ORDER OF THE BOARD (by J. Anderson):

This petition, filed March 19, 1982, is deficient in two respects. First, hearing was neither requested nor waived as required by Procedural Rule 401(b). (Petitioner is reminded that if hearing is waived, an affidavit attesting to the truth of the facts alleged is required.) Second, while the petition states that the favored compliance option is replacement of its current water supply in whole or in part by Lake Michigan water, it does not state a) when the allocation is available to it, b) what its current plans and timetable are regarding transmission of the water to Wildwood for use, and c) how it would plan to implement the blending proposal alluded to in the petition. If an amended petition curing these defects is not filed within 45 days of the date of this Order, this petition will be subject to dismissal.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 1<sup>st</sup> day of April, 1982 by a vote of 4-0.
