ORDER OF THE BOARD (by J. Anderson):

On June 1, 1981 the Village petitioned for variance from the barium and gross alpha particle activity standards of Rule 304(C) of Chapter 6: Public Water Supplies. On June 10, the Agency moved that these petitions be consolidated. The motion is granted.

Both petitions fail to contain recent test results indicating the degree of the Village's violation of the standards from which variance is sought. Both also do not specifically request or waive hearing, and are not supported by affidavits. Rather than dismissing the petitions pursuant to the Agency's June 10 motions in each case, the Board grants leave to amend. If an amended petition curing these deficiencies is not filed within 45 days of the date of this Order, this petition will be subject to dismissal.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 10th day of June, 1981 by a vote of 4-0.
