Chicago, IL 60601

Dear Members of the Illinois Pollution Control Board,

I urge you to adopt strong controls that, by 2009, would cut coal plant mercury pollution by 90%.

Every river, lake, and stream in Illinois now carries a health warning for mercury contamination. Illinois can address this problem now and show America how requiring cost effective measures for mercury control will clean up local lakes and streams and promote a healthy economy.

Reducing mercury emissions by 90% is achievable at reasonable cost. Please approve this plan to protect our families and our wildlife from unnecessary harm.

Thank you for your kind consideration of this important proposal.

Sincerely,

A handwritten signature in black ink, appearing to read "Jerry Herst".
