)
 ILLINOIS ENVIRONMENTAL PROTECTION)
 AGENCY,)
)
 Respondent.)

ORDER OF THE BOARD (by B. Forcade):

On January 24, 1984, National Can Corporation (National) filed a Waiver of Hearing, that modified their previous conditional request for hearing. National has requested a variance from the volatile organic compound (VOC) emission limitations applicable to its Rockford can manufacturing plant.

If National's request for a VOC variance is granted it will require revision of the State Implementation Plan, consequently a hearing must be held. This matter will be set for hearing.

In order to allow the Board to make an informed decision the parties are encouraged to provide information on the level of VOC emissions, in pounds per year, which will not adversely affect air quality or the environment. This information should include any available VOC emissions data that would assist the Board in reviewing the impact of emissions during the time of greatest concern, the ozone season.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 9th day of February, 1984, by a vote of 7-0.

Christan L. Moffett, Clerk
Illinois Pollution Control Board
