RECEIVED  
CLERK'S OFFICE  
MAY - 3 2006  
STATE OF ILLINOIS  
Pollution Control Board

Dear Members of the Illinois Pollution Control Board.

pc#214

I am writing to urge you to accept the Governor's proposal of strong controls that would cut coal plant mercury pollution by 90% by 2009. Every waterway in Illinois now carries a health warning for mercury contamination. Illinois can address this problem now and show America how requiring cost-effective measures for mercury control will clean up local lakes and streams to promote a healthy economy.

Reducing mercury emissions by 90% is achievable at reasonable cost. Please approve this plan to protect our families and our wildlife from unnecessary harm.

Thank you  
Sincerely,

Joanne Kelly
