CERTIFIED INDEX OF ADMINISTRATIVE RECORD

The Respondent, Illinois Environmental Protection Agency ("Illinois EPA"), by and through its attorneys in accordance with the Board's Order of January 19, 2006, files its Administrative Record ("Administrative Record") in this cause.

On September 9, 2005, Ameren Energy Resources Generating Company ("Ameren") requested a revision to State Operating Permit No. 73010724 to allow it to burn sub-bituminous coal, in addition to bituminous coal, on a long-term basis at an electrical power generation facility known as the Edwards Power Station. The facility is located at 7800 South CILCO Lane in Bartonville, Illinois.

Acting in accordance with its authority under the Clean Air Act Permit Program ("CAAPP") provisions of the Illinois Environmental Protection Act (hereinafter "Act"), 415 ILCS 5/39.5(2004), the Illinois EPA issued a CAAPP permit to Ameren on September 29, 2005. The CAAPP permit not only authorized the operation of the Edwards Power Station but placed together in one document all of the source's obligations under the Clean Air Act. On November 3, 2005, Petitioner filed a petition

before the Illinois Pollution Control Board ("Board") challenging certain permit conditions contained within the CAAPP permit issued by the Illinois EPA. On December 9, 2005, the Illinois EPA denied Ameren's request to revise Operating Permit Number 73010724 due to the superceding issuance of the CAAPP permit to the source.

The original and four copies of this Administrative Record are filed with the Board. This Administrative Record consists of the following:

	<u>Document</u>	<u>Page</u>
1.	September 29, 2005, CAAPP Permit issued to Ameren's Edwards Power Station, Application No. 95070026	1-120
