

ILLINOIS POLLUTION CONTROL BOARD
February 4, 1982

IN THE MATTER OF:)
)
ADDITIONS TO TITLE 35: ENVIRON-) R82-2; R71-9 and
MENTAL PROTECTION; SUBTITLE I:) R80-1
ATOMIC RADIATION; CHAPTER 1:)
POLLUTION CONTROL BOARD)

ORDER OF THE BOARD (by J.D. Dumelle):

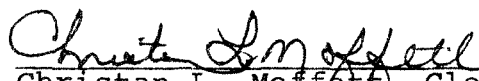

On January 27, 1982 the Illinois Department of Nuclear Safety (DNS) submitted a proposal to the Board for promulgation of regulations governing radiological air emissions from facilities currently licensed by the United States Nuclear Regulatory Commission. The proposal, as submitted, proposes these regulations as a new Part XI to Chapter 2. However, the Board has already accepted proposals for a new Part XI (R81-16) and a new Part XII (R81-20) such that this proposal becomes Part XIII. Further, since Chapter 2 will likely be codified prior to completion of this proceeding, the Board has requested that the DNS submit an amended proposal in codified form. Since this amendment is expected in the near future, the Board has encaptioned the case consistent with the codified format.

Further, this proposal was filed under R71-9 and R80-1 (Consolidated) but has been docketed as R82-2. This is due to the fact that the present proposal replaces the R71-9 proposal in its entirety and R80-1 (which was docketed solely for the purpose of determining whether the Board has jurisdiction in this area) has already been dismissed upon the Board's finding that it has jurisdiction over radiological air emissions.

Therefore, the Board hereby accepts this proposal as R82-2 and authorizes hearings to be held to consider the proposal. R79-1 is hereby dismissed as having been replaced by the R82-2 proposal.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 4th day of February, 1982 by a vote of 4-0.

Christan L. Moffett, Clerk
Illinois Pollution Control Board
