 Petitioner,)
)
 v.) PCB 82-53
)
 ILLINOIS ENVIRONMENTAL)
 PROTECTION AGENCY,)
)
 Respondent.)

ORDER OF THE BOARD (by D. Anderson):

On April 14, 1983 The Meyercord Company filed a motion for reconsideration of Condition 2 of the Board's Opinion and Order of March 10, 1983, which allowed a maximum emission of 135 tons per year of volatile organic compounds. This condition was based on Meyercord's representation in the petition that it was emitting 135 tons per year and that emissions at that level posed no threat to air quality. Meyercord indicates in the motion that actually it anticipates emission of up to 210 tons per year with increasing business activity. The Illinois Environmental Protection Agency has filed no response to the motion, which is granted. Condition 2 is modified to read as follows:

2. Petitioner shall not emit more than 210 tons of volatile organic compounds (VOC) during any calendar year ending during the term of this variance.

IT IS SO ORDERED.

I, Christian L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify that above Order was adopted on the 5th day of May, 1983 by a vote of 4-0.

Christian L. Moffett, Clerk
Illinois Pollution Control Board
