R03-1

- A) Description:

Section 22.4(d) of the Environmental Protection Act [415 ILCS 5/22.4(d)] mandates that the Board update the Illinois underground storage tank (UST) regulations to reflect amendments to the United States Environmental Protection Agency (USEPA) UST regulations. The mandate specifically excludes federal amendments relating to the design, construction, installation, general operation, release detection, release reporting, release investigation, release confirmation, out-of-service systems, and closure or financial responsibilities for USTs.

The Board has reserved docket number R03-1 to accommodate any amendments to 40 CFR 281 through 283 that USEPA may make in the period January 1, 2002 through June 30, 2002. At this time, the Board is not aware of any federal amendments. The Board will verify the existence of any federal actions and the Board action required in response to each in coming weeks, by about mid-August 2002. The Board will then propose corresponding amendments to the Illinois UST regulations using the identical-in-substance procedure or dismiss docket R03-1, as necessary and appropriate.

Section 22.4(d) mandates that the Board complete our amendments within one year of the date on which USEPA adopted its action upon which our amendments are based. Assuming for the purposes of illustration that USEPA adopted an amendment that will require Board action on the first day of the update period, on January 1, 2002, the due date for Board adoption would be January 1, 2003.

A) Description:

Section 22.40(a) of the Environmental Protection Act [415 ILCS 5/22.40(a)] mandates that the Board update the Illinois Resource Conservation and Recovery Act (RCRA) Subtitle D municipal solid waste landfill (MSWLF) regulations to reflect the United States Environmental Protection Agency (USEPA) amendments to the federal RCRA Subtitle D MSWLF rules.

The Board has reserved docket number R03-6 to accommodate any amendments to the RCRA Subtitle D regulations, 40 CFR 258, that USEPA may make in the period January 1, 2002 through June 30, 2002. At this time, the Board is not aware of any federal amendments to the federal RCRA Subtitle D regulations during this period. The Board will then propose corresponding amendments to the Illinois RCRA Subtitle D municipal solid waste regulations using the identical-in-substance procedure or dismiss docket R03-6, as necessary and appropriate.

Section 22.40(a) mandates that the Board complete its amendments within one year of the date on which USEPA adopted its action upon which the amendments are based. In docket R03-6, if the earliest federal amendments in the applicable period is assumed to have occurred on January 1, 2002, the due date would be January 1, 2003.

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-August 2002, after which time the Board will propose any amendments to the Illinois RCRA Subtitle D MSWLF rules that are necessary in response to the federal amendments that have occurred. If the due date for Board adoption of amendments in this docket is assumed to be January 1, 2003, the Board will vote to propose amendments and cause a Notice of Proposed Amendments to appear in the *Illinois Register* by early-October 2002. This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments.

POLLUTION CONTROL BOARD

JULY 2002 REGULATORY AGENDA

GENERAL PROVISIONS (35 Ill. Adm. Code Part 900); SOUND EMISSION STANDARDS AND LIMITATIONS FOR PROPERTY LINE-NOISE-SOURCES (35 Ill. Adm. Code Part 901).

1) Rulemaking: No docket presently reserved.

A) Description:

35 Ill. Adm. Code Part 900 contains the general provisions to the Board's noise regulations. Section 900.103 sets forth the procedures to be used for measuring sound. Under that Section the procedures used must be in substantial conformity with certain standards of the American National Standards Institute ("ANSI"). The ANSI standards referenced in Section 900.103, however, are now outdated. The proposed amendments will update the references to current ANSI standards.

35 Ill. Adm. Code Part 901 contains the standards for allowable sound levels from property line noise sources. 35 Ill. Adm. Code 901.104 contains limits for impulsive sound and requires sound to be measured with "fast dynamic characteristic" and is therefore inconsistent with 35 Ill. Adm. Code 900.103(b), which requires sound to be measured as "leq". Section 901.104 will be amended to comply with the requirements of Section 900.103(b).

B) Statutory authority:

Implementing Section 25 and authorized by Section 27 of the Environmental Protection Act (415 ILCS 5/25 and 5/27).

C) Scheduled meeting/hearing dates:

The IEPA anticipates it will file a rulemaking proposal in Summer or Fall 2002. No meetings or hearings are scheduled at this time. Once the proposal is filed the Board will conduct public hearings in accordance with Sections 27 and 28 of the Act [415 ILCS 5/27, 5/28].

D) Date Agency anticipates First Notice, if known:

The IEPA anticipates submitting its proposal in Summer or Fall of 2002, after which the Board will cause publication of a Notice of Proposed Amendments in the *Illinois Register*.

- G) Related rulemakings and other pertinent information:

The IEPA plans to repeal 35 Ill. Adm. Code Parts 951 and 952. Those Parts set forth measurement procedures adopted pursuant to 35 Ill. Adm. Code 900.103, and are therefore based upon outdated ANSI standards.

POLLUTION CONTROL BOARD

JULY 2002 REGULATORY AGENDA

dd) Part (Headings and Code Citations):

GENERAL PROVISIONS (35 Ill. Adm. Code 1420)

ACTIVITY STANDARDS (35 Ill. Adm. Code 1421)

DESIGN AND OPERATION OF FACILITIES (35 Ill. Adm. Code 1422)

1) Rulemaking: No docket presently reserved.

A) Description:

35 Ill. Adm. Code Subtitle M, Parts 1420, 1421, and 1422, are the rules for Potentially Infectious Medical Waste (PIMW). Through administration of these rules, the IEPA has identified a need for the disposal outside of the municipal waste stream of household medical waste, including sharps, generated from home health care. One approach under consideration is to exempt from the transfer station permit requirement doctors' offices, hospitals and pharmacies that accept household-generated medical wastes for transfer to disposal facilities. The permit requirement may be replaced with a requirement for registration with the IEPA. Certain other provisions are in need of clarification. However, it is not clear at this time whether each of the three Parts will need to be amended.

B) Statutory Authority:

Sections 27 and 56.2(f) of the Act [415 ILCS 5/27, 56.2(f)].

C) Scheduled Meeting/Hearing Dates:

The IEPA anticipates it will file a rulemaking proposal in Summer or Fall of 2002. No meetings or hearings are scheduled at this time. Once the proposal is filed the Board will conduct public hearings in accordance with Sections 27 and 28 of the Act [415 ILCS 5/27, 5/28].

D) Date Agency Anticipates First Notice:

The IEPA anticipates submitting its proposal in Summer or Fall of 2002, after which the Board will cause publication of a Notice of Proposed Amendments in the *Illinois Register*.

POLLUTION CONTROL BOARD

JULY 2002 REGULATORY AGENDA

E) Effect on Small Business, Small Municipalities, or Not-for-Profit Corporations:

This rule may affect any small business, small municipality, or not-for-profit corporations that disposes PIMW. The IEPA anticipates that the changes contemplated would not have a significant effect. Exempting medical providers from the transfer station permit requirement if they accept household-generated waste for transfer to disposal facilities would assist such providers in performing a community service by reducing the associated regulatory burden. The clarifications being considered would not substantively change the existing requirements.
