

Dear Members Of The Illinois Pollution Control Board:

I urge you to adopt strong controls that, by 2009, would cut coal plant mercury pollution by 90%. R06-25

Every river, lake, and stream in Illinois now carries a health warning for mercury contamination. Illinois can address this problem now and show America how requiring cost-effective measures for mercury control will clean up local lakes and streams and promote a healthy economy. PCH 101

Reducing mercury emissions by 90% is achievable at reasonable cost. Please approve **RECEIVED** STATE OF ILLINOIS **CLERK'S OFFICE** APR 26 2006 plans to protect our families and our wildlife from unnecessary harm.

Sincerely,
Name *Shirley J. [Signature]*
