ORDER OF THE BOARD (by Mr. Dumelle):

Petition filed October 21, 1976 is inadequate in that the amounts by which the limits of Rule 408 of the Water Pollution Control Rules will be exceeded are not clearly given nor is the effect delineated upon water quality in the streams affected.

Furthermore, the "short-term increases in turbidity and both suspended and dissolved solids in the immediate vicinity of the dredging operation" are not quantified as to duration or strength. The cost of the treatment plant alternative is not given nor is the cost of a failure to dredge.

Petitioner shall amend the Petition within 45 days from the date of this Order to provide the necessary information discussed above. A waiver of the 90-day decision period set by State statute shall also be filed with the Board and Agency to run from the date of filing the Amended Petition.

Failure to timely file the needed information shall make the Petition liable to dismissal for inadequacy.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 10th day of November, 1976 by a vote of 5-0.

Christan L. Moffett, Clerk
Illinois Pollution Control Board
