) v.) PCB 82-112
)
) ILLINOIS ENVIRONMENTAL)
) PROTECTION AGENCY,)
)
) Respondent.)

OPINION AND ORDER OF THE BOARD (by J.D. Dumelle):

On August 5, 1982 the Board granted a provisional variance to the Village of Franklin Grove from the biochemical oxygen demand and suspended solids limitations of Rule 404(c) and the fecal coliform standard of Rule 405 of Chapter 3: Water Pollution (now Section 304.120(c) and 304.121 of 35 Ill. Admin. Code, Subtitle C).

On September 15, 1982 the Illinois Environmental Protection Agency (Agency) filed a recommendation that provisional variance be extended until October 15, 1982. Based upon that recommendation, and as mandated by Section 36(c) of the Environmental Protection Act, the Board will grant that extension. The Board notes, however, that the Agency has apparently calculated the termination date of the provisional variance granted in PCB 82-95 on the basis of the date the Order was entered in that case (August 5, 1982) rather than the date on which the high rate sandfilters were taken out of service as was ordered in that case.

ORDER

The provisional variance granted by Order of August 5, 1982 to the Village of Franklin Grove is hereby extended until October 15, 1982.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Opinion and Order were adopted on the 15th day of September, 1982 by a vote of 5-0.

Christan L. Moffett, Clerk
Illinois Pollution Control Board
