 v. ) PCB 84-28  
 )  
 ILLINOIS ENVIRONMENTAL PROTECTION )  
 AGENCY, )  
 )  
 ) Respondent. )

ORDER OF THE BOARD (by B. Forcade):

On March 1, 1984, Meyer Steel Drum Inc. filed a Petition for Variance. That Petition is deficient in that it fails:

1. to provide information on ozone ambient air quality, in areas impacted by this variance request, from 1980 to the present;
2. to provide information on the level of VOC emissions, in pounds per year, which will not adversely affect air quality standards or the environment. This information should include any available VOC emissions data that would assist the Board in reviewing the impact of emissions during the time of greatest concern, the ozone season.

Unless an amended petition is filed within 45 days of the date of this Order curing the above-noted defect, this petition will be subject to dismissal.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 8<sup>th</sup> day of March, 1984 by a vote of 6-0.
